One-Volume Libraries: Composite and

Multiple-Text Manuscripts Michael Friedrich, Cosima Schwarke, 2016-11-07 Composite and multiple text manuscripts are traditionally studied for their individual texts but recent trends in codicology have paved the way for a more comprehensive approach Manuscripts are unique artefacts which reveal how they were produced and used as physical objects While multiple text manuscripts codicologically are to be considered as production units i.e. they were originally planned and realized in order to carry more than one text composites consist of formerly independent codicological units and were put together at a later stage with intentions that might be completely different from those of its original parts Both sub types of manuscripts are still sometimes called miscellanies a term relating to the texts only The codicological difference is important for reconstructing why and how these manuscripts which in many cases resemble or contain a small library were produced and used Contributions on the manuscript cultures of China India Africa the Islamic world and European traditions lead not only to the conclusion that one volume libraries have been produced in many manuscript cultures but allow also for the identification of certain types of uses

The Songs and Travels of a Tudor Minstrel Andrew Taylor, 2012 A reconstruction of the life and works of a sixteenth century minstrel showing the tradition to be flourishing well into the Tudor period Richard Sheale a harper and balladeer from Tamworth is virtually the only English minstrel whose life story is known to us in any detail It had been thought that by the sixteenth century minstrels had generally been downgraded to the role of mere jesters However through a careful examination of the manuscript which Sheale almost certainly wrote Bodleian Ashmole 48 and other records the author argues that the oral tradition remained vibrant at this period contrary to the common idea that print had by this stage destroyed traditional minstrelsy The author shows that under the patronage of Edward Stanley earl of Derby and his son from one of the most important aristocratic families in England Sheale recited and collected ballads and travelled to and from London to market them Amongst his repertoire was the famous Chevy Chase which Sir Philip Sidney said moved his heart more than with a trumpet Sheale also composed his own verse including a lament on being robbed of 60 on his way to London the poem is reproduced in this volume ANDREW TAYLOR lectures in the Department of English University of Ottawa
