Medicine And Pediatrics In One:

Federal Register ,1996-08 *Pediatric Hospital Medicine and Pediatric Palliative Care, An Issue of Pediatric Clinics*
Mary C. Ottolini,Christina K. Ullrich,2014-08-28 For the first time Pediatric Clinics is devoting one issue to two clinically focused topics Pediatric Palliative Care and Pediatric Hospital Medicine Dr Ottolini has organized her section to focus on a variety of issues of relevant to all pediatricians but which pose special challenge to the Pediatric Hospitalists As pediatric care has advanced children who would not have survived infancy are growing into young adults with complex chronic diseases and dependence upon technology They frequently require hospitalization to address exacerbation of underlying disease processes and procedures to improve their quality of life The articles are devoted to patient care challenges of troubleshooting malfunctioning technology co managing medically complex patients pre and post op with surgical colleagues and the Hospitalist s evolving role in performing procedures and sedation in this population of vulnerable patients Also discussed rare strategies to maximize communication with parents patients and primary care providers during hospitalization especially for medically complex patients Dr Ullrich and Dr Wolfe Pediatric have worked to bring relevant articles on palliative care to the pediatrician While life threatening conditions in childhood are rare children with LTC account for a high proportion of pediatric hospital care and about one half of such children die in the inpatient setting The number of hospital based pediatric palliative care programs has increased dramatically over the past decade to meet the palliative care needs of hospitalized children including symptom management facilitation of communication decision making and advance care planning support and coordination of care Given these considerations it is evident that the topics of pediatric palliative care and hospital medicine are fitting counterparts for this comprehensive issue **Integrative Medicine for Children** May Loo,2009 Many parents today are turning to or seeking information about Complementary and Alternative Medicine CAM for their children Whether you initiate alternative therapies or simply need to respond when asked for information or advice it s crucial to have the most recent evidence based information about alternative therapies and know how to safely and effectively integrate them with conventional treatment This innovative and reliable reference is the ideal resource to have at hand This book includes a wide range of complementary and alternative therapies focusing on those most often used with children mind body approaches manual therapies lifestyle approaches alternative systems energy medicine and biological agents Within these main categories therapies such as acupuncture chiropractic massage homeopathy herbs and magnets are covered Fifty five common pediatric conditions are comprehensively discussed with diagnostic and evidence based treatment information followed by authoritative information on the major CAM therapies available for treatment of the condition Whenever possible an integrative approach that combines conventional and alternative approaches is presented

BOOK JACKET [Healthcare Delivery for Children with Medical Complexity](#) Nancy Murphy,Justin C. Alvey,Jennifer Brinton,Natalie Heyrend Darro,Jason Fox,E. Avery Hill,Kathleen Irby,Andrew Robertson,Laura Smals-Murphy,2025-07-01

This book describes the state of the art of pediatric complex care sharing the authors decades of experience in an academic health center to illustrate points. The authors are pediatric generalist and subspecialist providers among others who care for children with medical complexity in a Pediatric Complex Care program. Children with medical complexity CMC are a small yet impactful pediatric population a subset of children with special healthcare needs that include multi system non categorical chronic conditions high resource and technology dependencies medical fragility and functional impairments. CMC do not fit into traditional systems of care. They require the continuous collaboration of pediatric subspecialists community and public health partners and family caregivers. The field of Pediatric Complex Care is rapidly evolving yet lacks a well prepared workforce built on clear educational competencies and clinical guidelines. In this compact volume the authors review models of care for CMC and how these models intersect with larger public health systems dependent on collaborative networks of community based and family partnerships. They explore ethical considerations including implications for policy and practice. Among the topics covered are The Specialty and Scope of Complex Care Pediatrics Ethical Considerations in the Care of Children with Medical Complexity Implications for Policy and Practice Healthcare Delivery for Children with Medical Complexity The State of the Art and Future Directions is an essential resource for all medical professionals who care for CMC public policy makers medical educators healthcare leaders and community partners and stakeholders.

An Introduction to American Medicine, 1975 John Z. Bowers, 1977 *Generalist Medicine and the U.S. Health System* Stephen L. Isaacs, James R. Knickman, 2004-03-29 This comprehensive resource illuminates the past present and future of generalist medicine. Generalist Medicine and U S Health Policy covers a broad range of topics that Examines the current challenges of primary care and generalist medicine Offers a chronological history of the growth of generalist medicine since the 1950s Reviews the models of care on which generalist medicine is based Analyzes the growth of three disciplines 3 4 general internists family physicians and pediatricians Looks at the supply and distribution of generalist physicians Discusses the education and training of generalist physicians Reports on the cost and quality of the care provided by generalist versus specialists.

Emergency Medical Services for Children James S. Seidel, Deborah P. Henderson, 1991 *Emergency Medical Services for Children* Institute of Medicine, Committee on Pediatric Emergency Medical Services, 1993-02-01 How can we meet the special needs of children for emergency medical services EMS when today s EMS systems are often unprepared for the challenge. This comprehensive overview of EMS for children EMS C provides an answer by presenting a vision for tomorrow s EMS C system and practical recommendations for attaining it. Drawing on many studies and examples the volume explores why emergency care for children from infants through adolescents must differ from that for adults and describes what seriously ill or injured children generally experience in today s EMS systems. The book points the way to integrating EMS C into current emergency programs and into broader

aspects of health care for children It gives recommendations for ensuring access to emergency care through the 9 1 1 system training health professionals from paramedics to physicians educating the public providing proper equipment protocols and referral systems improving communications among EMS C providers enhancing data resources and expanding research efforts and stimulating and supporting leadership in EMS C at the federal and state levels For those already deeply involved in EMS efforts this volume is a convenient up to date and comprehensive source of information and ideas More importantly for anyone interested in improving the emergency services available to children emergency care professionals from emergency medical technicians to nurses to physicians hospital and EMS administrators public officials health educators children s advocacy groups concerned parents and other responsible adults this timely volume provides a realistic plan for action to link EMS C system components into a workable structure that will better serve all of the nation s children *The Best 167 Medical Schools, 2016 Edition* Princeton Review, 2015-10 The Princeton Review s *The Best 167 Medical Schools* gives you complete and up to date info about the best allopathic osteopathic and naturopathic schools in the U S Canada and Puerto Rico **One Health** Richard Riegelman, Brenda Kirkwood, 2016-10-04 NEW Learn more about One Health in this 1 hour webinar or read the most recent blog post by Richard Riegelman One Health From AIDS to Zika is a short printed supplement that addresses the educational framework recommended by the One Health Interprofessional Education Working Group this 46 page analysis includes the essentials that students need to know with abundant illustrations of the relationships between human animal and ecosystem health organized into three sections Microbiological influences on health and disease Ecosystem health physical environment Human animal interaction Ideal as a complement to any introductory Public Health text One Health From AIDS to Zika includes test questions an instructors manual and comprehensive PowerPoint Lecture Slides This supplement is suitable for courses in Nursing Health Science and Allied Health One Health can be bundled with any Jones Bartlett Learning text at no additional cost Under the umbrella of One Health we can make a difference through education by enhancing the collaborative effort of multiple disciplines working locally nationally and globally to attain optimal health for people animals and our environment As stated in the chapter One Health From AIDS to Zika We re all in it together is no longer just about the human race it s about the health of all living things Bernadette Dunham DVM Ph D former director of the Center for Veterinary Medicine CVM at the U S Food and Drug Administration 2018 46 pages *Developing Residency Training in Global Health* Global Health Education Consortium, 2008-12 This is the first ever guide to help residency programs trainees and other champions create expand and improve global health education Learn from the experiences of existing programs the unique career paths of successful globally active physicians and the ethical considerations of leaders in the field of global health education This guidebook both raises and answers critical questions necessary to create and sustain quality global health exposure for resident physicians **Pediatrics**, 1902
