Relationships, Residence and the Individual Stephen Gudeman, 2013-10-11 Representing a departure from traditional studies of social organisation the book asserts that a kinship system is best understood as a system of concepts rather than as a set of empirical relationships Three aspects of life in the Panamanian community of Los Boquerones are described First published in 1976 Borderland on the Isthmus Michael E. Donoghue, 2014-04-23 The construction maintenance and defense of the Panama Canal brought Panamanians U S soldiers and civilians West Indians Asians and Latin Americans into close even intimate contact In this lively and provocative social history Michael E Donoghue positions the Panama Canal Zone as an imperial borderland where U S power culture and ideology were projected and contested Highlighting race as both an overt and underlying force that shaped life in and beyond the Zone Donoghue details how local traditions and colonial policies interacted and frequently clashed Panamanians responded to U S occupation with proclamations protests and everyday forms of resistance and acquiescence Although U S soldiers and military personnel stigmatized Panamanians as racial inferiors they also sought them out for service labor contraband sexual pleasure and marriage The Canal Zone he concludes reproduced classic colonial hierarchies of race national identity and gender establishing a model for other U S bases and imperial outposts around the globe *Problems of a Sociology of Knowledge (Routledge Revivals)* Max Scheler, 2012-11-12 First Published in 1980 Manfred S Frings translation of Problems of a Sociology of Knowledge makes available Max Scheler s important work in sociological theory to the English speaking world The book presents the thinker s views on man s condition in the twentieth century and places it in a broader context of human history This book highlights Scheler as a visionary thinker of great intellectual strength who defied the pessimism that many of his peers could not avoid He comments on the isolated fragmented nature of man s existence in society in the twentieth century but suggests that a World Age of Adjustment is on the brink of existence Scheler argues that the approaching era is a time for the disjointed society of the twentieth century to heal its fractures and a time for different forms of human knowledge to come together in global understanding **The New Criminology** Ian Taylor, Ian Taylor, M.B, Paul Walton, Jock Young, 2002-11 A major contribution to criminology in which Taylor Walton and Young provide a framework for a fully social theory of crime Peopled Economies Staffan Löfving, 2005 Method and Theory for Activity Area Research Susan Kent, 1987 *The Singer's Needle* Ezer Vierba, 2021-02-09 The Singer s Needle offers a bold new approach to the history of twentieth century Panama one that illuminates the nature of power and politics in a small and

complex nation Using novelistic techniques Vierba explores three crucial episodes in the shaping and erosion of contemporary Panamanian institutions the establishment of a penal colony on the island of Coiba in 1919 the judicial drama following the murder of President Jos Antonio Rem n Cantera in 1955 and the disappearance of a radical priest in 1971 Skillfully blending historical sociology with novelistic narrative and extensive empirical research and drawing on the works of Michel Foucault among others Vierba shows the links between power interpretation and representation The result is a book that deftly reshapes conventional methods of historical writing

The Phenomenon of Money (Routledge Revivals)

Thomas Crump, 2011 First published in 1981 this book concerns itself with the different ways in which money is used the relationships which then arise and the institutions concerned in maintaining its various functions Thomas Crump examines the emergence of institutions with familiar and distinctive monetary roles the state the market and the banking system However other uses of money such as for gambling or the payment of fines are also taken into account in an exhaustive encyclopedic treatment of the subject which extends far beyond the range of conventional treatises on money

Mary Michael, and Lucifer John M. Ingham, 2010-07-22 The physical signs of Roman Catholicism pervade the Mexican countryside Colonial churches and neighborhood chapels wayside shrines and mountaintop crosses dot the landscape Catholicism also permeates the traditional cultures of rural communities although this ideational influence is less immediately obvious It is often couched in enigmatic idiom and imagery and it is further obscured by the vestiges of pagan customs and the anticlerical attitudes of many villagers These heterodox tendencies have even led some observers to conclude that Catholicism in rural Mexico is little more than a thin veneer on indigenous practice In Mary Michael and Lucifer John M Ingham attempts to develop a modern semiotic and structuralist interpretation of traditional Mexican culture an interpretation that accounts for the culture s apparent heterodoxy Drawing on field research in Tlayacapan Morelos a village in the central highlands he shows that nearly every domain of folk culture is informed with religious meaning More precisely the Catholic categories of spirit nature and evil compose the basic framework of the villagers social relations and subjective experiences

Godparents and Kinship in Early Medieval Europe

Joseph H. Lynch, 2019-01-29 Between A D 200 and 1000 sponsorship at baptism evolved from a simple liturgical act into a mechanism for the creation of enduring relationships regarded as especially holy forms of kinship Combining anthropological historical theological and literary approaches Joseph Lynch presents a comprehensive analysis of the origins and development in Western society of this spiritual kinship Because of its solemnity and adaptability such kinship gradually took its place alongside blood and marital ties as a fundamental part of medieval society continuing to expand in high and late medieval Europe and to flourish even in modern times particularly in Latin America Professor Lynch traces the liturgical practices and theological beliefs undergirding sponsorship and examines its social purposes including sacralization of personal friendships creation of client patron relationships extension of marital taboos provision of protectors for the young fostering of trust among adults and dissemination of religious instruction

In the process he offers a rich array of insights into the Church's role in the passage of Western society from antiquity to the Middle Ages Joseph H Lynch is Professor of History and former Director of the Center for Medieval and Renaissance Studies at Ohio State University He is author of *Simoniack Entry into Religious Life from 1000 to 1260 A Social Economic and Legal Study* Ohio State Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

European Kinship in the Age of Biotechnology Jeanette Edwards, Carles Salazar, 2009-03-01 Interest in the study of kinship a key area of anthropological enquiry has recently reemerged Dubbed the new kinship this interest was stimulated by the new genetics and revived interest in kinship and family patterns This volume investigates the impact of biotechnology on contemporary understandings of kinship of family and belonging in a variety of European settings and reveals similarities and differences in how kinship is conceived What constitutes kinship for different publics How significant are biogenetic links What does family resemblance tell us Why is genetically modified food an issue Are genes and blood interchangeable It has been argued that the recent prominence of genetic science and genetic technologies has resulted in a geneticization of social life the ethnographic examples presented here do show shifts occurring in notions of nature and of what is natural But they also illustrate the complexity of contemporary kinship thinking in Europe and the continued interconnectedness of biological and sociological understandings of relatedness and the relationship between nature and nurture
