Politics Society And Christianity In Vichy France

Nicholas Atkin, Frank Tallett

Politics Society And Christianity In Vichy France:

Politics, Society and Christianity in Vichy France W. D. Halls, 1995-01-18 The trauma of the treatment of the Jews which eventually acted upon the Church as a catalyst is assessed in detail since it represented a turning point in Christian attitudes *Catholicism, Politics and Society in Twentieth-century France* Kay Chadwick, 2000-01-01 Catholicism once the protean monster still functions as a complex component of French identity No consideration of modern France would be complete without reference to the enduring impact and influence of Catholicism on the life of the nation This volume sets out to capture some of the variety and significance of the Catholic phenomenon in twentieth century secular France and to express something of its extraordinary vitality and interest Each contribution focuses on a specific theme or period crucial to an understanding of the role played by French Catholics and their Church Collectively these studies reveal that Catholics were involved in almost every event of consequence and voiced an opinion on almost every issue Equally the volume offers a collage of insights which reflects the fragmentation of Catholic activity and attitudes as the century progressed Being Catholic in modern France no longer means the espousal of a particular political or social agenda Nor does it necessarily mean regular and traditional religious observance or even strict adherence to the dictates of the Church Modern French Catholicism truly has many mansions *The Extreme Right in France, 1789 to the Present* Peter Davies, 2002 Since 1789 the far right has been an important factor in French political life and in different eras has taken on a range of different guises This work surveys the history of this contentious political and intellectual tradition France since 1870 Charles Sowerwine, 2018-01-25 This thoroughly revised updated and expanded new edition of an established text surveys the cultural social and political history of France from the Franco Prussian War of 1870 and the Paris Commune through to Emmanuel Macron s presidency Incorporating the newest interpretations of past events Sowerwine seamlessly integrates culture gender and race into political and social history This edition features extended coverage of the 2007 8 financial crisis the rise of the political and cultural far right and the issues of colonialism and its contemporary repercussions This is an essential resource for undergraduate and taught postgraduate students of history French studies or European studies taking courses on modern French history or European history This text will also appeal to scholars and readers with an interest in modern French history Richly informative and lucidly presented Sowerwine s *France since 1870* offers essential reading for students and researchers Particularly powerful is the new final chapter which draws on historical expertise to explore and explain the literary and political malaise of contemporary France Jessica Wardhaugh University of Warwick UK This third edition is unparalleled in its reach and excellence as a history of modern France from 1870 to the present Sowerwine seamlessly integrates culture gender and race into political and social history His incorporation of the newest interpretations of past events as well as the historical perspective he lends to current events such as terror attacks new laws regarding labor and marriage modern globalization neo liberalism as well as to France s darkening mood make this highly readable book a true

masterpiece Elinor Accampo University of Southern California USA Her recent social and economic challenges have cast deep shadows into the story of modern France that Charles Sowerwine tells so clearly Those dark questions about culture politics and society have their full place in this This scholarly but accessible reassessment of French history since 1870 This edition raises new questions about France s story directly and compellingly and remains the key text for readers who are curious about modern France Julian Wright Northumbria University UK Following on the fine precedent set by earlier editions this masterful survey offers students and the public alike a readable and illuminating account of the tortuous and ever intriguing path of French history since 1870 George Sheridan University of Oregon USA

Catholic Politics in Europe, 1918-1945 Martin Conway, 2008-02-20 The history of Catholic political movements has long been a missing dimension of the history of Europe during the twentieth century Martin Conway explores the fascinating history of Catholic political movements in Europe between 1918 and 1945 demonstrating the crucial role which Catholics played in the rise of fascism in Italy and Germany the events of the Spanish Civil War and of the Second World War Drawing on the findings of recent research Conway shows how Catholic political movements formed a vital element of the political life of Europe during the inter war years In countries as diverse as France Germany Italy Spain and Austria as well as further east in Poland Slovakia Croatia and Lithuania Catholic political parties flourished Inspired by the values of Catholicism these movements fought for their own political ideals hostile to both liberal democracy and totalitarian fascism Catholics were a third force in European politics During the Second World War Catholic political movements continued to pursue their own goals some chose to fight alongside the German armies other groups joined Resistance movements to fight against German oppression and for a new social and political order based on Catholic principles Catholic Politics in Europe will provide an original key point of reference for twentieth century history for comparison with fascist and communist movements of the period and will give insight into the present day character of Catholicism

Irregular Armed Forces and their Role in Politics and State Formation Diane E. Davis, Anthony W. Pereira, 2003-01-13 Existing models of state formation are derived primarily from early Western European experience and are misleading when applied to nation states struggling to consolidate their dominion in the present period In this volume scholars suggest that the Western European model of armies waging war on behalf of sovereign states does not hold universally The importance of irregular armed forces militias guerrillas paramilitaries mercenaries bandits vigilantes police and so on has been seriously neglected in the literature on this subject The case studies in this book suggest among other things that the creation of the nation state as a secure political entity rests as much on irregular as regular armed forces For most of the developing world the state s legitimacy has been difficult to achieve constantly eroding or challenged by irregular armed forces within a country s borders No account of modern state formation can be considered complete without attending to irregular forces

France and the Second World War Peter Davies, 2004-03-01 France and the Second World War is a concise introduction to a crucial and controversial period of French

history world war and occupation During World War Two France had the dramatic experience of occupation by the Germans and the legacy of this traumatic time has lived on until today to the enduring fascination of historians and students France and the Second World War provides a fresh and balanced insight into the events of this era of conflict exploring the key themes of Occupation as a social economic and political phenomenon the Vichy regime and the politics of collaboration the resistance resisters and its ideology the liberation the legacy of the wartime period **The Routledge Companion to Fascism and the Far Right** Peter Davies,Derek Lynch,2005-08-16 The Routledge Companion to Fascism and the Far Right is an engaging and accessible guide to the origins of fascism the main facets of the ideology and the reality of fascist government around the world In a clear and simple manner this book illustrates the main features of the subject using chronologies maps glossaries and biographies of key individuals As well as the key examples of Hitler s Germany and Mussolini s Italy this book also draws on extreme right wing movements in Latin America Eastern Europe and the Far East In a series of original essays the authors explain the complex topics including the roots of fascism fascist ideology fascism in government and opposition nation and race in fascism fascism and society fascism and economics fascism and diplomacy

France: The Dark Years, 1940-1944 Julian Jackson,2003-03-05 The French call them the Dark Years This definitive new history of Occupied France explores the myths and realities of four of the most divisive years in French history Taking in ordinary people s experiences of defeat collaboration resistance and liberation it uncovers the conflicting memories of occupation which ensure that even today France continues to debate the legacy of the Vichy years **The Cambridge History of Christianity: Volume 9, World Christianities C.1914-c.2000** Hugh McLeod,2006-01-12 A comprehensive history of Christianity in the century when it truly became a global religion *Pétain* Nicholas Atkin,2014-06-17 Pétain 1856-1951 remains one of the most controversial figures in the history of modern France He was saviour of his country at Verdun in 1916 during the First World War but tried for treason as head of state of the collaborationist Vichy government after World War II Were his actions those of a traitor or a patriot facing the total disintegration of his country In exploring the actions of this controversial figure Nicholas Atkin also reveals the divisions and uncertainties of France herself *Africa and World War II* Judith Ann-Marie Byfield,Carolyn A. Brown,Timothy Parsons,Ahmad Alawad Sikainga,2015-04-20 This volume offers a fresh perspective on Africa s central role in the Allied victory in World War II Its detailed case studies from all parts of Africa enable us to understand how African communities sustained the Allied war effort and how they were transformed in the process Together the chapters provide a continent wide perspective *Marianne in Chains* Robert Gildea,2024-03-26 A startling and original view of the occupation of the French heartland based on a new investigation of everyday life under Nazi rule In France the German occupation is called simply the dark years There were only the good French who resisted and the bad French who collaborated *Marianne in Chains* a broad and provocative history uncovers a rather different story one in which the truth is more complex and humane Drawing on previously unseen archives firsthand interviews diaries and

eyewitness accounts Robert Gildea reveals everyday life in the heart of occupied France He describes the pressing imperatives of work food transportation and family obligations that led to unavoidable compromise and negotiation with the army of occupation In the process he sheds light on such subjects as forced labor the role of the Catholic Church the horizontal collaboration between French women and German soldiers and most surprisingly the ambivalent attitude of ordinary people toward the Resistance A great work of reconstruction Marianne in Chains provides a clear view unobscured by romance or polemics of the painful ambiguities of living under tyranny *Parties, Partisanship and Political Theory*

Matteo Bonotti, Veit Bader, 2016-04-14 Political parties have only recently become a subject of investigation in normative political theory Parties have traditionally been studied by political scientists in their organizational features and in relation to the analysis of related topics such as party systems and electoral systems Little attention however was paid until recently to the normative assumptions that underlie partisanship and party politics Are parties desirable for democratic politics How should liberal democracies deal with extremist and or anti democratic parties Do religious parties undermine the secular distinction between religion and politics and is that bad for liberal democracies These are only some of the many questions that political theorists had left unanswered for a long time The papers in this collection aim to provide a twofold contribution to the normative analysis of partisanship On the one hand they aim to offer a first much needed state of the art of the existing research in this area Many of the contributors have already done extensive research on partisanship and their pieces partly reflect their research expertise and individual approaches to this topic On the other hand all pieces move beyond the authors existing work and represent significant additions to the normative literature on partisanship thus setting the standards for future research in this area This book was published as a special issue of Critical Review of International Social and Political Philosophy **The End of the Schism** Udi Greenberg, 2025-05-01 After centuries of enmity why did Europe's Catholics and Protestants reconcile Udi Greenberg argues that modern Christian cooperation arose not from tolerance but from fears of socialism feminism and Afro Asian liberation movements In seeking to preserve Christian life these former rivals forged a lasting alliance that remade the continent The forgotten French Nicholas Atkin, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license It is widely assumed that the French in the British Isles during the Second World War were fully fledged supporters of General de Gaulle and that across the channel at least the French were a nation of resisters This study reveals that most exiles were on British soil by chance rather than by design and that many were not sure whether to stay Overlooked by historians who have concentrated on the Free French of de Gaulle these were the Forgotten French refugees swept off the beaches of Dunkirk servicemen held in camps after the Franco German armistice Vichy consular officials left to cater for their compatriots and a sizeable colonist community based mainly in London Drawing on little known archival sources this study examines the hopes and fears of those communities who were bitterly divided among themselves some being attracted to P tain as much as to de Gaulle *The French at War,*

1934-1944 Nicholas Atkin, 2014-07-22 The years 1934 to 1944 remain the most contentious and dramatic decade in modern French history Covering the Occupation the Vichy regime the Resistance and collaboration Nick Atkin provides an important introduction to this key period Accessible and concise the book offers a wide ranging synthesis of key themes and events Looking ahead to the present day the book also examines how the French establishment and public have coped with the legacy of Vichy and explains why the occupation is still ever present in French politics and everyday life **Priests,**

Prelates and People Nicholas Atkin, Frank Tallett, 2003-09-26 The Catholic Church has always been a major player in European and world history Whether it has enjoyed a religious dominance or existed as a minority religion Catholicism has never been diverted from political life Priests Prelates and People records the Church struggling to adapt to the new political landscape ushered in by the French Revolution and shows how the formation of nation states and identities was both helped and hindered by the Catholic establishment It portrays the Vatican increasingly out of step in the wake of world war Cold War and the massive expansion of the developing world with its problems of population growth and under development

Christian Human Rights Samuel Moyn, 2015-09-04 In Christian Human Rights Samuel Moyn asserts that the rise of human rights after World War II was prefigured and inspired by a defense of the dignity of the human person that first arose in Christian churches and religious thought in the years just prior to the outbreak of the war The Roman Catholic Church and transatlantic Protestant circles dominated the public discussion of the new principles in what became the last European golden age for the Christian faith At the same time West European governments after World War II particularly in the ascendant Christian Democratic parties became more tolerant of public expressions of religious piety Human rights rose to public prominence in the space opened up by these dual developments of the early Cold War Moyn argues that human dignity became central to Christian political discourse as early as 1937 Pius XII's wartime Christmas addresses announced the basic idea of universal human rights as a principle of world and not merely state order By focusing on the 1930s and 1940s Moyn demonstrates how the language of human rights was separated from the secular heritage of the French Revolution and put to use by postwar democracies governed by Christian parties which reinvented them to impose moral constraints on individuals support conservative family structures and preserve existing social hierarchies The book ends with a provocative chapter that traces contemporary European struggles to assimilate Muslim immigrants to the continent's legacy of Christian human rights

Culture Wars Christopher Clark, Wolfram Kaiser, 2003-08-14 Across nineteenth century Europe the emergence of constitutional and democratic nation states was accompanied by intense conflict between Catholics and anticlerical forces At its peak this conflict touched virtually every sphere of social life schools universities the press marriage and gender relations burial rites associational culture the control of public space folk memory and the symbols of nationhood In short these conflicts were culture wars in which the values and collective practices of modern life were at stake These culture wars have generally been seen as a chapter in the history of specific nation states Yet it has recently become increasingly clear that the

Europe of the mid and later nineteenth century should also be seen as a common politico cultural space This book breaks with the conventional approach by setting developments in specific states within an all European and comparative context offering a fresh and revealing perspective on one of modernity s formative conflicts

Whispering the Secrets of Language: An Psychological Journey through **Politics Society And Christianity In Vichy France**

In a digitally-driven earth wherever displays reign supreme and immediate communication drowns out the subtleties of language, the profound techniques and psychological nuances hidden within phrases often move unheard.
