Race Hull House And The University Of Chicago A New Conscience Against Ancient Evils:

Race, Hull-House, and the University of Chicago Mary Jo Deegan, 2002-12-30 Connecting the views of the Hull House and early Chicago sociologists to issues of race and gender Deegan offers a new perspective on race relations in Chicago from 1892 until 1960 She challenges the assumption that race relations activists had to choose either to align with W E B DuBois or Booker T Washington if they studied American race relations Questioning the established accounts concerning the so called Chicago way of thinking and doing sociology at the University of Chicago she expands the role of the Chicago School of Race Relations by including more scholars more political action and more years within its compass By examining the relationship between Hull House female and African American sociologists and the early Chicago school Deegan dispels some of the common misconceptions that view Hull House especially as an elitist prejudiced and moralistic institution Chicago was a tumultuous place in 1892 immigration industrialization urbanization and corruption created an atmosphere of profound change Rising to the challenge Jane Addams and her social settlement Hull House saw hope for a new moral order and worked closely with friends and colleagues at the newly opened University of Chicago Both institutions became centers for the study of society including the peculiar nature of American race relations Here Deegan connects the views of the Hull House and early Chicago sociologists to issues of race and gender especially to the now famous accounts of the Chicago school of sociology and its subgroup the Chicago School of Race Relations This thoughtful and carefully articulated analysis sheds light on the ways in which institutions and the people associated with them helped to shape sociological thought about race relations in particular and sociology in general

adherence to norms and values of institutions as we consciously and unconsciously reject and challenge them Our everyday experiences with institutions not only shape our connections with one another they can reinforce our binding to the status quo as we struggle to produce social change Institutions can help us do human rights Institutions that bridge nation states can offer resources including norms to advance human rights These institutions can serve as touch stones to changing minds and confronting human rights violations Institutions can also prevent us from doing human rights We create institutions but institutions can be difficult to change Institutions can weaken if not outright prevent human rights establishment and implementation To release human rights from their institutional bindings sociologists must solve riddles of how institutions work and determine social life This book is a step forward in identifying means by which we can loosen human rights from institutional constraints

Movements for Human Rights David L. Brunsma, Keri Iyall Smith, Brian Gran, 2016-09-07 How do people work together to advance human rights Do people form groups to prevent human rights from being enforced Why In what ways do circumstances matter to the work of individuals collectively working to shape human rights practices Human society is made of individuals within contexts tectonic plates not of the earth's crust but of groups and individuals who scrape and shift as we bump along competing for scarce resources and getting along These movements large and small are the products of actions individuals take in communities within families and legal structures These individuals are able to live longer yet continue to remain vulnerable to dangers arising from the environment substances struggles for power and a failure to understand that in most ways we are the same as our neighbors Yet it is because we live together in layers of diverse communities that we want our ability to speak to be unhindered by others use spirituality to help us understand ourselves and others possess a space and objects that are ours alone and join with groups that share our values and interests including circumstances where we do not know who our fellow neighbor is For this reason sociologists have identified the importance of movements and change in human societies When we collaborate in groups individuals can change the contours of their daily lives Within this book you will find the building blocks for human rights in our communities To understand why sometimes we enjoy human rights and other times we experience vulnerability and risk sociologists seek to understand the individual within her context Bringing together prominent sociologists to grapple with these questions *Movements for Human Rights Locally and Globally* offers insights into the ways that people move for and against human rights

The Anthem Companion to Robert Park Peter Kivisto, 2017-06-01 The Anthem Companion to Robert Park comes to terms with Robert Park's legacy This companion focuses largely on the work rather than the man a major figure in American sociology during the first half of the past century and encourages readers to consider the virtue of rethinking and rereading the much maligned and frequently misunderstood Park Despite the fact that he wrote with exemplary clarity Park's work has often been ignored by contemporary sociologists The contributions in this companion embrace no singular response to Park but rather present a broad range of responses generally appreciative but also critical
