Hopkins,2024-09-05 Over the past several decades American society has experienced fundamental changes from shifting relations between social groups and evolving language and behavior norms to the increasing value of a college degree These transformations have polarized the nation s political climate and ignited a perpetual culture war In a sequel to their award winning collaboration *Asymmetric Politics* Grossmann and Hopkins draw on an extensive variety of evidence to explore how these changes have affected both major parties They show that the Democrats have become the home of highly educated citizens with progressive social views who prefer credentialed experts to make policy decisions while Republicans have become the populist champions of white voters without college degrees who increasingly distrust teachers scientists journalists universities non profit organizations and even corporations The result of this new diploma divide between the parties is an increasingly complex world in which everything is about politics and politics is about everything
