Coles, 2016 The second edition of *Race and Family* maintains the book's distinctive feature its structural lens while featuring new material throughout *Race and Family* focuses on demographic economic and historical legal factors that impact all families though often disparately The text also includes separate chapters focusing on the histories and diversity within each major racial ethnic group

*No More Kin* Anne R. Roschelle, 1997-04-17 Black and Latino families are in fact highly family oriented and want to be involved in exchange networks but because they are economically disenfranchised they are prevented from participation The vitriolic debate on welfare reform currently sweeping the nation assumes that if institutional mechanisms of social support are eliminated impoverished families will simply rely on an extensive web of kinship networks for their survival The political discourse surrounding poverty and welfare reform has an increasingly racial undertone Implementation of social policy that presupposes the availability of family safety nets in minority communities could have disastrous consequences for many without extended kin networks Many scholars and political analysts assume that thriving kin and non kin social support networks continue to characterize minority family life Policy recommendations based on these underlying assumptions may lead to the implementation of harmful social policy *No More Kin* examines extended kinship networks among African American Chicano Puerto Rican and non Hispanic white families in contemporary America and seeks to provide an integrated theoretical framework for examining how the simultaneity of gender race and class oppression affects minority family organization Breaking new ground in a variety of fields *No More Kin* is sure to become a valuable resource for students and professionals in family studies gender studies and race ethnic studies

*Unequal Childhoods* Annette Lareau, 2003-09-11 Class does make a difference in the lives and futures of American children Drawing on in depth observations of black and white middle class working class and poor families *Unequal Childhoods* explores this fact offering a picture of childhood today Here are the frenetic families managing their children's hectic schedules of leisure activities and here are families with plenty of time but little economic security Lareau shows how middle class parents whether black or white engage in a process of concerted cultivation designed to draw out children's talents and skills while working class and poor families rely on the accomplishment of natural growth in which a child's development unfolds spontaneously as long as basic comfort food and shelter are provided Each of these approaches to childrearing brings its own benefits and its own drawbacks In identifying and analyzing differences between the two Lareau demonstrates the power and limits of social class in shaping the lives of America's children The first edition of *Unequal Childhoods* was an instant classic portraying in riveting detail the unexpected ways in which social class influences parenting in white and African American families A decade later Annette Lareau has revisited the same families and interviewed the original subjects to examine the impact of social class in the transition to adulthood

Queering Family Trees Sandra Patton-Imani,2020-06-09 Argues that significant barriers to family making exist for lesbian mothers of color in the United States One might be tempted in the afterglow of Obergefell v Hodges to believe that the battle has been won that gays and lesbians fought a tough fight and finally achieved equality in the United States through access to legal marriage But that narrative tells only one version of a very complex story about family and citizenship Queering Family Trees explores the lived experience of queer mothers in the United States drawing on over one hundred interviews with African American Latina Native American white and Asian American lesbian mothers living in a range of socioeconomic circumstances to show how they have navigated family making While the legalization of same sex marriage and adoption in 2015 has provided avenues toward equality for some couples structural and economic barriers have meant that others especially queer women of color who often have fewer financial resources have not been able to access seemingly available choices such as second parent adoptions powers of attorney and wills Sandra Patton Imani here argues that the virtual exclusion of lesbians of color from public narratives about LGBTQ families is crucial to maintaining the narrative that legal marriage for same sex couples provides access to full equality as citizens Through the lens of reproductive justice Patton Imani argues that the federal legalization of same sex marriage reinforces existing structures of inequality grounded in race gender sexuality and class Queering Family Trees explores the lives of a critically erased segment of the queer population demonstrating that the seemingly color blind solutions offered by marriage equality do not rectify such inequalities

Kuenne,2014-07-14 America is entering a new age of economic discord warns Robert E Kuenne In addition to a panoply of other structural economic troubles the nation must now confront unprecedented demands for the kind of distributive justice that will meet the needs of the elderly handicapped and impoverished Furthermore American society faces the pressing problems of the disadvantaged with no explicit code of economic justice Claims to various kinds of government entitlements are based increasingly on appeals to economic justice but no real national agreement exists on what that expression means In this ambitious work Kuenne sets out to remedy this want of consensus After an extensive evaluation of earlier thinking about distributive justice Kuenne proposes a new theory dualistic individualism that is consistent with the American ethos of political and economic liberalism He then frames a formal Bill of Economic Rights and Obligations which defines proper governmental conduct in the economic terrain as the American Constitution does in the political Defending a form of governmental policy that strikes a balance between the egoistic and compassionate elements of American individualism Kuenne also considers the practical tasks of program implementation and goes on to assess the feasibility of meeting concrete redistributive goals over the next thirty years His thorough investigation of one of the country s most urgent predicaments could do much to stimulate debate over the ad hoc and unprincipled distributive policies that now prevail in
