
The Politics of Collective Violence

Charles Tilly

Politics Of Collective Violence

Ernesto Castañeda, Cathy Schneider

Politics Of Collective Violence:

The Politics of Collective Violence Charles Tilly, 2003-03-17 Are there any commonalities between such phenomena as soccer hooliganism sabotage by peasants of landlords property incidents of road rage and even the events of September 11 With striking historical scope and command of the literature of many disciplines this book first published in 2003 seeks the common causes of these events in collective violence In collective violence social interaction immediately inflicts physical damage involves at least two perpetrators of damage and results in part from coordination among the persons who perform the damaging acts Professor Tilly argues that collective violence is complicated changeable and unpredictable in some regards yet that it also results from similar causes variously combined in different times and places Pinpointing the causes combinations and settings helps to explain collective violence and its variations and also helps to identify the best ways to mitigate violence and create democracies with a minimum of damage to persons and property

Collective Violence, Contentious Politics, and Social Change Ernesto Castañeda, Cathy Schneider, 2017-05-08 Charles Tilly is among the most influential American sociologists of the last century For the first time his pathbreaking work on a wide array of topics is available in one comprehensive reader This manageable and readable volume brings together many highlights of Tilly's large and important oeuvre covering his contribution to the following areas revolutions and social change war state making and organized crime democratization durable inequality political violence migration race and ethnicity narratives and explanations The book connects Tilly's work on large scale social processes such as nation building and war to his work on micro processes such as racial and gender discrimination It includes selections from some of Tilly's earliest influential and out of print writings including *The Vend e Coercion Capital and European States* the classic *War Making and State Making as Organized Crime* and his more recent and lesser known work including that on durable inequality democracy poverty economic development and migration Together the collection reveals Tilly's complex compelling and distinctive vision and helps place the contentious politics approach Tilly pioneered with Sidney Tarrow and Doug McAdam into broader context The editors abridge key texts and in their introductory essay situate them within Tilly's larger opus and contemporary intellectual debates The chapters serve as guideposts for those who wish to study his work in greater depth or use his methodology to examine the pressing issues of our time Read together they provide a road map of Tilly's work and his contribution to the fields of sociology political science history and international studies This book belongs in the classroom and in the library of social scientists political analysts cultural critics and activists

The Politics of Collective Violence in America, 1863-1963 George David Garson, 1969

Genocide, Collective Violence, and Popular Memory David E. Lorey, William H. Beezley, 2002 Highlights the importance of history in general emphasizing the importance of symbols ritual language and the use of public spaces in coming to terms with episodes of collective violence and achieving national reconciliation

The Rise of Modern Jewish Politics C.S. Monaco, 2013-01-25 The path toward modern Jewish politics a

process that required a dramatic reconstruction of Jewish life may have emerged during a far earlier time frame and in a different geographic and cultural context than has previously been thought. Drawing upon current sociological understanding of social movements, this book places the 1827 organized protest in London as an integral part of a transnational social movement continuum similar to the abolitionist and women's rights movements that waxed and waned throughout the 19th century. From its early origins in London in 1827 to Montefiore's gallant style of leadership in the Middle East to the rise of the Mourning March and street processions of the early twentieth century and then on to the civil disobedience of the 1980s, the movement evolved, shifted its contentious center from England to the United States and adapted to a dramatically altered post-Holocaust environment. This multifaceted and often fractious campaign was never monolithic by nature and was often rife with internal disputes. It ran the gamut between stirring accomplishments and mobilizations that fell far short of expectations. Any attempt to view the lengthy series of international protests as a steady progression of liberality and advancement would be at odds with a far more ambiguous reality. *The Rise of Modern Jewish Politics* argues that the numerous protest insurgences strengthened Jewish participation in the public sphere and further defined a public political culture. While the movement certainly evolved through the decades, the core values that first arose in London were retained during the course of several contentious cycles that later surfaced both in Britain and the United States. This book utilizes an innovative interpretive framework to formulate a new paradigm of how Jews entered the modern world. The struggle for Jewish rights remains one of the most enduring social movements in modern history.

The SAGE Handbook of Comparative Politics Todd Landman, Neil Robinson, 2009-06-16 The SAGE Handbook of Comparative Politics presents in one volume an authoritative overview of the theoretical, methodological, and substantive elements of comparative political science. The 28 specially commissioned chapters written by renowned comparative scholars guide the reader through the central issues and debates, presenting a state-of-the-art guide to the past, present, and possible futures of the field.

Police Power and Race Riots Cathy Lisa Schneider, 2014-07-07 Three weeks after Lyndon Johnson signed the Civil Rights Act of 1964, a New York City police officer shot and killed a fifteen-year-old black youth, inciting the first of almost a decade of black and Latino riots throughout the United States. In October 2005, French police chased three black and Arab teenagers into an electrical substation outside Paris, culminating in the fatal electrocution of two of them. Fires blazed in Parisian suburbs and housing projects throughout France for three consecutive weeks. Cathy Lisa Schneider explores the political, legal, and economic conditions that led to violent confrontations in neighborhoods on opposite sides of the Atlantic, half a century apart. *Police Power and Race Riots* traces the history of urban upheaval in New York and greater Paris, focusing on the interaction between police and minority youth. Schneider shows that riots erupted when elites activated racial boundaries, police engaged in racialized violence, and racial minorities lacked alternative avenues of redress. She also demonstrates how local activists who cut their teeth on the American race riots painstakingly constructed social movement organizations with standard

nonviolent repertoires for dealing with police violence These efforts along with the opening of access to courts of law for ethnic and racial minorities have made riots a far less common response to police violence in the United States today Rich in historical and ethnographic detail *Police Power and Race Riots* offers a compelling account of the processes that fan the flames of urban unrest and the dynamics that subsequently quell the fires

Violent Protest, Contentious Politics, and the Neoliberal State Seraphim Seferiades, 2016-02-11 This volume of cutting edge research comparatively analyzes violent protest and rioting furthering our understanding of this increasingly prevalent form of claim making Hank Johnston and Seraphim Seferiades bring together internationally recognized experts in the field of protest studies and contentious politics to analyze the causes and trajectories of violence as a protest tactic Crossnational comparisons from North America Britain France Germany Greece Iran Thailand and elsewhere contribute to the volume s theoretical elaboration while several case studies add depth to the discussion This title will be of key importance to scholars across the social sciences including sociology political science geography and criminology Johnston and Seferiades s exciting book is a significant contribution to the study of rioting and violent protest in the contemporary neoliberal state

Politics of Democratic Breakdown Gangsheng Bao, 2022-05-30 Democratic breakdown as a political and historic event can impact the fate of millions if not hundreds of millions of people by changing the political complexion of a country This book attempts to systematically explain why democracies collapse The author s main theoretical argument is based on the examination of two factors One is political cleavages among voters These can cause serious political conflicts and may lead to fierce political confrontation and major upheaval at the society level The other revolves around the types of political and institutional arrangements under democratic regimes Centrifugal democratic regimes are likely to weaken government capacity or state capacity rendering governments incapable of effectively resolving political conflicts and when these two factors come together political conflicts are less likely to be controlled effectively These situations can evolve into serious political crises and eventually lead to the collapse of democratic regimes The empirical research of this book is based on a comparative historical analysis of Germany Nigeria Chile and India Examining democratic collapses from both theoretical and empirical perspectives this book will be of interest to those engaged in the study of democracy Political Science Comparative Politics and Political Theory

The Rebel's Dilemma Mark Irving Lichbach, 1998 The author brings significant new insights to the study of dissent rebellion and revolution

The Materiality of Politics: The technologies of rule Raṇabīra Samāddāra, 2007 The Materiality of Politics uses a series of historical illustrations to reveal the physicality and underlying materiality of political processes Volume 1 subtitled *The Technologies of Rule* discusses the techniques of modern rule which form the basis of the post colonial Indian state Beginning with the rule of law the volume analyses the nature and manifestations of constitutional rule the relation between law and terror and the construction of extraordinary sovereign power The author also investigates the methods of care protection segregation and stabilization by which rule proceeds In the processes the material core of the cultural and the

aesthetic is exposed **Handbook of Politics** Kevin T. Leicht,J. Craig Jenkins,2009-11-28 Political sociology is the interdisciplinary study of power and the intersection of personality society and politics The field also examines how the political process is affected by major social trends as well as exploring how social policies are altered by various social forces Political sociologists increasingly use a wide variety of relatively new quantitative and qualitative methodologies and incorporate theories and research from other social science cognate disciplines The contributors focus on the current controversies and disagreements surrounding the use of different methodologies for the study of politics and society and discussions of specific applications found in the widely scattered literature where substantive research in the field is published This approach will solidly place the handbook in a market niche that is not occupied by the current volumes while also covering many of the same theoretical and historical developments that the other volumes cover The purpose of this handbook is to summarize state of the art theory research and methods used in the study of politics and society This area of research encompasses a wide variety of perspectives and methods that span social science disciplines The handbook is designed to reflect that diversity in content method and focus In addition it will cover developments in the developed and underdeveloped worlds **Proletarians and Politics** Richard J. Evans,1990 This book as a history of the German labor movement offers a critique of the traditional emphasis on organization and ideology both through a survey of the literature and a presentation of new evidence including a study of working class opinion on a wide range of political and social issues based on reports compiled by police spies in the pubs and bars of Hamburg between 1892 and 1914 **The Materiality of Politics: Volume 1** Ranabir Samaddar,2007-08-01 The Materiality of Politics uses a series of historical illustrations to reveal the physicality and underlying materiality of political processes Volume 1 subtitled The Technologies of Rule discusses the techniques of modern rule which form the basis of the post colonial Indian state Beginning with the rule of law the volume analyses the nature and manifestations of constitutional rule the relation between law and terror and the construction of extraordinary sovereign power The author also investigates the methods of care protection segregation and stabilization by which rule proceeds In the processes the material core of the cultural and the aesthetic is exposed **The Oxford Handbook of Urban Politics** Karen Mossberger,Susan E. Clarke,Peter John,2015-02-15 The Oxford Handbook of Urban Politics is an authoritative volume on an established subject in political science and the academy more generally urban politics and urban studies The editors are all recognized experts and are well connected to the leading scholars in urban politics The handbook covers the major themes that animate the subfield the politics of space and place power and governance urban policy urban social organization citizenship and democratic governance representation and institutions approaches and methodology and the future of urban politics Given the caliber of the editors and proposed contributors the volume sets the intellectual agenda for years to come **Vigilante Politics** H. Jon Rosenbaum,Peter C. Sederberg,2016-11-11 Vigilante politics is an organized effort outside legitimate channels to suppress or eradicate any threats to the status quo

Simply defined it means deliberately taking the law into one's own hands. The history of the United States is filled with many examples of establishment violence. This form of violence was evident when ranchers lynched the cattle rustler and when the early Ku Klux Klan terrorized African Americans back into their proper position. It is also apparent when urban community groups execute drug pushers and when political parties resort to breaking and entering, electronic surveillance, sabotage, and seduction. Establishment violence is a global phenomenon and not restricted to the United States. In Brazil, the *Esquadra da Morte* (Death Squad) executes individuals suspected of being habitual criminals. The Protestant B-Specials in Northern Ireland abused Catholics. Strong anti-Chinese feelings spawned vigilante groups in Southeast Asia. Other vigilante bands have included the Society of Muslim Brothers in Egypt, the White Hand of Guatemala, the Jewish Defense League, and the Nazi Brown Shirts. Every society that is holding together contains groups that value their place in the system even if it is modest and prefer things as they are. If they believe that criminals are escaping punishment because of corruption or leniency or that people who seek a change in social status and approved values are regaining power or that the legitimate authorities are unable or unwilling to preserve the present order, they frequently take violent action to defend their position. These are the vigilantes, and this book considers their brand of establishment violence in the widest sense. Their goals, tactics, personalities, and place in a country's general political configuration are thoroughly analyzed by the historians, political scientists, sociologists, and psychologists who have contributed to this volume. Part I is devoted to theory and offers a typology of vigilantism. Part II covers vigilante episodes in the United States. Part III places vigilantism in a comparative perspective with examples from Asia, Africa, and Europe.

Politics and Internal Security Amit Prakash, 2005. On internal security and community policing in India.

The Politics of Truth Management in Saudi Arabia Afshin Shahi, 2013-12-04. Exploring the management of truth in the Kingdom of Saudi Arabia, this book aims to investigate the ways in which the official truth is constructed and institutionalised in the country. The Politics of Truth Management in Saudi Arabia argues that there are two interrelated notions which articulate the ways in which truth is conceptualised in Islam. One, at the macro level, constitutes the trans-historical foundational principles of the religion: a set of engrained beliefs which establish the finality and oneness of Islam in relation to other competing narratives. The other, at a micro level, takes place internally to find truth within the truth. Unlike Islamic truth at the macro level, which is entrenched, the Islamic truth at the micro level refers to the various attempts by different agencies to claim to have found the truth within the truth. Wahhabism, which is the product of an eighteenth-century revivalist movement, is portrayed as the most authentic reading of Islam. It is seen as the *raison d'être* for the prevailing political mechanism in the country and is introduced as an example of truth management at the micro level. Arguing that truth is not born in a power vacuum and often its construction and institutionalisation signify domination in one way or another, this book will be of interest to students of Religion, Politics, and Saudi Politics more specifically.

Issues and Methods in Comparative Politics Todd Landman, 2003. Explores the importance of comparative politics, discusses different

comparative methods investigates the big issues of today and looks forward to the key challenges for comparative politics over the next century **Regarding Politics** Harry Eckstein, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992
