*We, the Jury* Jeffrey B. Abramson, 2000 This magisterial book explores fascinating cases from American history to show how juries remain the heart of our system of criminal justice and an essential element of our democracy No other institution of government rivals the jury in placing power so directly in the hands of citizens Jeffrey Abramson draws upon his own background as both a lawyer and a political theorist to capture the full democratic drama that is the jury *We the Jury* is a rare work of scholarship that brings the history of the jury alive and shows the origins of many of today's dilemmas surrounding juries and justice

"Colored Men" and "Hombres Aqui" Michael A. Olivas, 2020-04-30 This collection of ten essays originally published in 2006 to commemorate the 50th anniversary of an important but almost forgotten U S Supreme court case *Hernandez v Texas* 347 US 475 1954 is now available in trade paperback for the first time Involving Mexican Americans and jury selection this major case was published just before *Brown v Board of Education* in the 1954 Supreme Court reporter This landmark case the first to be tried by Mexican American lawyers before the US Supreme Court held that Mexican Americans were a discrete group for purposes of applying Equal Protection Although the case was about discriminatory state jury selection and trial practices it has been cited for many other civil rights precedents in the intervening 50 years Even so it has not been given the prominence it deserves in part because it lives in the shadow of the more compelling *Brown v Board* case There had been earlier efforts to diversify juries reaching back at least to the trial of Gregorio Cortez in 1901 and continuing with efforts by the legendary Oscar Zeta Acosta in Los Angeles in the 1960s Even as recently as 2005 there has been clear evidence that Latino participation in the Texas jury system is still substantially unrepresentative of the growing population But in a brief and shining moment in 1954 Mexican American lawyers prevailed in a system that accorded their community no legal status and no respect Through sheer tenacity brilliance and some luck they showed that it is possible to tilt against windmills and slay the dragon Edited and with an introduction by University of Houston law scholar Michael A Olivas *Colored Men and Hombres Aqui* is the first full length book on this case This volume contains the papers presented at the *Hernandez at 50* conference that took place in 2004 at the University of Houston Law Center and also contains source materials trial briefs and a chronology of the case

*Crime and Justice* Carolyn Boyes-Watson, 2018-03-08 *Crime and Justice* offers a comprehensive introduction to the U S criminal justice system through fifteen historical and contemporary case studies The third edition has been revised and streamlined throughout featuring new material on race the war on drugs police violence stand your ground laws and gun laws and more Each chapter opens with an engaging case study followed by an explanatory chapter that teaches core concepts key terms and critical issues The cases serve multiple learning objectives illustrating concepts applied in real life exploring sociological issues of race class

Race, Crime, and the Law Randall Kennedy, 2012-02-22 An admirable courageous and meticulously fair and honest book New York Times Book Review in which one of our most important and perceptive writers on race The Washington Post takes on a highly complex issue in a way that no one has before This book should be a standard for all law students Boston Globe In this groundbreaking powerfully reasoned lucid work that is certain to provoke controversy Harvard law professor Randall Kennedy takes on a highly complex issue in a way that no one has before Kennedy uncovers the long standing failure of the justice system to protect blacks from criminals probing allegations that blacks are victimized on a widespread basis by racially discriminatory prosecutions and punishments but he also engages the debate over the wisdom and legality of using racial criteria in jury selection He analyzes the responses of the legal system to accusations that appeals to racial prejudice have rendered trials unfair and examines the idea that under certain circumstances members of one race are statistically more likely to be involved in crime than members of another

**Racial Subjects** David Theo Goldberg, 2016-02-04 Racial Subjects heralds the next wave of writing about

race and moves discussions about race forward as few other books recently have Arguing that racism is best understood as exclusionary relations of power rather than simply as hateful expressions David Theo Goldberg analyzes contemporary expressions of race and racism He engages political economy culture and everyday material life against a background analysis of profound demographic shifts and changing class formation and relations Issues covered in Racial Subjects include the history of changing racial categories over the last two hundred years of U S census taking multiculturalism the experience of being racially mixed the rise of new black public intellectuals race and the law in the wake of the O J Simpson verdict relations between blacks and Jews and affirmative action

**Death by Design** Craig Haney,2005-08-04 How can otherwise normal moral persons as citizens voters and jurors participate in a process that is designed to take the life of another In DEATH BY DESIGN research psychologist Craig Haney argues that capital punishment and particularly the sequence of events that lead to death sentencing itself is maintained through a complex and elaborate social psychological system that distances and disengages us from the true nature of the task Relying heavily on his own research and that of other social scientists Haney suggests that these social psychological forces enable persons to engage in behavior from which many of them otherwise would refrain However by facilitating death sentencing in these ways this inter related set of social psychological forces also undermines the reliability and authenticity of the process and compromises the fairness of its outcomes Because these social psychological forces are systemic in nature built into the very system of death sentencing itself Haney concludes by suggesting a number of inter locking reforms derived directly from empirical research on capital punishment that are needed to increase the fairness and reliability of the process The historic and ongoing public debate over the death penalty takes place not only in courtrooms but also in classrooms offices and living rooms This timely book offers stimulating insights into capital punishment for professionals and students working in psychology law criminology sociology and cultural area studies As capital punishment receives continued attention in the media it is also a necessary and provocative guide that empowers all readers to come to their own conclusions about the death penalty

How Does Law Matter? Bryant G. Garth,Austin Sarat,1998 The question of how law matters has long been fundamental to the law and society field Social science scholarship has repeatedly demonstrated that law matters less or differently than those who study only legal doctrine would have us believe Yet research in this field depends on a belief in the relevance of law no matter how often gaps are identified The essays in this collection show how law is relevant in both an instrumental and a constitutive sense as a tool to accomplish particular purposes and as an important force in shaping the everyday worlds in which we live Essays examine these issues by focusing on legal consciousness the body discrimination and colonialism as well as on more traditional legal concerns such as juries and criminal justice

**Ethnic Studies** Philip Q. Yang,2000-04-13 Defines the field of ethnic studies and explores its methodologies

**Handbook of Youth and Justice** Susan O. White, 2013-11-11 When approached by Plenum to put together a volume of social science research on the topic of youth and justice I found the interdisciplinary challenge of such a project intriguing Having spent 2 years as Director of the Law and Social Science Program at the National Science Foundation I was well aware of the rich diversity of research that could fit within that topic I also knew that excellent research on youth and justice was coming from different communities of researchers who often were isolated from each other in their respective disciplines as psychologists sociologists criminologists or policy analysts I saw this project as an opportunity to break down some of this isolation by introducing these researchers and their work to each other and to the broader community of social scientists interested in law and justice There was another gap or set of gaps to be bridged as well The juvenile justice system and the criminal justice system differ in significant ways and the civil justice system which is a major venue for issues of youth and justice is yet another separate world Few researchers are likely to know the whole picture For example a focus on juvenile justice often ignores the extent to which civil justice proceedings shape the lives of young people through divorce custody adoption family preservation policies and other actions and vice versa      Race in the Jury Box Hiroshi Fukurai, Richard Krooth, 2012-02-01 Race in the Jury Box focuses on the racially unrepresentative jury as one of the remaining barriers to racial equality and a recurring source of controversy in American life Because members of minority groups remain underrepresented on juries various communities have tried race conscious jury selection termed affirmative jury selection The authors argue that affirmative jury selection can insure fairness verdict legitimization and public confidence in the

justice system This book offers a critical analysis and systematic examination of possible applications of race based jury selection examining the public perception of these measures and their constitutionality The authors make use of court cases their own experiences as jury consultants and jury research as well as statistical surveys and analysis The work concludes with the presentation of four strategies for affirmative jury selection
