Africa and international organization Y. El-Ayouty, H.C. Brooks, 2012-12-06 As an emerging Continent with a rich past dynamic present and promising future Africa has an important role to play in the development of international organization Well before Africa Year 1960 when several African States attained their independence and their rightful place in the community of nations the various movements for unity and co operation strove towards the creation of regional international organization Now more than ever before nearly two scores of African States members of the United Nations the Organization of African Unity and several other sub regional organizations and arrangements look upon international organization as an important means for safeguarding their independence enhancing African identity forging collaborative bonds amongst

themselves and with the outside world and raising the standard of living for their populations. It should also be noted that the age of science and technology which is and should be based on international co-operation stimulates further Africa's desire to strengthen and work through international inter-governmental organizations. As Africa faces the 1970s confronting the core problems of colonialism and apartheid in its southern parts, she looks upon the United Nations and the Organization of African Unity as the main vehicles for thought and action. For these considerations, the present book resulting from the St

Human Rights Law in Africa, Volume 4 (1999) Christof Heyns, 2021-11-15. A wide range of topics is covered for the first time in this volume including resolutions of various OAU bodies in respect of human rights, the relevant provisions of the treaties establishing sub-regional inter-governmental organisations and the founding documents of national human rights institutions in Africa. *Africa and International Relations in the 21st Century* S. Cornelissen, F. Cheru, T. Shaw, 2016-01-26. This book examines key emergent trends related to aspects of power, sovereignty, conflict, peace, development and changing social dynamics in the African context. It challenges conventional IR precepts of authority, politics and society which have proven to be so inadequate in explaining African processes. Rather, this edited collection analyses the significance of many of the uncharted dimensions of Africa's international relations such as the respatialisation of African societies through migration and the impacts this process has had on state power, the various ways in which both formal and informal authority and economies are practised and the dynamics and impacts of new transnational social movements on African politics. Finally, attention is paid to Africa's place in a shifting global order and the implications for African international relations of the emergence of new world powers and/or alliances. This edition includes a new preface by the editors which brings the findings of the book up to date and analyses the changes that are likely to impact upon global governance and human development in policy and practice in Africa and the wider world post 2015. **Yearbook of the United Nations 1991** Department of Public Information, United Nations, 2023-12-28. Seminar paper from the year 2005 in the subject Politics International Politics Region Africa grade 2 University of Kassel language English abstract. This section examines the historical context of the idea of African integration, the challenges it faces and the significance in global affairs. The majority of post-independence African leaders supported the idea of African Union; some of them disagreed on the form and composition of such a union while a minority were suspicious of the idea because of greed or fear to lose their countries' sovereignty. The proponents for the formation of a closer cooperation in Africa argued that Africa should not only serve as a source of cheap raw materials to western countries but a vibrant power in global affairs. They argued that this idea can only be achieved if all countries bring their human and material resources together to form a united front for the interest of Africans in particular and the world at large. This idea led to the formation of the Organisation of African Unity OAU in 1963 which was later transformed to the African Union AU in 2002.
