Celebrating the Single Life David Yount, 2009-02-24 American society is no longer defined by marriage Today an increasing majority of American households are headed by single men and women Even those Americans who do marry spend at least half of their adult lives alone Living on one's own presents unique challenges depending on one's age health and circumstances So the script for successful single living calls for different strategies for young adults the recently divorced single parents and those widowed or experiencing single life in later adulthood Here Dr Yount considers each group's special needs and challenges and offers a guide for leading a productive rewarding and fulfilling single life Single living he contends requires some core abilities overcoming loneliness reaching out

to others developing faith in oneself and self respect keeping up with daily activities and maintaining good health security and a sense of humor This book helps readers learn to celebrate their single status and to find contentment and peace while living on their own These days if you are unmarried and pining for romance you are in a small minority Until recently most Americans considered single life to be a temporary situation during which one would simply wait for a soul mate to come along Those who remained unwed were pitied as bachelors and spinsters No longer These days most single men and women find autonomy in negotiating their way through life by relying on their own resources with marriage remaining one option but not an imperative Even those who do marry are getting married later and those who divorce or are widowed often choose to stay single With this trend toward singlehood increasing affirming the single life and making a success of it becomes all the more important Yount offers advice for creating a gratifying and happy single life at any stage and provides insight into those things that can contribute to a satisfying single lifestyle He pinpoints areas that often get ignored by singles and proposes solutions to some of the pitfalls that can lead to loneliness or unhappiness Leading a fulfilling single life is not only possible it can in fact be rewarding in itself and Yount shows readers how to lead productive and creative lives as modern singles

Opting Out Joanna Davidson,Dinah Hannaford,2022-11-11 Women around the world are opting out of marriage Through nuanced ethnographic accounts of the ways that women are moving the needle on marital norms and practices Opting Out reveals the conditions that make this widespread phenomenon possible in places where marriage has long been obligatory Each chapter invites readers into the lives of particular women and the changing circumstances in which these lives unfold sometimes painfully sometimes humorously and always unexpectedly Taken together the essays in this volume prompt the following questions Why is marriage so consistently disappointing for women When the rewards of economic stability and the social status that marriage confers are troubled does marriage offer women anything compelling at all Across diverse geographic contexts in Africa Asia and Latin America this book offers sensitive and powerful portrayals of women as they escape or reshape marriage into a more rewarding arrangement **The New Woman and Technologies of Speed in Fin-de- Siècle Literature** Eva Chen,2024-11-01 This is the first literary study on the New Woman s interaction

with modern speed culture through use of the typewriter and the bicycle These technologies of speed are among the earliest to be associated with middle class women exposing them to the discipline of mechanized speed while allowing for the construction of a new machine savvy sped up and energized female subjectivity Used for women s office work and daily movement they demand from their women operators a response and adaptation to speed right from the beginning The ability to catch up with imitate adjust to and finally master this mechanized speed is the key to the New Woman s enlarged freedom in the modern city By examining New Woman literature penned by George Gissing H G Wells Grant Allen Geraldine Edith Mitton and Mrs Edward Kennard and stories and comments published in popular magazines this book examines how mechanized speed works on the New Woman typist and cyclist first as discipline and control in typewriting then as commodity and conspicuous display in cycling and finally as rejuvenation stimulation and active thrill Being fast having speed and adjusting to the shocks as well as excitement of techno aided speed is a crucial part of what makes the New Woman new as she stakes a claim to modern speed culture *Single Women in Popular Culture* A.
