Latitudinarianism and Didacticism in Eighteenth-century

Literature Patrick Müller, 2009 The relationship between Latitudinarian moral theology and eighteenth century literature has been much debated among scholars However this issue can only be tackled if the exact objectives of the Latitudinarians moral theology are clearly delineated In doing so Patrick Müller unveils the intricate connection between the didactic bias of Latitudinarianism and the resurgent interest in didactic literary genres in the first half of the eighteenth century His study sheds new light on the complex and contradictory reception of the Latitudinarians controversial theses in the work of three of the major eighteenth century novelists Henry Fielding Laurence Sterne and Oliver Goldsmith

Utopian Imagination and Eighteenth Century Fiction Christine Rees, 2014-09-19 Utopian fiction was a particularly rich and important genre during the eighteenth century It was during this period that a relatively new phenomenon appeared the merging of utopian writing per se with other fictional genres such as the increasingly dominant novel However while early modern and nineteenth and twentieth century utopias have been the focus of much attention the eighteenth century has largely been neglected Utopian Imagination and Eighteenth Century Fiction combines these major areas of interest interpreting some of the most fascinating and innovative fictions of the period and locating them in a continuing tradition of utopian writing which stretches back through the Renaissance to the Ancient World Beginning with a survey of the recurrent topics in utopian writing power structures in the state money food sex the role of women birth education and death the book brings together canonical eighteenth century texts containing powerful utopian elements such as Robinson Crusoe Gulliver's Travels and Rasselas and less familiar works to examine the reworking of these topics in a new context The unfamiliar texts including Gaudetio di Lucca are described in detail to give students an idea of relevant material across a broad area A section is devoted specifically to women writes an area which has become the focus of attention The mixture of texts provides a useful cross reference for students tackling the subject from various perspectives and the comprehensive bibliography provides a valuable tool for those with general or specific interests

Common Sense in Early 18th-Century British Literature and Culture Christoph Henke, 2014-10-14 While the popular talk of English common sense in the eighteenth century might seem a by product of familiar Enlightenment discourses of rationalism and empiricism this book argues that terms such as common sense or good sense are not simply synonyms of applied reason On the contrary the discourse of common sense is shaped by a defensive impulse against the totalizing intellectual regimes of the Enlightenment and the cultural climate of change they promote in order to contain the unbounded discursive proliferation of modern learning Hence common sense discourse has a vital regulatory function in cultural negotiations of political and intellectual change in eighteenth century Britain against the backdrop of patriotic national self concepts This study discusses early eighteenth century common sense in four broad complexes as to its discursive functions that are ethical which at that time implies aesthetic as well transgressive as a

corrective political in patriotic constructs of the nation and repressive of otherness The selection of texts in this study strikes a balance between dominant literary culture Swift Pope Defoe Fielding Johnson and the periphery such as pamphlets and magazine essays satiric poems and patriotic songs The Rhetoric of Sensibility in Eighteenth-Century Culture Paul Goring,2004-12-23 The Rhetoric of Sensibility in Eighteenth Century Culture explores the burgeoning eighteenth century fascination with the human body as an eloquent expressive object This wide ranging study examines the role of the body within a number of cultural arenas particularly oratory the theatre and the novel and charts the efforts of projectors and reformers who sought to exploit the textual potential of the body for the public assertion of modern politeness Paul Goring shows how diverse writers and performers including David Garrick James Fordyce Samuel Richardson Sarah Fielding and Laurence Sterne were involved in the construction of new ideals of physical eloquence bourgeois sentimental ideals which stood in contrast to more patrician classical bodily modes Through innovative readings of fiction and contemporary manuals on acting and public speaking Goring reveals the ways in which the human body was treated as an instrument for the display of sensibility and polite values Eighteenth-Century Novel and Contemporary Social Issues Stuart Sim,2008-04-15 This study introduces readers to the eighteenth century novel through a consideration of contemporary social issues Eighteenth century authors grappled with very similar problems to the ones we face today such as what motivates a fundamentalist terrorist What are the justifiable limits of state power What dangers lie in wait for us when we create life artificially The book discusses key authors from Aphra Behn in the late seventeenth century to James Hogg in the 1820s covering the long eighteenth century It guides readers through the main genres of the period from Realism Gothic romance and historical romance to proto science fiction It also introduces a range of debates around race relations anti social behaviour family values and born again theology as well as the power of the media surveillance political sovereignty and fundamentalist terrorism Each novel is shown to be directly relevant to some of the most urgent moral issues of our own time *Energy and Order in the Poetry of Swift* A. B. England,1980 This study focuses on a pattern of stylistic tendencies in Swift s poetry The tendencies are essentially of two contrasting types energy and order The author discusses how Swift s poetry departs from certain orderly forms of discourse that have traditionally been associated with Augustan literature **The Practice of Satire in England, 1658-1770** Ashley Marshall,2013-06-28 An exhaustive study of satire in the long eighteenth century Outstanding Academic Title Choice In The Practice of Satire in England 1658 1770 Ashley Marshall explores how satire was conceived and understood by writers and readers of the period Her account is based on a reading of some 3 000 works ranging from one page squibs to novels The objective is not to recuperate particular minor works but to recover the satiric milieu to resituate the masterpieces amid the hundreds of other works alongside which they were originally written and read The long eighteenth century is generally hailed as the great age of satire and as such it has received much critical attention However scholars have focused almost exclusively on a small number of canonical works such as Gulliver s Travels and The

Dunciad and have not looked for continuity over time Marshall revises the standard account of eighteenth century satire revealing it to be messy confused and discontinuous exhibiting radical and rapid changes over time The true history of satire in its great age is not a history at all Rather it is a collection of episodic little histories Irony and Earnestness in Eighteenth-Century Literature Shane Herron,2022-01-27 Shane Herron demonstrates how eighteenth century irony was used not only in derision but also to clarify and sharpen emotional investments ACROSS BORDERS AND TIME: JONATHAN SWIFT Csaba Maczelka,David Clare,Andrew C. Rouse,Gabriella Hartvig,2022-12-16 The volume Across Borders and Time Jonathan Swift contains the papers delivered at the conference The World of Swift Swift and his World which was dedicated to the 350th anniversary of the birth of Jonathan Swift The conference was held on 24 25 November 2017 at the House of Arts and Literature P cs and jointly organised by the Institute of English Studies of P cs University and SPECHEL the latter of which is also the publisher of this volume in its series SPECHEL e ditions It also benefited from the support provided by the Irish Embassy in Budapest That year also marked the 650th anniversary of Hungary s first university founded in P cs in 1367 and so the conference honoured that event too In this the fifth SPECHEL e dition series editor Rouse joins up once again with SPECHEL member Gabriella Hartvig an internationally respected scholar of the period and colleague at P cs University together with Irish Swiftian scholar David Clare The volume comprises a selection of essays emanating from papers delivered at the conference celebrating the 350th anniversary of the Anglo Irish writer Jonathan Swift held in the anniversary year of 2017 and includes a paper delivered by the Irish Ambassador to Hungary that opened the conference We are grateful to the Irish Embassy for their financial support as well as to a number of local businesses and the Mayor s Office of P cs The conference was organised by SPECHEL as part of the British and Irish Autumn 2017 series of events and included a recital of the music of the Irish harper Turlough O Carolan 1670 1738
