Political Diplomatic Dimension 1931 2000:

The International Order of Asia in the 1930s and 1950s Nicholas J. White, 2016-03-03 This book reconsiders the nature and formation of Asia's economic order during the 1930s and 1950s in light of the new historiographical developments in Britain and Japan. Recently several Japanese economic historians have offered a new perspective on Asian history arguing that economic growth was fuelled by the phenomenon of intra Asian trade which began to grow rapidly around the turn of the 19th 20th centuries. On the other side British imperial historians P J Cain and A G Hopkins have presented their own interpretation of gentlemanly capitalism in which they emphasize the leading role of the service sector rather than that of British industry in assessing the nature of the British presence overseas. In order to assess and test these new perspectives this volume addresses three key issues. The first is to reconsider the metropolitan peripheral relationship in Asia focusing particularly on the role of the sterling area and its implications for Asian economic development. The second is to examine the formation of inter regional trade relations within Asia in the 1930s and their revival and transformation in the 1950s. The final issue is the comparison of the international order of Asia of the 1930s with the 1950s and the degree to which the Second World War represented a break point in Asia's economic development. Dealing with issues of trade economy nationalism and imperialism this book provides fresh insights into the development of Asia during the mid twentieth century. Drawing on the latest scholarship it will prove invaluable to all who wish to better understand the position of countries such as Japan China India Singapore Malaysia and Korea within the wider international order.

Britain and Japan in the Twentieth Century Philip Towle, Nobuko Margaret Kosuge, 2007-04-27 After the horrors of World War II in Asia not least the systematic appalling mistreatment of Allied prisoners of war by the Japanese military few would have predicted that Britain's relationship with Japan would flourish into a booming partnership of economic interdependence by the start of the twenty first century. This ambitious examination of Anglo Japanese relations over the course of the 20th century charts the fascinating history of how both nations overcame many years of prejudice and bitter conflict to form a bond fused by financial political and military cooperation. In the 1930s many Japanese became convinced that their exports were being kept out of India by British tariffs and it was not until the 1980s that the British government fully accepted the futility of any protectionist impulse and encouraged Japanese companies to invest in Britain. Today each country not only assists the other economically but also no longer blames the other for its own domestic problems. *Britain and Japan in the Twentieth Century* elucidates how both nations have struggled to achieve stability and harmony in their relations with each other in the face of contrasting cultural identities.

The Military Dimension I. Gow, Y. Hironaka, J. Chapman, 2003-02-04 The five volumes in the series entitled *The History of Anglo Japanese Relations 1600 2000* explore the history of the relationship between Britain and Japan from the first contacts of the early 1600s through to the end of the twentieth century. This volume presents 19 original essays by Japanese British and other international historians and covers the evolving military relationship from the 19th century

through to the end of the 20th century The main focus is on the interwar period when both military establishments shifted from collaboration to conflict as well as wartime issues such as the treatment of POWs seen from both sides the Occupation of Japan and war crimes trials

Framing China Ariane Knüsel, 2016-04-15 Framing China sheds new light on Western relations with and perceptions of China in the first half of the twentieth century In this ground breaking book Ariane Knüsel examines how China was portrayed in political debates and the media in Britain the USA and Switzerland between 1900 and 1950 By focusing on the political economic cultural and social context that led to the construction of the particular images of China in each country the author demonstrates that national interests anxieties and issues influenced the way China was framed and resulted in different portrayals of China in each country The author's meticulous analysis of a vast amount of newspaper and magazine articles commentaries editorials cartoons and newsreels that have previously not been studied before also focuses on the transnational circulation of images of China While previous publications have dealt with the occurrence of the Yellow Peril and Red Menace in particular countries Framing China reveals that these images were interpreted differently in every nation because they both reflected and contributed to the discursive construction of nationhood in each country and were influenced by domestic issues cultural values pre existing stereotypes pressure groups and geopolitical aspirations

The Pacific Campaign in World War II William Bruce Johnson, 2006-05-02 This is a fascinating new account of how diplomacy and politics gave way to military strategy and warfare in the Pacific Presenting previously unpublished photographs interviews with veterans newly commissioned maps and new translations of Japanese sources this book freshly examines the key events in the fight for the Pacific Detailing the background to the Japanese attack on Pearl Harbor it shows how the decision makers in Washington following consultation with the leaders of Britain Australia and New Zealand moved to stop Japan from its drive toward Australia by initiating a counterthrust in the Solomon Islands It also shows how qualities and character of leadership are crucial to winning wars detailing how Admiral Ernest J King managed to commit the Marine Corps to ground action in the South Pacific six months earlier than originally planned by ignoring the Roosevelt's commitment to defeat Germany prior to fighting Japan and by outmaneuvering Gen Douglas MacArthur for leadership It also explains how Marines under Maj Gen A A Vandegrift despite inadequate logistical support managed to prevail in the Americans first ground campaign of World War II making Japan's ultimate defeat inevitable In addition to recounting these key events it traces how censorship and patriotism influenced the reporting of the conflict in America how Hollywood films further shaped public opinion by portraying the significant events in particular ways and how certain crucial decisions such as the early bombing raid of Tokyo and giving Douglas MacArthur command of the war effort in Australia were political rather than strategic and were made to foster morale rather than to gain any military advantage This book will be of great interest to all students and scholars of Military History and to all readers with a general interest in World War II particularly in the conflicts of the Pacific Pearl Harbor and Guadalcanal

The Challenge of Grand Strategy Jeffrey W.

Taliaferro, Norrin M. Ripsman, Steven E. Lobell, 2012-08-06 The years between the World Wars represent an era of broken balances the retreat of the United States from global geopolitics the weakening of Great Britain and France Russian isolation following the 1917 Bolshevik Revolution the resurgence of German power in Europe and the rise of Japan in East Asia All these factors complicated great power politics This book brings together historians and political scientists to revisit the conventional wisdom on the grand strategies pursued between the World Wars drawing on theoretical innovations and new primary sources The contributors suggest that all the great powers pursued policies that while in retrospect suboptimal represented conscious rational attempts to secure their national interests under conditions of extreme uncertainty and intense domestic and international political economic and strategic constraints *Projecting British Ideas on Post-War*

Japan Yoshiomi Saito, 2025-08-21 Drawing from a wide array of English and Japanese primary sources Saito examines the pivotal role of Britain's overseas information policy in shaping post war Anglo Japanese relations While the historiography of post war Japan's international relations has predominantly centred on US Japan relations Britain's initiatives towards Japan have been largely overlooked This book fills that lacuna by examining Britain's efforts to influence Japan through a dynamic interplay of the allied occupation the Cold War decolonisation and post war rapprochement between the two countries It challenges the conventional view of Britain as a declining empire showcasing its social and cultural influence and examines its distinct perceptions of an emerging post war Japan Based on solid archival research it provides readers with a nuanced and unique understanding of post war Anglo Japanese relations in the context of the cultural and propaganda dimensions of the Cold War a field that remains underexplored Offering an in depth examination of Britain's information policy towards Japan this book is a valuable resource for scholars researchers and students interested in international history and cultural diplomacy including those studying Anglo Japanese relations and East Asian studies **New Perspectives on Peacetime**

Anglo-Japanese Military Relations Thomas French, 2025-05-23 This book examines the peacetime military relationship between the United Kingdom and Japan spanning partnerships and interactions from the 1860s to the present day Reflecting the multiple changes in the power dynamics relations and nature of the military links between the U K and Japan over time the chapters in this book analyse instances of peacetime military interaction as both countries passed through periods of partnership alliance rivalry conflict and occupation In doing so the book also considers what relevance these historical U K Japan peacetime military ties have relevance for those of the present Original in its exclusive focus on peacetime military links of both a historical and contemporary nature this significant work is both practical and scholarly in its approach and will appeal to students and scholars of Japanese history British history military history international relations and diplomacy

Churchill, Chamberlain and Appeasement G. C. Peden, 2022-12 The first study to compare Churchill and Chamberlain systematically in relation to appeasement and defence policy in the 1930s Remembering the Road to World War Two

Patrick Finney, 2010-09-13 Remembering the Road to World War Two is a broad and comparative international survey of the

historiography of the origins of the Second World War It explores how in the case of each of the major combatant countries historical writing on the origins of the Second World War has been inextricably linked with conceptions of national identity and collective memory **British and Japanese Military Leadership in the Far Eastern War, 1941-45** Brian

Bond,2012-11-12 Some sixty years after the Far Eastern War ended this innovative new collection brings together five distinguished UK based scholars and five from Japan to reappraise their respective country s leadership in the Malaya and Burma campaigns This leadership is analyzed on various levels ranging from the grand strategic to operational The Japanese contributors examine the reasons for their forces brilliant advances in 1941 42 whereas the British writers have to account for the disastrous defeat characterized by the poor leadership of senior commanders such as Bennett and Percival Between 1943 and 1945 the tables were turned dramatically so the failure of Japanese command decisions then comes under critical scrutiny and the British have to explain how defeat was transformed into victory Above all this volume should stimulate interest in different methods and styles of military leadership in view of the contrasting approaches of the British and Japanese in the Second World War *The Transformation of the International Order of Asia* Shigeru Akita, Gerold

Krozewski, Shoichi Watanabe,2014-07-25 In Asia the 1950s were dominated by political decolonization and the emergence of the Cold War system and newly independent countries were able to utilize the transformed balance of power for their own economic development through economic and strategic aid programmes This book examines the interconnections between the transfer of power and state governance in Asia the emergence of the Cold War and the transfer of hegemony from the UK to the US by focusing specifically on the historical roles of international economic aid and the autonomous response from Asian nation states in the immediate post war context The Transformation of the International Order of Asia offers closely interwoven perspectives on international economic and political relations from the 1950s to the 1960s with specific focus on the Colombo Plan and related aid policies of the time It shows how the plan served different purposes Britain s aim to reduce India s wartime sterling balances in London the quest for India s economic independence under Jawaharlal Nehru Japan s regional economic assertion and its endeavour to improve its international status Britain s publicity policy during the reorganization of British aid policies at a time of economic crisis and more broadly the West s desire to counter Soviet influence in Asia In doing so the chapters explore how international economic aid relations became reorganized in relation to the independent development of states in Asia during the period and crucially the role this transformation played in the emergence of a new international order in Asia Drawing on a wide range of international contemporary and archival source materials this book will be welcomed by students and scholars interested in Asian international and economic history politics and development studies Britain and Japan Hugh Cortazzi,2025-10-01 Published in association with the Japan Society and containing 57 essays this ninth volume in the series continues to celebrate the life and work of the men and women both British and Japanese who over time played an interesting and significant role in a wide variety of different spheres relating to

The Origins of World War Two Robert Boyce,Joseph A. Maiolo,2017-03-14 No issue in modern history has been more intensively studied or subject to wider interpretation than the origins of the Second World War A conflict involving three arguably four major aggressor Powers operating simultaneously but largely separately on two continents inevitably raises complex theories and debates Each participating power has its own history and each one must take account of various influences upon the behaviour of its soldiers and statesmen His wide ranging collection of original essays each by an international expert in their field covers all aspects of the subject and highlights the controversy that continues to characterise current thinking on the origins of the war Going beyond the usual Eurocentric approach Part I examines the roles of all seven of the Great Powers including Japan and the USA as well as the parts played by several of the lesser Powers such as Czechoslovakia Poland and China Part II contains chapters which explore key themes that cannot be fully understood within the context of any single country These themes include the role of ideology propaganda intelligence armaments economics diplomacy the neutral states peace movements and the social science approach to war Written in clear jargon free prose together these essays provide a comprehensive single volume text for students and teachers and are essential reading for all with an interest in the debates surrounding the causes of World War Two

The British Occupation of Indonesia: 1945-1946 Richard McMillan,2006-05-17 This is the first work to systematically examine the British occupation of Indonesia after the Second World War The occupation by British Indian forces between 1945 and 1946 bridged the gap between the surrender of Japan and the resumption of Dutch rule and this book is a reappraisal of the conduct on the ground of that British Occupation Contrary to previous studies this book demonstrates that occupation was neither exclusively pro Dutch nor pro Indonesian nor was it the orderly affair portrayed in the official histories Richard McMillan draws upon a wide range of sources previously unavailable to scholars such as recently declassified government papers and papers in private archives he has also carried out revealing interviews with key players Presenting a wealth of new information this highly original and

well written book will appeal to scholars of European Imperialism the Second World War military history and the history of South and Southeast Asia It will also be relevant to a wide range of undergraduate courses in History Japan's Postwar Economic Recovery and Anglo-Japanese Relations, 1948-1962 Noriko Yokoi,2004-03-01 Ever since Japan s economy recovered in the 1960s scholars have been searching for the reasons for its meteoric postwar success Until now much research has been based on the study of Japan s society its political and economic infrastructure and its particular model of capitalism But now that American and British government documents from the 1950s have been released it emerges that the United States as part of its Cold War economic and military strategy in East Asia played a large part in assisting Japan out of its economic difficulties whereas Britain s role seems to have been more ambivalent and circumspect This book sets out to rectify the lack of full research into Anglo Japanese trade relations from the late 1940s up to the early 1960s and to examine the impact of cultural differences and perceptions on diplomacy as well as the influence of prevailing political considerations like the Cold War This book highlights the ebbs and flows in bilateral relations as Japan increased its economic and financial presence in Southeast Asia and Britain retreated politically and economically from its Empire in the East The Dominion and the Rising Sun John D. Meehan,2004 The Dominion and the Rising Sun is the first major study of Canada s diplomatic arrival in Japan and by extension East Asia It examines the political economic and cultural relations forged during this seminal period between the foremost power in Asia and the young dominion tentatively establishing itself in world affairs An overview of Canada s initial foray into Pacific affairs it begins with the opening in 1929 of the Canadian legation in Tokyo Canada s third such office overseas and concludes with the outbreak of hostilities in 1941 Primarily a diplomatic history the book also explores the impact of traders interest groups and missionaries on Canadian attitudes toward Japan during the interwar years More fundamentally it examines Canada s diplomatic coming of age closely revealing its important Pacific dimension a fact overlooked by historians until now as well as the disjunct between Canada s commitment to peace and its trade with an aggressor Meehan suggests that Canada s initially benign view of Japan its reluctance to adopt positions in advance of its Anglo American allies and its lucrative Pacific trade led to a credibility gap in its policies towards East Asia The Dominion and the Rising Sun charts Canada s relationship with Japan and is essential reading for those interested in Canadian history international relations and Asia Pacific studies **Post-war Japan as a Sea Power** Alessio Patalano,2015-04-23 In Post war Japan as a Sea Power Alessio Patalano incorporates new exclusive source material to develop an innovative approach to the study of post war Japan as a military power This archival based history of Asia s most advanced navy the Japanese Maritime Self Defence Force JMSDF looks beyond the traditional perspective of viewing the modern Japanese military in light of the country s alliance with the US The book places the institution in a historical context analysing its imperial legacy and the role of Japan s shattering defeat in WWII in the post war emergence of Japan as East Asia s sea power **Britain's Secret War against Japan, 1937-1945** Douglas Ford,2006-09-27 A new look at how Britain

s defence establishment learned to engage Japan s armed forces as the Pacific War progressed Douglas Ford reveals that prior to Japan s invasion of Southeast Asia in December 1941 the British held a contemptuous view of Japanese military prowess He shows that the situation was not helped by the high level of secrecy which surrounded Japan s war planning as well as the absence of prior engagements with the Imperial Japanese Navy and Army The fall of Fortress Singapore in February 1942 dispelled the notion that the Japanese were incapable of challenging the West British military officials acknowledged how their forces in the Far East were inadequate and made a concerted effort to improve their strength and efficiency However because Britain s forces were tied down in their operations in Europe North Africa and the Mediterranean they had to fight the Japanese with limited resources Drawing upon the lessons obtained through Allied experiences in the Pacific theatres as well as their own encounters in Southeast Asia the British used the available intelligence on the strategy tactics and morale of Japan s armed forces to make the best use of what they had and by the closing stages of the war in 1944 to 1945 they were able to devise a war plan which paved the way for the successful war effort This book will be of great interest to all students of the Second World War intelligence studies British military history and strategic studies in general
