The Reception of Northrop Frye, 2021-08-31 The widespread opinion is that Northrop Frye's influence reached its zenith in the 1960s and 1970s after which point he became obsolete his work buried in obscurity This almost universal opinion is summed up in Terry Eagleton's 1983 rhetorical question Who now reads Frye In *The Reception of Northrop Frye* Robert D Denham catalogues what has been written about Frye books articles translations dissertations and theses and reviews in order to demonstrate that the attention Frye's work has received from the beginning has progressed at a geomantic rate Denham also explores what we can discover once we have a fairly complete record of Frye's reception in front of us such as Hayden White's theory of emplotments applied to historical writing and Byron Alm's theory of musical narrative The sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton's rhetorical question is a very large and growing number the growth being not incremental but exponential **Focus On: 100 Most**

Popular Actresses from New York City Wikipedia contributors, **Madonna** Mary Gabriel, 2023-10-10 New York Times Editors Choice One of NPR's Best Books of the Year In this infinitely readable biography award winning author Mary Gabriel chronicles the meteoric rise and enduring influence of the greatest female pop icon of the modern era Madonna People Magazine With her arrival on the music scene in the early 1980s Madonna generated nothing short of an explosion as great as that of Elvis or the Beatles taking the nation by storm with her liberated politics and breathtaking talent Within two years of her 1983 debut album a flagship Macy's store in Manhattan held a Madonna lookalike contest featuring Andy Warhol as a judge and opened a department called Madonna land But Madonna was more than just a pop star Everywhere fans gravitated to her as an emblem of a new age one in which feminism could shed the buttoned down demeanor of the 1970s and feel relevant to a new generation Amid the scourge of AIDS she brought queer identities into the mainstream fiercely defending a person's right to love whomever and be whoever they wanted Despite fierce criticism she never separated her music from her political activism And as an artist she never stopped experimenting Madonna existed to push past boundaries by creating provocative visionary music videos films and live performances that changed culture globally Deftly tracing Madonna's story from her Michigan roots to her rise to super stardom master biographer Mary Gabriel captures the dramatic life and achievements of one of the greatest artists of our time

Berry, 2010-01-04 This book examines the influence of terrorist threat in the recent elections in the US Great Britain and Russia to analyze the influence of post 9/11 fears on voting behaviour in comparative perspective It is in these different countries that warnings about terrorism find the most resonance with candidates journalists and voters alike

Participation, Engagement and Collaboration in Newsmaking Jana Declercq, Geert Jacobs, Felicitas Macgilchrist, Astrid Vandendaele, 2021-11-15 This book brings together new research on the practices of newsmaking Participation engagement and collaboration have long been heralded as a vision goal or emerging practice in the news The claim in this volume is that

they have now become sedimented as the common sense baseline for everyday newsmaking routines The issue for newsmakers is not whether to engage with readers and users but how to engage with them The contributions span a wide range of newsmaking contexts including analytics based online headline testing the communication efforts of a Brussels based free marketeer thinktank collaborative science journalism and rapidly changing journalistic sourcing and writing routines from legacy to social media Together they argue for a postfoundational perspective which observes how participation engagement and collaboration have emerged as a foundation which is no longer questioned but which can lead to new tensions in newsmaking As such the book provides inspirational reading for anyone in the social sciences and humanities who is interested in understanding how the ubiquity of participation engagement and collaboration in the making of the news impacts on issues of power transparency and control in the twenty first century *Digital Transnationalism* Wanning Sun,Haiqing Yu,2023-02-06 This is the first book in English on Chinese language digital media in Australia The book comes at a time when the relationship between China and the West is at its most troubling since the end of the Cold War Combining rich ethnographic insights with dispassionate analysis this investigation into Australia s Chinese language digital and social media sheds new light on how migrants from the People s Republic of China negotiate two media cultural and political systems The book is a timely antidote to the polarized and often simplistic positions that dominate ongoing debates about the Chinese diaspora and diasporic media and injects much needed nuance into analyses of the changing face of Chinese transnationalism **Evaluation and Stance in War News** Louann Haarman,Linda Lombardo,2011-10-20 In a world in which advanced communication technologies have made the reporting of disasters and conflicts also in the form of breaking news a familiar and normalised activity the information we present here about television news reporting of the 2003 war in Iraq has implications that go beyond this particular conflict Evaluation and Stance in War News functions as a tool kit for the critical evaluation of language in the news both as raw data in need of interpretation and as carefully packaged products of information management in need of unpacking The chapters offer an array of theoretical and empirical instruments for revealing identifying sifting weighing and connecting patterns of language use that construct messages These messages carry with them world views and value systems that can either create an ever wider divide or serve to build bridges between peoples and countries **Gendered News** Elizabeth Goodyear-Grant,2013-09-06 In the last fifty years many of the institutional and societal barriers that kept Canadian women from public office have disappeared Today women are well educated and well connected and enjoy generally equal treatment from political parties and voters Why then do they hold only a quarter of the seats in the House of Commons a proportion that rose by just seven percentage points between 1993 and 2011 In this illuminating study Elizabeth Goodyear Grant examines a significant obstacle still facing women in political life gendered media coverage News stories are more likely to investigate the personal lives of female politicians or question their aptitude for public life implicitly suggesting that women in politics are marginal or even unwelcome Based on

interviews with MPs and party leaders and an analysis of print and television media in the 2000 and 2006 federal elections Gendered News reveals an unsettling climate that affects the success of women in office and could deter them from running at all
