

Politics & Television

Kurt Lang and Gladys Engel Lang

Is McLuhan right—doesn't the message matter?

Is television the only "truthful" medium?

How important is a candidate's TV image?

Did the Kennedy-Nixon debates really affect voter preferences?

How do early election returns influence late voters?

Here is a perceptive, fascinating book about the impact of television upon American political life today. It asks unusual questions—and offers surprising answers.

Politics And Television

Robert MacNeil

Politics And Television:

Television and Politics , One question the authors address Do network projections based on increasingly sophisticated techniques for calling election outcomes well before polls close affect results At no time has this question been more in the forefront of public consciousness than in the wake of the 2000 presidential election The Langs draw on their own highly detailed study of voter reactions to election news to assess its effect on turnout on political attitudes on candidate strategies and on legislative initiatives As a model of how to study communication effects this highly readable volume will interest decision makers and analysts as well as students of journalism broadcasting political behavior and voters looking ahead to the next election **BOOK JACKET** Politics and Television Kurt Lang,Gladys Engel Lang,1968 **The Unseeing Eye** Thomas E. Patterson,Robert D. McClure,1976 Television and Politics ,2017 The authors have analyzed the television problem brilliantly They had come up with a whole set of new insights and their backup research always is fascinating to read Saturday Review A cautious research based book hopefully it will set a trend Ithiel de Sola Pool Public Opinion Quarterly After more than forty years of studying its political implications Kurt and Gladys Lang put the power of television into a unique perspective Through carefully compiled case studies they reveal surprising truths about TV's effect on American political life and explode some popular myths Their theme throughout is that television gives the viewer the illusion of being a favored spectator at some event he sees for himself in other words But in fact it conveys a reality different from that experienced by an eyewitness Because the televised version of an event reaches more people it has greater impact on the public memory and comes to overshadow what actually happened The Langs tell in detail how television shapes events how public figures and political institutions adjust their tactics to exploit the effects they and millions of viewers think television has They examine such issues as whether or not network television projections influence election results They consider the accuracy of the networks increasingly sophisticated techniques for calling election outcomes well before polls close Such concerns have never been more at the forefront of the public consciousness than in the wake of the 2000 presidential election The Langs assess the research to date and clarify the effects of early TV projections on voter turnout and election outcomes and look at the implications for our system of government A model of excellent policy analysis this highly readable volume will interest decision makers and analysts as well as students of journalism broadcasting political behavior and voters looking forward to the next election Kurt Lang was a professor of sociology and political science at Stony Brook before becoming the Director of the School of Communications at the University of Washington Gladys Engel Lang is a professor of communications with joint appointments in Political Science and Sociology at the University of Washington In addition to Television and Politics the Langs have also co authored The Battle for Public Opinion the President the Press and the Polls during Watergate Voting and Nonvoting and Collective Dynamics Provided by publisher **The Politics of TV Violence** Willard D. Rowland,1983-04 Reviews the findings of communication research on the effects of television on violent

behaviour and the history of the use of this information in policy making To what political use has violence research been put What impact has it had on politics The interactions of federal communication policy the broadcasting industry public or citizens interest groups and the communication research community are described The rise of TV violence as an issue is documented in the context of the rise of social science as a policy making resource Rowland uses hearings records and reports of congressional committees and national commissions to reveal the patterns of argument and shared assumptions and the structure of interactions among groups and institutions These records are also part of our rituals of social self examination Rowland s approach rises out of the tradition of critical cultural studies with its emphasis on history and symbolic analysis His book finally is about the symbolic uses to which communication research indeed social science is put to alleviate contemporary tensions and unease *Channels Of Power* Ranney,1985-03-10 *Politics and Television* Re-viewed Gladys Engel Lang,Kurt Lang,1984 *Politics and Politicians in Contemporary US Television* Betty Kaklamanidou,Margaret Tally,2016-10-04 Bringing together well established scholars of media political science sociology and film to investigate the representation of Washington politics on U S television from the mid 2000s to the present this volume offers stimulating perspectives on the status of representations of contemporary US politics the role of government and the machinations and intrigue often associated with politicians and governmental institutions The authors help to locate these representations both in the context of the history of earlier television shows that portrayed the political culture of Washington as well as within the current political culture transpiring both inside and outside of The Beltway With close attention to issues of gender race and class and offering studies from contemporary quality television including popular programmes such as *The West Wing* *Veep* *House of Cards* *The Americans* *The Good Wife* and *Scandal* the authors examine the ways in which televisual representations reveal changing attitudes towards Washington culture shedding light on the role of the media in framing the public s changing perception of politics and politicians Exploring the new era in which television finds itself with new production practices and the possible emergence of a new political genre emerging *Politics and Politicians in Contemporary U S Television* also considers the humanizing of political characters on television asking what that representation of politicians as human beings says about the national political culture A fascinating study that sits at the intersection of politics and television this book will appeal to scholars of popular culture sociology cultural and media studies **The People Machine** Robert MacNeil,1968 **The International Politics of Television** George H.
