Donor's Library on Character Education ,1919 *Ludwig Wittgenstein - A Cultural Point of View* Professor William J DeAngelis,2012-10-01 In the preface to his Philosophical Investigations Ludwig Wittgenstein expresses pessimism about the culture of his time and doubts as to whether his ideas would be understood in such a time I make them public with doubtful feelings It is not impossible that it should fall to the lot of this work in its poverty and in the darkness of this time to bring light into one brain or another but of course it is not likely In this book William James DeAngelis develops a deeper understanding of Wittgenstein s remark and argues that it is an expression of a significant cultural component in Wittgenstein s later thought which while latent is very much intended DeAngelis focuses on the fascinating connection between Wittgenstein and Oswald Spengler and in particular the acknowledged influence of Spengler s Decline of the West His book shows in meticulous detail how Spengler s dark conception of an ongoing cultural decline resonated deeply for Wittgenstein and influenced his later work In so doing the work takes into account discussions of these matters by major

commentators such as Malcolm Von Wright Cavell Winch and Clack among others A noteworthy feature of this book is its attempt to link Wittgenstein s cultural concerns with his views on religion and religious language DeAngelis offers a fresh and original interpretation of the latter
