Religion And International Law:

Religion, Human Rights and International Law Javaid Rehman, Susan Carolyn Breau, 2007 Freedom of religion is a subject which has throughout human history been a source of profound disagreements and conflict In the modern era religious based intolerance continues to provide lacerative and tormenting concern to the possibility of congenial human relationships As the present study examines religions have been relied upon to perpetuate discrimination and inequalities and to victimise minorities to the point of forcible assimilation and genocide The study provides an overview of the complexities inherent in the freedom of religion within international law and an analysis of the cultural religious relativist debate in contemporary human rights law As many of the chapters examine Islamic State practices have been a major source of concern In the backdrop of the events of 11 September 2001 a considerable focus of this volume is upon the Muslim world either through the emergent State practices and existing constitutional structures within Muslim majority States or through Islamic diasporic communities resident in Europe and North America *Religion and International Law* Mark W. Janis, Carolyn Maree Evans, 1999-07-13 One of the great tasks perhaps the greatest weighing on modern international lawyers is to craft a universal law and legal process capable of ordering relations among diverse people with differing religions histories cultures laws and languages In so doing we need to take the world's peoples as we find them and not pretend out of existence their wide variety This volume builds on the eleven essays edited by Mark Janis in 1991 in *The Influence of Religion and the Development of International Law* more than doubling its authors and essays and covering more religious traditions Now included are studies of the interface between international law and ancient religions Confucianism Hinduism Judaism Christianity and Islam as well as essays addressing the impact of religious thought on the literature and sources of international law international courts and human rights law **International Law and Religion** Martti Koskeniemi, Mónica García-Salmones Rovira, Paolo Amorosa, 2017 This collective volume brings together contributions by academics in various fields of law and the humanities in order to tackle the complex interactions between international law and religion The originality and the variety of approaches makes this book a must have for academics planning to approach the topic in the future Religion and International Law Robert Uerpmann-Wittzack, Evelyne Lagrange, Stefan Oeter, 2018-08-13 Growing religious antagonisms are challenging the ultimate goal of living together in peaceful societies Living together explores international law responses beginning with their historic roots before the perspective shifts to the role of religious institutions and religious law Contributions of different human rights bodies are analyzed before further sections deal with the international protection of religion the relationship between religious beliefs and freedom of expression and the roles of other individual rights Religion and International Law originates from the long standing cooperation between the German and the French Societies of International Law thus bringing together the traditions of French laicism and a cooperative German approach Experts from Austria Italy Poland Portugal and the UK complement the

pan European perspective *The Changing Nature of Religious Rights under International Law* Malcolm Evans, Peter Petkoff, Julian Rivers, 2015-03-19 The Declaration on the Elimination of All Forms of Intolerance and of Discrimination Based on Religion or Belief as proclaimed by the United Nations General Assembly in 1981 is the only universal human rights instrument specifically focusing on religious intolerance and discrimination However recent years have seen increasing controversy surrounding this right in both political and legal contexts The European Court of Human Rights has experienced a vast expansion in the number of cases it has had brought before it concerning religious freedom and politically the boundaries of the right have been much disputed This book provides a systematic analysis of the different approaches to religious rights which exist in public international law The book explores how particular institutional perspectives emerge in the context of these differing approaches It examines and challenges these institutional perspectives It identifies new directions for approaching religious rights through international law by examining existing legal tools and assesses their achievements and shortcomings It studies religious organisations support for international human rights protection as well as religious critique of international human rights and the development of an alternative religious Bills of Rights It investigates whether expressions of members belonging to religious minorities can be considered under the minority right to culture rather than the right to religion and discusses the benefits and shortcomings of such a route It analyses the reach and limits of the provisions in the 1981 Declaration identifies ways in which the right is being eroded as a concept and suggests new ways in which the right can be reinforced and protected **Freedom of Religion or Belief** Heiner Bielefeldt, Nazila Ghanea, Michael Wiener, 2016-01-21 Violations of religious freedom and violence committed in the name of religion grab our attention on a daily basis Freedom of religion or belief is a key human right the International Covenant on Civil and Political Rights numerous conventions declarations and soft law standards include specific provisions on freedom of religion or belief The 1981 Declaration on the Elimination of All Forms of Intolerance and of Discrimination Based on Religion or Belief has been interpreted since 1986 by the mandate of the UN Special Rapporteur on freedom of religion or belief Special Rapporteurs for example those on racism freedom of expression minority issues and cultural rights and Treaty Bodies for example the Human Rights Committee the Committee on the Elimination of Racial Discrimination and the Committee on the Rights of the Child have also elaborated on freedom of religion or belief in the context of their respective mandates Freedom of Religion or Belief An International Law Commentary is the first commentary to look comprehensively at the international provisions for the protection of freedom of religion or belief considering how they are interpreted by various United Nations Special Procedures and Treaty Bodies Structured around the thematic categories of the United Nations Special Rapporteur s framework for communications the commentary analyses for example the limitations on the wearing of religious symbols and vulnerable situations including those of women detainees refugees children minorities and migrants through a combination of scholarly expertise and practical experience *Religious Actors and International Law* Ioana Cismas, 2014-07-17 This

book assesses whether a new category of religious actors has been constructed within international law. Religious actors through their interpretations of the religions they are associated with uphold and promote or indeed may transform potentially oppressive structures or discriminatory patterns. This study moves beyond the concern that religious texts and practices may be incompatible with international law to provide an innovative analysis of how religious actors themselves are accountable under international law for the interpretations they choose to put forward. The book defines religious actors as comprising religious states, international organizations and non-state entities that assume the role of interpreting religion and so claim a special legitimacy anchored in tradition or charisma. Cutting across the state/non-state divide, this definition allows the full remit of religious bodies to be investigated. It analyses the crucial question of whether religious actors do in fact operate under different international legal norms to non-religious states, international organizations or companies. To that end, the Holy See/Vatican, the Organization of Islamic Cooperation and churches and religious organizations under the European Convention on Human Rights regime are examined in detail as case studies. The study ultimately establishes that religious actors cannot be seen to form an autonomous legal category under international law; they do not enjoy special or exclusive rights nor incur lesser obligations when compared to their respective non-religious peers. Going forward, it concludes that a process of two-sided legitimation may be at stake: religious actors will need to provide evidence for the legality of their religious interpretations to strengthen their legitimacy, and international law itself may benefit from religious actors fostering its legitimacy in different cultural contexts.

Human Rights, Religion and International Law Kerry O'Halloran, 2018-11-13

In this book, Kerry O'Halloran analyses a subject of international interest: religion, and examines related contemporary issues from a human rights perspective. The book takes the view that while the impact of Islamic State violence has dramatically demonstrated the destructive power of religious extremism for contemporary western societies, there are also good grounds for the latter to examine the extent to which their laws and policies nationally and internationally are contributing to religions currently destabilizing social roles. It makes the case for a fuller understanding of the role of religion or belief and argues for a rebalancing of the functional relationship between Church and State both nationally and internationally. Beginning with an overview of religion, including an examination of key concepts and constructs, the chapters go on to outline the international framework of related human rights provisions and note the extent of their ratification. It proceeds by identifying a set of themes such as the Constitutional positioning of religion, law and policy in relation to secularism, faith schools, equality, legislation and the religious exemption, and the tension between free speech and religion, and undertakes a comparative evaluation of how these and other themes indicate significant differences in six leading common law jurisdictions as illustrated by their associated legislation and case law. It then considers why this should be and assesses any implications arising. This book will be of great interest to students and scholars in the fields of law, religious studies, political science, human rights and social policy.
