Nicaraguan Revolution:

The Red and the Black Elizabeth Dore, John Weeks, 1992 **Intellectual Foundations of the Nicaraguan Revolution** Donald C. Hodges, 1986-11-01 In this critical study of the thought of Augusto Cesar Sandino and his followers Donald C Hodges has discovered a coherent ideological thread and political program which he succeeds in tracing to Mexican and Spanish sources Sandino's strong religious inclination in combination with his anarchosyndicalist political ideology established him as a religious seer and moral reformer as well as a political thinker and is the prototype of the curious blend of Marxism and Christianity of the late twentieth century Nicaraguan government the Frente Sandinista de Liberación Nacional *What Went Wrong? The Nicaraguan Revolution* Dan La Botz, 2016-09-07 This volume is a valuable reassessment of the Nicaraguan Revolution by a Marxist historian of Latin American political history It shows that the FSLN the Sandinistas with politics principally shaped by Soviet and Cuban Communism never had a commitment to genuine democracy either within the revolutionary movement or within society at large that the FSLN's lack of commitment to democracy was a key factor in the way that revolution was betrayed from the 1970s to the 1990s and that the FSLN's lack of rank and file democracy left all decision making to the National Directorate and ultimately placed that power in the hands of Daniel Ortega Pursuing his narrative into the present La Botz shows that once their would be bureaucratic ruling class project was defeated Ortega and the FSLN leadership turned to an alliance with the capitalist class **The End And The Beginning** John A Booth, 1985-07-25 *The Nicaraguan Revolution* Richard R. Fagen, 1981 **The End And The Beginning** John A Booth, 2019-07-09 In this second revised and updated edition Dr Booth assesses the performance of the revolutionary government since 1979 The structure and operation of the regime is closely examined as well as its policies and their implementation The author details the difficulties the Sandinistas have encountered with the breakdown of their revolutionary coalition and the emergence of domestic and external opposition He also discusses the difficulty of achieving economic recovery due to the effects of economic reorganization private sector fears and external economic sanctions Finally Dr Booth focuses on the foreign policy of the Sandinistas in particular their increasingly tense relationship with the United States *Intellectual Foundations of the Nicaraguan Revolution* Donald C. Hodges, 2014-02-04 In this critical study of the thought of Augusto Cesar Sandino and his followers Donald C Hodges has discovered a coherent ideological thread and political program which he succeeds in tracing to Mexican and Spanish sources Sandino's strong religious inclination in combination with his anarchosyndicalist political ideology established him as a religious seer and moral reformer as well as a political thinker and is the prototype of the curious blend of Marxism and Christianity of the late twentieth century Nicaraguan government the Frente Sandinista de Liberación Nacional **Sandinista** Matilde Zimmermann, 2001-01-12 The life and ideas of Carlos Fonseca Amador founder of the Sandinista National Liberation Front FSLN Retelling the Nicaraguan Revolution as a Dionysian Ritual Martina Handler, 2010 Uncountable books have been written on the Nicaraguan

revolution in 1979 due to the fascination connected with the idea of revolution in general and with its realization in Nicaragua in particular This book retells the story of the Nicaraguan revolution with the words of women aiming to show how a high level of transformative energy was accumulated in the Nicaraguan society over time based on a common utopian vision of a better future for all The energetic upheaval can be analyzed as a Dionysian ritual However the book also follows up on the Apollonian aftermath of the revolution Martina Handler is a social scientist and a graduate of the Master Program in Peace Development Security and International Conflict Transformation in Innsbruck Austria

Nicaragua's Other Revolution Michael Dodson, Laura Nuzzi O'Shaughnessy, 2000-11-09 The 1979 rebellion in Nicaragua was the first in modern Latin America to be carried out with the active participation and support of Christians Like all revolutions the Nicaraguan Revolution has provoked controversy and hostility and the Christian presence has been a focal point in the debate In this work Michael Dodson and Laura Nuzzi O'Shaughnessy offer a detailed study of the religious sources of the revolution set against the background of the revolutionary traditions of the United States Nicaragua's Other Revolution places the experience of the Nicaraguan Revolution in a historical framework that extends back to the Protestant Reformation and in an institutional framework that encompasses the whole of Nicaraguan politics Examining the broad process of religious change this work explores how that process interacted with the political struggles that culminated in the revolution Dodson and O'Shaughnessy conclude that the religious values and attitudes arising out of postconciliar renewal in the church contributed powerfully to demands for revolutionary change in Nicaragua In England and America the Protestant Reformation gave a tremendous boost to demands for democratic changes in society and politics This work shows that something similar happened in Catholic Central America in the post Medellin period Changes in religious thought and action were part of and served to reinforce and stimulate a wider movement for social and political change Without denying the importance of Marxism the authors demonstrate that other important influences are at work there Originally published in 1990 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
