Religion And Fertility Arab Christian Muslim Differentials:

Religion and Fertility Joseph Chamie, 1981-04-30 This work is a critical investigation into the relationship between religious affiliation on the one hand and fertility family size preferences and family planning behaviour on the other Dr Chamie works from a set of unique data the 1971 Fertility and Family Planning Survey in Lebanon This survey is not only a national study of Lebanese fertility but also a large scale survey 2 800 people offering the opportunity to study Arab Christian Muslim differentials Lebanon s demographic situation has far greater scientific and practical importance than might be supposed from its relatively small population From observing the important religious communities at different stages of social and economic development Dr Chamie has thus been able to analyse the interacting effects of religion and socio economic development on reproductive behaviour

Inventing Home Akram Fouad Khater, 2001-10-30 A social history of Lebanon during a critical period the long peace between the uprising of 1860 and the beginning of the French Mandate in 1920 This is one of the few books on modern Middle Eastern history to take up issues of gender migration and economic change

The Internationalization of Communal Strife (Routledge Revivals) Manus I. Midlarsky, 2014-06-03 First published in 1992 this edited collection argues that conflicts have a growing tendency both to intensify and to lengthen thus increasing the likelihood of external actors being drawn into the on going violence Here leading experts in comparative and international politics examine this tendency of communal conflicts to spill over into the international arena They also look at the conditions under which these processes do not occur and are mediated successfully The authors combine theoretical perspectives with case studies covering examples from the origins of the First World War to state building in Iraq and whether it was a precursor of the Iran Iraq War and the Gulf Crisis They present both a global overview and a focus on the state as the single most important intermediary in the internationalization process A comprehensive and relevant reissue this volume will appeal to students and scholars of International Relations Comparative Politics and Strategic Studies

Mobilizing Human Resources in the Arab World (RLE Economy of Middle East) R. Paul Shaw, 2015-05-15 R Paul Shaw has travelled widely in the Arab world obtaining data and gathering impressions first hand from national and local planners In this book he identifies population and manpower problems that are likely to become more serious and more difficult to solve if they are neglected at this early stage of Arab development He focuses on five broad areas which are directly or indirectly related to mobilizing human resources and his book will be of special interest to all those who are concerned with such issues as population migration employment inequality the emancipation of women construction and agriculture Dr Shaw proposes policy directives which are sensitive to the problems as they are seen by the Arab governments themselves and sets out practical guidelines which can be used by Arab planners and policy makers An important feature of the book with respect to current literature on Arab development is that it moves away from a preoccupation with growth related investments to a concentration on development related population manpower and employment issues By bringing

together such comprehensive empirical and bibliographic information it will also be invaluable as a reference source for some twenty Arab countries First published in 1983 **The World's Religions** Peter B. Clarke, Peter Beyer, 2009-05-07 This comprehensive volume focuses on the world's religions and the changes they have undergone as they become more global and diverse in form It explores the religions of the world not only in the regions with which they have been historically associated but also looks at the new cultural and religious contexts in which they are developing It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent *Bring Down the Walls* C. Dagher, 2002-01-04 Lebanon is more than a country it is a message these words of Pope John Paul II illustrate Lebanon's post war endeavor to preserve its age old Christian Muslim coexistence and power sharing formula and to invalidate Samuel Huntington's assumption of a Clash of Civilizations Lebanon's current challenge is also the challenge of a whole region the Middle East where the fate of minorities including Eastern Christians reveals the prospects of democracy pluralism and political participation Carole H Dagher a journalist for Lebanese media as well as an academic presents an insightful account on how Christian and Muslim communities emerged from the sixteen year old Lebanese war what their points of friction and their common grounds are and what the prospects of Lebanon's communal representation system and pluralistic society are She describes the central role played by the Holy See and John Paul II in bridging the gap between Christians and Muslims in Lebanon and analyzes the impact other countries such as Syria Iran and Saudi Arabia have had on the power game and conversely the impact of Christian Muslim interaction on the future of the Arab Israeli peace process *Bring Down the Walls* draws crucial lessons from the recent history of Christian Muslim relations in Lebanon

Coup in Damascus Carl Rihan,2025-06-17 Coup in Damascus examines the military takeover of Syria in 1949 an event which precipitated the rise of authoritarianism across the region Connecting economics politics and history it challenges traditional interpretations grounded in international relations by shifting the focus away from geopolitics and postcolonial studies affirming instead the primacy of cost calculating utility driven political action By bringing neoclassical and Austrian economics into contact with Middle East history Coup in Damascus demonstrates how unsound monetary practices the disruption of trade routes and excessive interventionism upset social and institutional equilibriums thereby leading to authoritarianism Coup in Damascus also highlights how lingering tensions or spillover costs normally resolved through economic and political exchange congested political systems thereby triggering violence and recurrence

Harrison,2011-11-07 Wipf and Stock is to be congratulated for making Beverly Wildung Harrison's *Our Right to Choose* newly available. Recognized as a classic in its field from its publication in 1983, *Our Right to Choose* is as compelling and needed today as it was then. Nyla Rasmussen RN, Maternal Child Health, Larry Rasmussen, Reinhold Niebuhr Professor Emeritus of Social Ethics, Union Theological Seminary, New York City. This historic book is as incisive, pertinent, timely, and morally compelling as it was twenty-eight years ago. Harrison has both ethical purchase and feminist vision on the issue of our age. Read it, learn, be convicted, and act. Rev. Dr. Serene Jones, President of Union Theological Seminary. Decades after its initial publication, Beverly Wildung Harrison's sex-positive justice and social welfare affirming study of abortion remains a unique and trailblazing contribution to the field of Christian ethics. From the treatment of women's procreation in the history of Western Christianity to the rhetoric of 1970s abortion politics, she offers meticulous critiques and constructive feminist Christian ideas sorely needed in today's debates about abortion rights. Traci C. West, author of *Disruptive Christian Ethics: When Racism and Women's Lives Matter*. *Middle East Peace Plans*, Willard A. Beling, 2020-04-27. Bringing peace to the Middle East and in particular resolving the Arab-Israeli conflict is one of the perennial and seemingly impossible tasks of world diplomacy. Many different peace plans have been put forward by different countries, but still there has been no breakthrough. This book, first published in 1986, examines the different peace plans for the Middle East. It discusses the particular items proposed at the time, examines how the plans were put forward, and shows how they got bogged down.

Undocumented Mexicans in the USA, David M. Heer, 1990-11-30. When this volume was published in 1990, undocumented Mexican immigrants had become an important component of the US population. In this book, the author analyzes the results of a unique survey conducted in Los Angeles County, where an estimated 44 percent of the undocumented Mexican population lived. The survey allows the author to make comparisons among the groups of undocumented and legal Mexican immigrants and to study the effects of legal status on their living conditions. The author also examines the findings of a number of other social scientists, providing a comprehensive summary of the data on undocumented Mexicans in the US. In his conclusion, he turns to an evaluation of policy options for incorporating this group into the US population and for immigrants. The book will be useful to sociologists and other social scientists as well as to lawyers and policy experts studying the problem of illegal immigrants. **Colonial Citizens**, Elizabeth Thompson, 2000. First, a colonial welfare state emerged by World War II that recognized social rights of citizens to health, education, and labor protection.
