Politics, Philosophy, and Terror Dana R. Villa, 2003-06-01

Politics, Philosophy, Terror Dana Villa, 1999-08-30

Hannah Arendt's rich and varied political thought is more influential today than ever before due in part to the collapse of communism and the need for ideas that move beyond the old ideologies of the Cold War. As Dana Villa shows, however, Arendt's thought is often poorly understood both because of its complexity and because her fame has made it easy for critics to write about what she is reputed to have said rather than what she actually wrote. Villa sets out to change that here, explaining clearly, carefully, and forcefully Arendt's major contributions to our understanding of politics, modernity, and the nature of political evil in our century. Villa begins by focusing on some of the most controversial aspects of Arendt's political thought. He shows that Arendt's famous idea of the banality of evil, inspired by the trial of Adolf Eichmann, does not, as some have maintained, lessen the guilt of war criminals by suggesting that they are mere cogs in a bureaucratic machine. He examines what she meant when she wrote that terror was the essence of totalitarianism, explaining that she believed Nazi and Soviet terror served above all to reinforce the totalitarian idea that humans are expendable units subordinate to the all-determining laws of Nature or History. Villa clarifies the personal and philosophical relationship between Arendt and Heidegger, showing how her work drew on his thought while providing a firm repudiation of Heidegger's political idiocy under the Nazis. Less controversially, but as importantly, Villa also engages with Arendt's ideas about the relationship between political thought and political action. He explores her views about the roles of theatricality, philosophical reflection, and public spiritedness in political life. And he explores what relationship, if any, Arendt saw between totalitarianism and the great tradition of Western political thought. Throughout, Villa shows how Arendt's ideas illuminate contemporary debates about the nature of modernity and democracy, and how they deepen our understanding of philosophers ranging from Socrates and Plato to Habermas and Leo Strauss. Direct, lucid, and powerfully argued, this is a much-needed analysis of the central ideas of one of the most influential political theorists of the twentieth century.

Between Terror and Freedom Simona Goj, Frederick Michael Dolan, 2006-09-27 In this volume, Simona Goj and Frederick M. Dolan gather stimulating arguments for the indispensability of fiction, including poetry, drama, and film, as irreplaceable sites for wrestling with nature, meaning, shortcomings, and the future of modern politics. *Between Terror and Freedom* brings to the surface an understanding of modernity as a multifaceted and dynamic narrative as it relates to politics, philosophy, and fiction. Collecting essays across fields, Goj and Dolan challenge strict disciplinary boundaries. This is not meant to be read as another contribution to the debate of whether literature can or should be political. *Between Terror and Freedom* instead reveals how literature illuminates and expands our understanding of philosophical and political questions. Political theorists, philosophers, cultural scholars, and rhetoricians offer a fresh perspective on the questions of our age and the paradoxes of modernity when they read literature.

Philosophical Perspectives on the War on Terrorism Gail M.

Presbey,2007 This book responds to the Bush Administration position on the war on terror It examines preemption within the context of just war justification for the United States led invasion of Iraq with some authors charging that its tactics serve to increase terror global terrorism and concepts such as reconciliation Islamic identity nationalism and intervention

Creolizing Hannah Arendt Marilyn Nissim-Sabat,Neil Roberts,2024-05-13 *Creolizing Hannah Arendt* is the first book to explore the implications of creolizing Hannah Arendt 1906 75 and thinking for action liberation freedom power democracy identity racism prejudice totalitarianism immigration judgment revolution decolonial politics the human and the modern traditions of Caribbean political thought Africana philosophy and existential phenomenology Contributors include Cristina Beltr n Roger Berkowitz Ang lica Maria Bernal Robert Eaglestone Stephen Nathan Haymes Paget Henry Thomas Meagher Dana Francisco Miranda Marilyn Nissim Sabat Niklas Plaetzer Neil Roberts *Terror* Brett Bowden,Michael T. Davis,2008 With a foreword by Geoffrey Robertson QC The issues of terror and terrorism confront us every day every time we board a flight pick up a newspaper or watch television Concerns about terrorism now dictate domestic and foreign policies around the world In a very real sense one way or another we find ourselves in the grip of terror But what is terror How is it described measured and experienced Is the current terrorist threat unprecedented The answers to many of these questions and the lessons therein are to be found in history and nowhere more so than in Europe In fact Europe has been home to some of the most terrifying and horrific events in recorded human history This collection takes a broad ranging yet detailed look at the landmark events and epochs of terror across Europe from the Gunpowder Plot of 1605 to the terrorist bombings on the London Underground in July 2005 Drawing on leading authorities from across the globe this volume explores the historical mutation of political violence and concepts of terror Terror will be of interest to scholars of history international relations and political science to policy makers and to the educated layperson **The Politics of Terror** William J. Crotty,2016-02-01 In the wake of the September 11 attacks Americans were confronted with a new kind of war and a new kind of danger After the strikes institutions were created to mobilize the domestic response to potential terrorist threats and Congress passed legislation giving the president broad powers to fight terrorism and to provide heightened security for the nation In this timely work a team of experts addresses the question of how a democracy faces the challenge of balancing legitimate homeland security concerns against the rights and freedoms of its citizens They evaluate the measures introduced in the aftermath of 9 11 and assess the far reaching consequences of those changes for American politics and society Justifying the Obligation to Die Ilan Zvi Baron,2009-06-16 One of the state s key features is its ability to oblige its citizens to risk their lives on its behalf by being sent into war However what is it about the state or its equivalent that makes this obligation justifiable *Justifying the Obligation to Die* is the first monograph to explore systematically how this obligation has been justified Using key texts from political philosophy and just war theory it provides a critical survey of how this obligation has been justified and using illustrations from Zionist thought and practice demonstrates how the various arguments for the

obligation have functioned The obligation to risk one's life for the state is often presumed by theorists and practitioners who take the state for granted but for the Zionists a people without a state but in search of one and who have little history of state based political thought it became necessary to explain this obligation As such this book examines Zionism as a Jewish political theory reading it alongside the tradition of Western political thought and critiques how Zionist thought and practice sought to justify this obligation to risk one's life in war_what Michael Walzer termed the obligation to die Finally turning to the political thought of Hannah Arendt the author suggests how the obligation could become justifiable although never entirely justified For the obligation to become at all justifiable the type of politics that the state enables must respect human diversity and individuality and restrict violence so that violence is not a continuation of politics

Terrorism and the Politics of Response Angharad Closs Stephens, Nick Vaughan-Williams, 2008-09-30 This interdisciplinary edited volume critically examines the dynamics of the War on Terror focusing on the theme of the politics of response The book explores both how responses to terrorism by politicians authorities and the media legitimise particular forms of sovereign politics and how terrorism can be understood as a response to global inequalities colonial and imperial legacies and the dominant idioms of modern politics The investigation is made against the backdrop of the 7 July 2005 bombings in London and their aftermath which have gone largely unexamined in the academic literature to date The case offers a provocative site for analysing the diverse logics implicated in the broader context of the War on Terror for examining how terrorist events are framed and how such framings serve to legitimise particular policies and political practices

An Intellectual History of Terror Mikkel Thorup, 2010-06-30 This book investigates terrorism and anti terrorism as related and interacting phenomena undertaking a simultaneous reading of terrorist and statist ideologists in order to reconstruct the deadly dialogue between them This work investigates an extensive array of violent phenomena and actors trying to broaden the scope and ambition of the history of terrorism studies It combines an extensive reading of state and terrorist discourse from various sources with theorizing of modernity's political institutional and ideological development forms of violence and its guiding images of self and other order and disorder Chapters explore groups of actors terrorists pirates partisans anarchists Islamists neo Nazis revolutionaries soldiers politicians scholars as well as a broad empirical source material and combine them into a narrative of how our ideas and concepts of state terrorism order disorder territory violence and others came about and influence the struggle between the modern state and its challengers The main focus is on how the state and its challengers have conceptualized and legitimated themselves defended their existence and most importantly their violence In doing so the book situates terrorism and anti terrorism within modernity's grander history of state war ideology and violence This book will be of much interest to students of critical terrorism studies political violence sociology philosophy and Security Studies IR in general Mikkel Thorup is Assistant Professor at the Institute of Philosophy and the History of Ideas University of Aarhus Denmark

How the Neoliberalization of Academia Leads to Thoughtlessness Justin Pack, 2018-11-15 Universities

across the US have committed to a process of neoliberalization that is radically altering higher education academia is increasingly being run like a business As a result the university is becoming less and less a place of wonder self cultivation and thinking and instead is becoming more and more a place to specialize strategize produce and profit Students race through coursework to bolster job prospects while facing massive debt Faculty scramble for the biggest grants and angle for the most prestigious journals Sink or swim publish or perish triumph and win there is no longer time to think and to wonder This undermines the opportunity for students to develop into good citizens that can truly think critically and judge carefully Thinking and judgment are according to the philosopher Hannah Arendt the only things that can save us if the powerful machines of science or capitalism begin to work in ways they should not Arendt saw Nazi Germany use the newest science and the best economic management to systematically kill six million Jews She saw the disturbing inability of the populace and the intellectuals to capably resist the Nazi machine once it got rolling Applying Arendt s insights to modern academia Pack argues that unless checked neoliberalization threatens to turn the university into a place that discourages thinking and the development of judgment in favor of hyper specialization and strategic action

The Politics of Atrocity and Reconciliation Michael Humphrey, 2013-04-15 The Politics of Atrocity and Reconciliation examines contemporary political violence and atrocity in the context of the crisis of the nation state It explores the way violence is used to unmake the social world and how its product suffering is used to try to remake the social world Humphrey considers both the unmaking of the world through torture war urbicide and ethnic cleansing and the resultant remaking of the world through testimony and witnessing in the forums of truth commissions and trials The discussion thus moves from terror to trauma

The Politics of Terror Erica Chenoweth, Pauline L. Moore, 2018 Bringing together both classic and contemporary research The Politics of Terror provides a systematic introduction to the theory politics and practice of terrorism The text is framed around a set of empirical theoretical and methodological puzzles that arise in the study of terrorism challenging students to think critically about key issues in the field

The Social Contract in Africa Osha, Sanya, 2014-06-19 This book employs the event of the Arab Spring revolution of 2011 to reflect on the event itself and beyond Some of the chapters address the colonial encounter and its lingering reverberations on the African sociopolitical landscape Others address the aftermath of large scale societal violence and trauma that pervade the African context The contributions indicate the range of challenges confronting African

societies in the postmodern era They also illustrate the sheer resilience and inventiveness of those societies in the face of apparently overwhelming odds What is the nature of political power in contemporary Africa as constituted from below instead of being a state driven phenomenon What constitutes sovereignty without recourse to the usual academic responses and discourses These two questions loom behind most of the deliberations contained in this book with contributions from an impressive field of international scholars

Hannah Arendt and the Politics of Friendship Jon Nixon, 2015-01-29 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com For Hannah Arendt friendship had political relevance and importance The essence of friendship she believed consisted in discourse and it is only through discourse she argued that the world is rendered humane This book explores some of the key ideas in Hannah Arendt's work through a study of four lifelong friendships with Heinrich Blücher Martin Heidegger Karl Jaspers and Mary McCarthy The book draws on correspondence from both sides illuminating our understanding of the social contexts within which Arendt's thinking developed and was clarified It offers a cultural history of ideas shedding light on two core ideas in Arendt of plurality and promise and on how those particular ideas emerged through a particular set of relationships at a significant moment in the history of the West This book offers an original and accessible way in to Arendt's work for students and scholars of politics philosophy intellectual history and literature

Religion, Science, and Democracy Lisa L. Stenmark, 2013-03-08 Despite the increasing popularity of religion and science as an academic discourse the intersection of science and religion remains a front line in an ongoing culture war The reasons for this lie in an approach to discourse that closely resembles the model of discourse promoted by John Rawls in which plural discourse such as between religion and science is based on a foundation of shared beliefs and established facts This leads to a doctrines and discoveries approach to the relationship of religion and science which focuses on their respective truth claims in an attempt to find areas of agreement This framework inherently privileges scientific perspectives which actually increases conflict between religion and science and undermines public discourse by inserting absolutes into it To the extent that the science and religion discourse adopts this approach it inadvertently increases the conflict between religion and science and limits our ability to address matters of public concern This book suggests an alternative model for discourse a disputational friendship based on the work of Hannah Arendt This approach recognizes the role that authorities and thus religion and science play in public life but undermines any attempt to privilege a particular authority because it promotes the position of the storyteller who never settles on a single story but always seeks to incorporate many particular stories into her account A disputational friendship promotes storytelling not by seeking agreement but by exploring areas of disagreement in order to create the space for more conversations and to generate more stories and additional interpretations Successful discourse between religion and science is not measured by its ability to determine truth or fact but by its ability to continually expand the discourse and promote public life and public judgment

Globalizing Critical Theory Max

Pensky, 2005-01-28 Across a spectrum of academic disciplines the topic of globalization is at the forefront of contemporary efforts to understand a dynamically changing world society How might critical social theory respond creatively to the challenge of thinking and theorizing globalization in its full complexity Globalizing Critical Theory collects essays by scholars at the forefront of Critical Theory as they confront this timely topic This book offers readers a chance to see contemporary Critical Theory in its full range from political analyses of a global public sphere critical race theory and the politics of memory to aesthetics and media studies It includes crucial new essays by Jürgen on the transformations of the global order in the wake of the American invasion of Iraq and major interventions by Nancy Fraser Peter Hohendahl Andreas Huyssen James Bohman and others Globalizing Critical Theory provides a fascinating exploration of how Critical Theory is confronting the question of globalization and how globalization is transforming Critical Theory **Hannah Arendt and the Limits of Total**

Domination Michal Aharony, 2015-03-05 Responding to the increasingly influential role of Hannah Arendt's political philosophy in recent years Hannah Arendt and the Limits of Total Domination The Holocaust Plurality and Resistance critically engages with Arendt's understanding of totalitarianism According to Arendt the main goal of totalitarianism was total domination namely the virtual eradication of human legality morality individuality and plurality This attempt in her view was most fully realized in the concentration camps which served as the major laboratories for the regime While Arendt focused on the perpetrators logic and drive Michal Aharony examines the perspectives and experiences of the victims and their ability to resist such an experiment The first book length study to juxtapose Arendt's concept of total domination with actual testimonies of Holocaust survivors this book calls for methodological pluralism and the integration of the voices and narratives of the actors in the construction of political concepts and theoretical systems To achieve this Aharony engages with both well known and non canonical intellectuals and writers who survived Auschwitz and Buchenwald concentration camps Additionally she analyzes the oral testimonies of survivors who are largely unknown drawing from interviews conducted in Israel and in the U S as well as from videotaped interviews from archives around the world Revealing various manifestations of unarmed resistance in the camps this study demonstrates the persistence of morality and free agency even under the most extreme and dehumanizing conditions while cautiously suggesting that absolute domination is never as absolute as it claims or wishes to be Scholars of political philosophy political science history and Holocaust studies will find this an original and compelling book
