R D Management Systems In Japanese Industry:

R & D Management Systems in Japanese Industry Hajime Etō, Konomu Matsui, 1984 Interest in Japanese innovations leads to an interest in R D management systems and strategies in Japanese industry Since Japanese management and Japanese innovations differ from those of the West the R D management systems and strategies formation process may well be different in Japan than in the West Recognizing this difference will surely contribute to the methodological progress in the related disciplines and interdisciplinary approaches

Management of Software Engineering Innovation in Japan Yasuo Kadono, 2015-10-14 This book assesses the achievements of the software engineering discipline as represented by IT vendors in Japan in order to deepen understanding of the mechanisms of how software engineering capabilities relate to IT vendors business performance and business environment from the perspective of innovation and engineering management Based on the concepts of service science and science for society the volume suggests how to improve the sophistication of services between the demand side i e IT user companies and the supply side i e IT vendors simultaneously The author and his colleagues developed a structural model including innovational paths such as service innovation product innovation and process innovation and a measurement model including the seven software engineering capabilities deliverables project management quality assurance process improvement research and development human resource development and customer contact Then they designed research on software engineering excellence and administered it with the Japanese Ministry of Economy Trade and Industry and Information Technology Promotion Agency Through statistical analyses of the results they found that human resource development and R D are significant fundamental conditions to improve the quality of the deliverables and that IT firms with high levels of deliverables derived from high levels of human resource development quality assurance project management and process improvement tend to sustain high profitability In addition they developed a measurement model based on Porter s five forces and Barney s resource based view A regression tree analysis suggested that manufacturer spin off vendors tend to expand business with well resourced R D whereas user spin off vendors tend to depend heavily on parent company demand

The Road to Quality Control Nicholas Fisher, Yutaka Tanaka, William Woodall, 2019-03-11 Professor Woodall s essay shows that this book represents a remarkable contribution even by today s standards because of its contemporary thinking about the relationship between the specific topic of SQC and the broader company context of Quality Management It also demonstrates the remarkable awareness of at least some young US engineers in the post war period about the vital role of Statistical Quality Control in establishing and maintaining a competitive position The book reveals that there was unsuspected knowledge extant immediately post war about the importance of Statistical Quality Control when appropriately applied in an industrial setting It also helps to correct wide spread historical misconceptions about who specifically was responsible for helping Japanese industry get back on its feet post war a task assigned to General Douglas Macarthur by President Truman and how Macarthur was indebted to Sarasohn

Telematics and Transport Behaviour Peter Nijkamp, Gerard Pepping, David Banister, 2012-12-06 A major strategy to reduce transport congestion and other social costs of transport is to ensure that travellers make the best decisions based on real time information A wide range of technological systems have been developed to provide this information but little is known about how travellers actually respond to it This book offers an overview of various transport telematics options and provides an appropriate methodological framework followed by a presentation of results from actual applications of these telematics systems from a range of European countries in various transport sectors The empirical results are supplemented by analytical models and geographic information systems representations with a view on generalizing these findings and identifying the key parameters which determine user response

Lorell,1996-01-01 During World War II Japanese fighters such as the famed Zero were among the most respected and feared combat aircraft in the world But for decades following the defeat of Japan in 1945 a variety of political and economic factors prevented Japan from developing its own modern national fighter This changed in the 1980s Japan began independently developing its first world class fighter since World War II After several years of contentious negotiations the Japanese agreed to work with the United States to cooperatively develop a minimally modified F 16 the FS X The new fighter however has evolved into a world class aircraft developed largely by Japanese industry primarily due to errors committed by the U S side By the fall of 1995 fifty years after the end of World War II the Zero for the 1990s will have made its first flight catapulting Japan into the elite ranks of nations capable of developing the most advanced weapon systems In *Troubled Partnership* Mark Lorell traces the evolution of the FS X disclosing the conflicting economic and security objectives advanced by U S officials the flawed U S policy of technology reciprocity and the challenges of international collaboration Its deep intimacy with the interplay of policy and economy will make this volume of intense interest to political scientists military studies specialists historians and government officials **Impossible to**

Possible R.C. Bhargava,2024-01-18 IN 1981 A COMPANY WAS formed that quite unbelievably led to the creation of a modern car industry in India The company was Maruti and its experiences have relevance far beyond the car industry extending to the entire manufacturing segment Its success is all the more remarkable as Maruti started out as a public sector company but with a Japanese partner an almost certain recipe for failure given the cumbersome bureaucratic procedures and socialistic ideology that were prevalent Moreover the component industry needed to support its ambitious plans 100 000 cars annually was fragmented and technologically obsolete Today India has become the third largest automotive market in the world and a major exporter of cars Maruti itself ranks among the biggest manufacturers and is set to double its capacity to 4 million cars by 2030 As R C Bhargava who has been with the company from its inception emphasises Maruti s learnings apply not just to one industry but more crucially to India s growth aspirations Manufacturing is the cornerstone of these making Impossible to Possible one of the most important books to come out on the subject of management and development
