Race Culture And Equality:

Race, Culture, and Equality , Features Race Culture and Equality an essay written by Thomas Sowell and presented online by the Hoover Institution based at Stanford University The essay discusses the economic and social impacts of cultural differences among peoples and nations around the world **Race, Culture, and the Intellectuals, 1940-1970** Richard H. King, 2004-08-17 To study this transition from universalism to cultural particularism Richard King focuses on the arguments of major thinkers movements and traditions of thought attempting to construct a map of the ideological positions that were staked out and an intellectual history of this transition **Race, Culture, and Evolution** George W. Stocking, 1982-04-15 We have at long last a real historian with real historical skills and no intra professional ax to grind All these pieces show the virtues one finds missing in nearly all of anthropological history work but Stocking s extensive and critical use of archival sources tracing of real rather than merely plausible intellectual connections and contextualization of ideas and movements in terms of broader social and cultural currents Stocking writes very clearly attacks important topics race and evolution the influence of scientism the interaction between anthropology and other disciplines and is methodologically very sophisticated Though his main theme is the development of racialism and of opposition to it his book bears on a range of issues very much alive in anthropology I would think no apprentice anthropologist ought to be pronounced a journeyman until he or she has absorbed what Stocking has to say Clifford Geertz The Institute for Advanced Study Princeton **Race, Culture, Psychology, and Law** Kimberly Barrett, William George, 2005 In a diverse democracy law must be open to all All too often however our system of justice has failed to live up to our shared ideals because it excludes individuals and communities even as they seek to use it or find themselves caught up in it The research presented here offers hope The abstract doctrines of the law are presented through real cases Judges lawyers scholars and concerned citizens will find much in these pages documenting the need for reform along with the means for achieving our aspirations The issues presented by race ethnicity and cultural differences are obviously central to the resolution of disputes in a nation made up of people who have in common only their faith in the great experiment of the United States Constitution Here the challenges are met in an original accessible and thoughtful manner Frank H Wu Howard University and author of *Yellow Race in America Beyond Black and White* Kim Barrett and William George have taken on an enormous task which is matched only by its timeliness Cultural competence and cultural diversity pass off our lips as eternally valued ideals but Barrett and George have brought a critical and edifying eye to thee ideas Racism is similarly easy to acknowledge but difficult to account for in the everyday lives of ordinary people of color What we discover in this impressive volume is not only that race and culture matter but how they matter in the minds of people who are clients and the minds of people who attempt to serve them and in the courts of law that attempt to mete out justice *Race Culture Psychology and the Law* is essential reading for anyone with a professional or personal interest in social justice and psychological well being James M Jones Ph D Director Minority Fellowship Program

Race, Culture, and the Revolt of the Black Athlete Douglas Hartmann, 2003 Ever since 1968 a single iconic image of race in American sport has remained indelibly etched on our collective memory sprinters Tommie Smith and John Carlos accepting medals at the Mexico City Olympics with their black gloved fists raised and heads bowed But what inspired their protest What happened after they stepped down from the podium And how did their gesture impact racial inequalities Drawing on extensive archival research and newly gathered oral histories Douglas Hartmann sets out to answer these questions reconsidering this pivotal event in the history of American sport He places Smith and Carlos within the broader context of the civil rights movement and the controversial revolt of the black athlete Although the movement drew widespread criticism it also led to fundamental reforms in the organizational structure of American amateur athletics Moving from historical narrative to cultural analysis Hartmann explores what we can learn about the complex relations between race and sport in contemporary America from this episode and its aftermath

A New Deal for the Humanities Gordon Hutner,Feisal G. Mohamed,2015-11-11 Many in higher education fear that the humanities are facing a crisis But even if the rhetoric about crisis is overblown humanities departments do face increasing pressure from administrators politicians parents and students In A New Deal for the Humanities Gordon Hutner and Feisal G Mohamed bring together twelve prominent scholars who address the history the present state and the future direction of the humanities These scholars keep the focus on public higher education for it is in our state schools that the liberal arts are taught to the greatest numbers and where their neglect
