Religion And Politics In Turkey:

Religion and Politics in Turkey Barry Rubin, Ali Carkoglu, 2013-09-13 Over the last decade the once marginal extreme right of the Turkish ideological spectrum has grown in size as well as in influence and has effectively reshaped party competition in Turkey Policy mandates and electoral bases of the rising extreme right rely on potentially explosive social cleavages in the country One such confrontation is between the secularist and pro Islamist forces which has always been one of the centrepieces of modern Turkish politics The rise of pro Islamist electoral forces from a marginal to an undeniably imposing position in Turkish electoral politics has led many to worry that a deep rooted schism has come to the forefront of Turkish politics The frontline of this secularist vs pro Islamist confrontation is quite widespread ranging from a debate around the ban of turban and headscarves in universities to religious education in the country from Islamic principles in the economy to Turkish foreign policy towards the Middle Eastern countries This volume was previously published as a special issue of the journal Turkish Studies

A History of Religion and Politics in Turkey Racho Donef, 2022 The present study is about the interplay of politics and religion in Turkey This study was originally prepared as a thesis for the requirement of a doctorate in philosophy degree in the field of political science Some changes were required to the present book as a thesis is intended for a very narrow readership and it was necessary to update some of the content to some extent reflect the latest developments in the Turkish political process The title suggests that these two fields can be separated but the boundaries between them are amorphous The stated objective of laicism by the early Republican regime did not translate to laicisation i e separation of religion and politics but it remained a forceful state narrative until Recep Tayyip Erdoğan came to power I argue that the entire project of laicism project was flawed in execution Separation of religion and politics did not occur instead the management of religion i e Sunni Islam became a state project My core argument is that there is no observable distinction between institutional religion and politics in contemporary Turkey noting that nationalism played an agglutinative role in connecting the two fields Turkey under Erdoğan provided a striking example of the mutual interrelatedness of religion and politics with the state no longer promoting Kemalist ideology or laicism The foundation myths are no longer useful as the governing party now produces different kind of discourse for instance martyrdom using Islamic motives The original project to manage control and define Islam through the monopoly of one party and ideology has transformed the state to a near monopoly of another party which still constructs and defines Islam nationalism and civic life

Larabee, 2008 As a Muslim majority country that is also a secular democratic state a member of NATO a candidate for membership in the European Union a long standing U S ally and the host of Incirlik Air Base a key hub for logistical support missions in Afghanistan and Iraq Turkey is pivotal to U S and Western security interests in a critical area of the world It also provides an example of the coexistence of Islam with secular democracy globalization and modernity However having a ruling party with Islamic roots the Justice and Development Party AKP within a framework of strict secularism has generated controversy over the boundaries between secularity and religion in the public sphere leading to parliamentary elections along with a new mandate for the party in July 2007 This monograph describes the politico religious landscape in Turkey and the relationship between the state and religion and it evaluates how the balance between secular and religious forces and between the Kemalist elites and new emerging social groups has changed over the past decade The study also assesses the new challenges and opportunities for U S policy in the changed Turkish political environment and identifies specific actions the United States may take to advance the U S interest in a stable democratic and friendly Turkey and more broadly in the worldwide dissemination of liberal and pluralistic interpretations of Islam *Religious Politics in Turkey* Ceren

Lord, 2018-11-08 Since the elections of 2002 Erdogan s AKP has dominated the political scene in Turkey This period has often been understood as a break from a secular pattern of state building But in this book Ceren Lord shows how Islamist mobilisation in Turkey has been facilitated from within the state by institutions established during early nation building Lord thus challenges the traditional account of Islamist AKP s rise that sees it either as a grassroots reaction to the authoritarian secularism of the state or as a function of the state s utilisation of religion Tracing struggles within the state Lord also shows how the state s principal religious authority the Presidency of Religious Affairs Diyanet competed with other state institutions to pursue Islamisation Through privileging Sunni Muslim access to state resources to the exclusion of others the Diyanet has been a key actor ensuring persistence and increasing salience of religious markers in political and economic competition creating an amenable environment for Islamist mobilisation **Political Islam and the Secular State in Turkey**

Evangelia Axiarlis, 2014-06-20 How safe is Turkey s liberal democracy The rise to power in 2002 of the right leaning Islamic Justice and Development Party ignited fears in the West that Turkey could no longer be relied upon to provide a buffer against the growth of Islamic fundamentalism in the Middle East Once hailed by the West as a model of secularism and moderation in the Muslim world Turkey is now seen to be under the influence of the creeping Islamisation of the JDP or AKP as it is known in Turkey Yet to what extent has this affected the lives of Turkish citizens Evangelia Axiarlis here explores the contribution of the JDP to civil liberties and basic freedoms long suppressed by secular and statist Kemalist ideology and how this has remained unexamined despite more than a decade in government In this the first detailed study of the policies and ideology of Prime Minister Recep Tayyip Erdo an s government the author examines the extent to which the JDP has worked to improve civil life in Turkey and critically addresses whether a government built on Islamic principles can champion

political reform Exploring how Islam and democracy are neither monoliths nor mutually exclusive this is a timely contribution to the wider understanding of political Islam

Religious Politics in Turkey Ceren Lord, 2020-03-26 Since the elections of 2002 Erdogan's AKP has dominated the political scene in Turkey This period has often been understood as a break from a secular pattern of state building But in this book Ceren Lord shows how Islamist mobilisation in Turkey has been facilitated from within the state by institutions established during early nation building Lord thus challenges the traditional account of Islamist AKP's rise that sees it either as a grassroots reaction to the authoritarian secularism of the state or as a function of the state's utilisation of religion Tracing struggles within the state Lord also shows how the state's principal religious authority the Presidency of Religious Affairs Diyanet competed with other state institutions to pursue Islamisation Through privileging Sunni Muslim access to state resources to the exclusion of others the Diyanet has been a key actor ensuring persistence and increasing salience of religious markers in political and economic competition creating an amenable environment for Islamist mobilisation

Secularism and Muslim Democracy in Turkey M. Hakan Yavuz, 2009-02-19 In 2002 the Islamist Justice and Development Party AKP swept to power in Turkey Since then it has shied away from a hard line ideological stance in favour of a more conservative and democratic approach In this book M Hakan Yavuz negotiates this ambivalence asking whether it is possible for a political party with a deeply religious ideology to liberalise and entertain democracy or whether as he contends radical religious groups moderate their practices and ideologies when forced to negotiate a competitive and rule based political system The author explores the thesis through an analysis of the rise and evolution of the AKP and its more recent 2007 election victory The book which tackles a number of important issues including political participation economics and internal security provides a masterful survey of modern Turkish and Islamic politics which will be of interest to a broad range of readers from students to professionals and policymakers

Politics and Gender Identity in Turkey Umut Korkut, Hande Eslen-Ziya, 2017-10-17 The creation of Turkish nationhood citizenship economic transformation the forceful removal of minorities and national homogenisation gender rights the position of armed forces in politics and the political and economic integration of Kurdish minority in Turkish polity have all received major interest in academic and policy debates The relationship between politics and religion in Turkey

originating from the early years of the Republicanism has been central to many if not all of these issues This book looks at how centralized religion has turned into a means of controlling and organizing the Turkish polity under the AKP Justice and Development Party governments by presenting the results from a study on Turkish hutbes mosque sermons analysing how their content relates to gender roles and identities The book argues that the political domination of a secular state as an agency over religion has not suppressed but transformed religion into a political tool for the same agency to organise the polity and the society along its own ideological tenets It looks at how this domination organises gender roles and identities to engender human capital to serve for a neoliberal economic developmentalism The book then discusses the limits of this domination reflecting on how its subjects position themselves between the politico religious authority and their secular lives Written in an accessible format this book provides a fresh perspective on the relationship between religion and politics in the Middle East More broadly it also sheds light on global moral politics and illiberalism and why it relates to gender religion and economics

Secularism and State Religion in Modern Turkey Emir Kaya, 2017-05-30 The Diyanet the official face of Islam in Turkey is the Presidency of Religious Affairs a governmental department established in 1924 after the break up of the Ottoman Empire and the abolition of Caliphate In this book Emir Kaya offers an in depth multidisciplinary analysis of this vital institution Focusing on the role of the Diyanet in society Kaya explores the balance the institution has to strike between the Muslim traditions of the Turkish population and the secular creed of the Turkish state By examining the various laws that either bolstered or hindered the Diyanet s budgets and activities Kaya highlights the institutional mindsets of the Diyanet membership He also evaluates its successes and failures as a state department that must consistently operate within the context of the religiosity of Turkish society By situating all of this within the two competing but often complimentary concepts of religion and secularism Kaya offers a book that is important for those researching the interplay of Islam and the state in Turkey and beyond

Religion and the Political Imagination Ira Katznelson, Gareth Stedman Jones, 2010-10-07 The theory of secularisation became a virtually unchallenged truth of twentieth century social science First sketched out by Enlightenment philosophers then transformed into an irreversible global process by nineteenth century thinkers the theory was given substance by the precipitate drop in religious practice across Western Europe in the 1960s However the re emergence of acute conflicts at the interface between religion and politics has confounded such assumptions It is clear that these ideas must be rethought Yet as this distinguished international team of scholars reveal not everything contained in the idea of secularisation was false Analyses of developments since 1500 reveal a wide spectrum of historical processes partial secularisation in some spheres has been accompanied by sacralisation in others Utilising new approaches derived from history philosophy politics and anthropology the essays collected in Religion and the Political Imagination offer new ways of thinking about the urgency of religious issues in the contemporary world
