A Grammatical and Exegetical Study of New Testament Verbs of Transference Paul L. Danove, 2009-06-18 This study continues the adaptation of the method of Case Frame analysis for the investigation of the Greek text of the New Testament Case Frame analysis distinguishes the words of a

language into two categories predicators words that require completion by other words for their correct grammatical use and non predicators words that do not require such completion and provides rigorous procedures for describing the syntactic semantic and lexical requirements that predicators impose on the words that complete their meaning The inclusion of semantic function and feature descriptions in Case Frame analysis permits the development of a new genre of lexicon that specifies not only syntactic and lexical information as do traditional dictionaries but detailed semantic information The resulting Case Frame lexicon entries are both more compact and more nuanced than traditional lexicon entries Danove conducts an exhaustive Case Frame analysis of the ditransitive verbs of transference in the New Testament He uses this analysis to develop a set of descriptive guidelines for interpreting and translating the various usages of ditransitive verbs of transference and applies these rules in exegetical studies of the text of the New Testament to generate a Case Frame lexicon of the verbs of transference in the New Testament This study will distinguish the requirements of the 127 New Testament verbs of transference according to four syntactic functions twelve semantic functions and 22 lexical realizations This will permit a rigorous investigation of all occurrences of verbal complements with the same syntactic semantic and lexical attributes The study also will consider the influence of one semantic feature an inherent quality of words that has implications for their lexical realization and of the intrusion of four grammatical constructions inherent structuring templates of grammar that govern syntactic semantic and lexical attributes and modify meaning on each category of complements with the same syntactic semantic and lexical description This will produce a rigorous description of meaning that becomes the basis for Danove s contributions to the linguistic study of biblical Greek and to the exegesis of biblical texts

Lois Fuller Dow, Craig A. Evans, Andrew W. Pitts, 2016-11-28 In The Language and Literature of the New Testament a team of international scholars assembles to honour the academic career of New Testament scholar Stanley E Porter Over the years Porter has distinguished himself in a wide range of sub disciplines within New Testament Studies The contents of this book represent these diverse scholarly interests ranging from canon and textual criticism to linguistics other interpretive methodologies Jesus and the Gospels and Pauline studies *New Testament Interpretation* I. Howard Marshall, 2006-10-01 These eighteen pieces have been commissioned to provide a succinct yet comprehensive guide to the best of recent evangelical thinking about how the New Testament is to be interpreted so that it may speak most clearly to today's world The need for such a handbook can be felt more keenly as on the one side a secularized world dismisses the biblical faith as outmoded unworkable and unsatisfying and on the other numerous Christian communities committed to taking that faith with ultimate seriousness are driven by controversies about how to read and understand the Bible Following the editor's introduction in which I Howard Marshall examines a familiar New Testament passage in order to exemplify the problems and rewards that await the careful interpreter the essays are arranged under four headings beginning with overviews of the history of New Testament study and the role of the interpreter's presuppositions in this enterprise then going on to discuss the various critical tools the methods of exegesis and the application of the New Testament to the faith and life of the contemporary reader An annotated bibliography concludes the presentation Because the issues involved here have too often been ignored in many quarters more than one approach to or opinion about a given matter may surface in these essays yet undergirding this diversity is the author's shared conviction as conservative evangelicals with a high regard for the authority of Holy Scripture that we are called upon to study the Bible with the full use of our minds As the editor writes The passages which we interpret must be the means through which God speaks to men and women today Our belief in the inspiration of the Bible is thus a testimony that New Testament exegesis is not just a problem it is a real possibility God can and does speak to men through even the most ignorant of expositors of his Word At the same time he calls us on to devote ourselves to his Word and use every resource to make its message the more clear *The Making of the New Testament* Arthur G.

Patzia, 2025-11-04 The story of the making of the New Testament is one in which scrolls bumped across cobbled Roman roads

and pitched through rolling Mediterranean seas finally finding their destinations in stuffy dimly lit Christian house churches in Corinth or Colossae There they were read aloud and reread handled and copied forwarded and collected studied and treasured And eventually they were brought together to make up our New Testament This revised and expanded edition of *The Making of the New Testament* is a textbook introduction to the origin collection copying and canonizing of the New Testament documents Like shrewd detectives reading subtle whispers of evidence biblical scholars have studied the trail of clues and pieced together the story of these books Arthur Patzia tells the story answering our many questions How were books and documents produced in the first century What motivated the early Christians to commit teaching and narrative and vision to papyrus How were the stories and sayings of Jesus circulated handed down and shaped into Gospels What do we know about ancient letter writing secretaries and copy shops Why were four Gospels included instead of just one How were Paul's letters sent here and there gathered into a single collection Who decided and by what criteria which documents would be included in the New Testament Explore these questions and more about these Scriptures whose everyday gritty story rings true to their extraordinary message the palpable mystery of the Word made flesh

Sound Mapping the New Testament Margaret Ellen Lee, Bernard Brandon Scott, 2024-03-28 In the ancient world writings were read aloud heard and remembered In contrast modern exegesis assumes a silent text For Margaret Lee and Brandon Scott the disjuncture between ancient and modern approaches to literature obscures the beauty and meaning in writings such as the New Testament As the structure of an ancient Greek composition derives first from its sounds and not from the meaning of its words sound analysis analysis of the signifier and its audible dimension are crucial to interpretation *Sound Mapping the New Testament* explores writing technology in the Greco Roman world and uses ancient Greek literary criticism for descriptions of grammar as a science of sound and literary composition as a woven fabric of speech Based on these perspectives and a close analysis of writings from the four Gospels Paul and Q Lee and Scott advance a theory of sound analysis that enables modern readers to hear the New Testament afresh This second edition includes a new introduction which reviews a decade of sound mapping scholarship

How We Got the New Testament () Stanley E. Porter, 2013-11-05 2013 Word Guild Award Biblical Studies A recognized expert in New Testament Greek offers a historical understanding of the writing transmission and translation of the New Testament and provides cutting edge insights into how we got the New Testament in its ancient Greek and modern English forms In part responding to those who question the New Testament's reliability Stanley Porter rigorously defends the traditional goals of textual criticism to establish the original text He reveals fascinating details about the earliest New Testament manuscripts and shows that the textual evidence supports an early date for the New Testament's formation He also explores the vital role translation plays in biblical understanding and evaluates various translation theories The book offers a student level summary of a vast amount of historical and textual information

Does Mark 16:9-20 Belong in the New Testament? David W. Hester, 2015-03-19 For almost fifty years much has been written concerning Mark 16 9 20 During

the same time period evidence once counted against Mark 16 9 20 was shown to be otherwise In this study David W Hester surveys modern scholarship 1965 2011 surrounding the passage He examines the passage itself the external evidence with particular attention paid to the manuscripts and the patristics especially those of the second and third centuries and the internal evidence featuring details that are problematic as well as those that favor Markan authorship Finally a proposal concerning the origin of the passage is presented The first edition of Mark's Gospel ended at 16 8 resulting in the manuscript tradition that omits the passage but this was not his intended ending Later his associates attached Mark's notes and published a second edition of the Gospel with the last twelve verses This led to its inclusion Given that the passage is cited by second and third century witnesses and attributed to Mark along with the biblical prohibition against adding to or taking from Scripture it is doubtful that an anonymous second century author could have been successful in adding his own composition and it being widely accepted by the early church
