Race, Liberalism, and Economics David Colander, Robert E. Prasch, Falguni A. Sheth, 2006-11-27 Explores how economic reasoning relates to the broader concepts of liberalism and racism Race, Liberalism, and Economics David Colander, Robert E. Prasch, Falguni A. Sheth, 2009-12-14 Explores how economic reasoning relates to the broader concepts of liberalism and racism Economics Versus Human Rights Manuel Couret Branco, 2008-12-03 In this book Manuel Branco demonstrates that economics is intrinsically opposed to the promotion of human rights in other words it is uncovering economic interests behind the persistent denial of human rights especially economic social and cultural rights

Economics, Bureaucracy, and Race Judith Russell, 2004 This is a hard hitting analysis of the war on poverty in the United States The book focuses on the genesis of the Economic Opportunity Act in the 1960s which constituted the core of the antipoverty crusade of President Kennedy and President Johnson Within, Against, and Beyond Liberalism David Blaney, Naeem Inavatullah, 2021-06-24 This book provides a generous immanent description of liberalism but also works against and looks beyond it It engages liberalism and its variants in IPE at a moment in time when liberalism and liberal internationalism are experiencing something of a crisis of confidence Though we are deeply critical of liberalism especially the variant that dominates in IPE we picture liberalism as variegated and rife with doubt and tensions that potentially open it to traditions of thinking beyond itself We also show how these tensions and doubts often prompt attempts at closure in the form of defensive maneuvers like Eurocentric conceptions of development that justify Western dominance and the condemnation of scholarship that exposes relations of domination and subordination as violating the precepts of unit level positive science But recognizing these maneuvers as defensive reactions may help us grasp the moments of greater openness within liberalism that connect to traditions that think against and beyond its central tenets Identity, Invention, and the **Culture of Personalized Medicine Patenting** Shubha Ghosh, 2012-09-10 This book provides an overview of developments in personalized medicine patenting and explores its normative implications to suggest policies to best regulate it and the Making of American Liberalism Carol A. Horton, 2005-09-08 Race and the Making of American Liberalism traces the roots of the contemporary crisis of progressive liberalism deep into the nation s racial past Horton argues that the contemporary conservative claim that the American liberal tradition has been rooted in a color blind conception of individual rights is innaccurate and misleading In contrast American liberalism has alternatively served both to support and oppose racial hierarchy as well as socioeconomic inequality more broadly Racial politics in the United States have repeatedly made it exceedingly difficult to establish powerful constituencies that understand socioeconomic equity as vital to American democracy and aspire to limit gross disparities of wealth power and status Revitalizing such equalitarian conceptions of American liberalism Horton suggests will require developing new forms of racial and class identity that support rather than sabotage this fundamental political commitment The Penguin History of Economics Roger E Backhouse, 2002-01-31

The definitive guide to the history of economic thought fully revised twenty years after first publication Roger Backhouse s definitive guide takes the story of economic thinking from the ancient world to the present day with a brand new chapter on the twenty first century and updates throughout to reflect the latest scholarship Covering topics including globalisation inequality financial crises and the environment Backhouse brings his breadth of expertise and a contemporary lens to this original and insightful exploration of economics revealing how we got to where we are today Handbook of Research in the Social Foundations of Education Steven Tozer, Bernardo P. Gallegos, Annette Henry, Mary Bushnell Greiner, Paula Groves Price, 2011-07-05 This groundbreaking volume helps readers understand the history evolution and significance of this wide ranging often misunderstood and increasingly important field of study Research in the History of Economic Thought and Methodology Luca Fiorito, Scott Scheall, Carlos Eduardo Suprinyak, Rebeca Gomez Betancourt, 2024-02-09 Research in the History of Economic Thought and Methodology RHETM is a book series dedicated to an interdisciplinary approach to a broad range of topics related to the history and methodology of economics Racism Albert J. Wheeler, 2005 Of all mankinds vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature Life and Money Ute Astrid Tellmann, 2017-11-21 Life and Money uncovers the contentious history of the boundary between economy and politics in liberalism Ute Tellmann traces the shifting ontologies for defining economic necessity. She argues that our understanding of the malleability of economic relations has been displaced by colonial hierarchies of civilization and the biopolitics of the nation Bringing economics into conversation with political theory cultural economy postcolonial thought and history Tellmann gives a radically novel interpretation of scarcity and money in terms of materiality temporality and affect The book investigates the conceptual shifts regarding economic order during two moments of profound crisis in the history of liberalism In the wake of the French Revolution Thomas Robert Malthus's notion of population linked liberalism to a sense of economic necessity that stands counter to political promises of equality During the Great Depression John Maynard Keynes s writings on money proved crucial for the invention of macroeconomic theory and signaled the birth of the managed economy Both periods Tellmann shows entail a displacement of the malleability of the economic By tracing this conceptual history Life and Money opens up liberalism including our neoliberal present to a new sense of economic and political possibility

Emancipation and the remaking of the British Imperial world Catherine Hall, Nicholas Draper, Keith McClelland, 2015-11-01 Slavery and the slavery business have cast a long shadow over British history In 1833 abolition was heralded as evidence of Britain's claim to be the modern global power Yet much is still unknown about the significance of the slavery business and emancipation in the formation of modern imperial Britain This book engages with current work exploring the importance of slavery and slave ownership in the remaking of the British imperial world after abolition in 1833

The contributors to this collection drawn from Britain the Caribbean and Mauritius include some of the most distinguished writers in the field Clare Anderson Robin Blackburn Heather Cateau Mary Chamberlain Chris Evans Pat Hudson Richard Huzzey Zo Laidlaw Alison Light Anita Rupprecht Verene A Shepherd Andrea Stuart and Vijaya Teelock The impact of slavery and slave ownership is once again becoming a major area of historical and contemporary concern this book makes a vital contribution to the subject Racial Realignment Eric Schickler, 2016-04-26 Few transformations in American politics have been as important as the integration of African Americans into the Democratic Party and the Republican embrace of racial policy conservatism The story of this partisan realignment on race is often told as one in which political elites such as Lyndon Johnson and Barry Goldwater set in motion a dramatic and sudden reshuffling of party positioning on racial issues during the 1960s Racial Realignment instead argues that top party leaders were actually among the last to move and that their choices were dictated by changes that had already occurred beneath them Drawing upon rich data sources and original historical research Eric Schickler shows that the two parties transformation on civil rights took place gradually over decades Schickler reveals that Democratic partisanship economic liberalism and support for civil rights had crystallized in public opinion state parties and Congress by the mid 1940s This trend was propelled forward by the incorporation of African Americans and the pro civil rights Congress of Industrial Organizations into the Democratic coalition Meanwhile Republican partisanship became aligned with economic and racial conservatism Scrambling to maintain existing power bases national party elites refused to acknowledge these changes for as long as they could but the civil rights movement finally forced them to choose where their respective parties would stand Presenting original ideas about political change Racial Realignment sheds new light on twentieth and twenty first century racial politics The Democratic Faith Paul M. Sniderman, 2017-01-01 Can the citizens of a democracy be trusted to run it properly Modern political science has concentrated on cataloguing voters failings their lack of knowledge tolerance or consistency in political thinking While it would be a mistake to think this portrait of citizens is simply wrong it is a deeper mistake to accept it as a satisfactory likeness In this book Paul Sniderman demonstrates that a concentration on the pathologies of citizens political thinking has obscured the intense clash of opposing belief systems in the electorate He shows how a concentration on racism has distorted understanding of the politics of race by keeping out of sight those who think well of black Americans And he exposes the fallacy of spotlighting the dangers of Southern Liberal Journalists and the Issue of Race, 1920-1944 John T. mass politics while ignoring those of elite politics Kneebone, 2018-06-15 Before the Civil Rights movement southern liberal journalists played a crucial role in shaping southern thought on race and racism John Kneebone presents a richly detailed intellectual history of southern racial liberalism between World War I and World War II by examining the works of five leading southern journalists Gerald W Johnson Baltimore Evening Sun George Fort Milton Chattanooga News Virginius Dabney Richmond Times Dispatch Hodding Carter Greenville Miss Delta Democrat Times and Ralph McGill Atlanta Constitution The South's leading liberal journalists came

from varied backgrounds and lived in different regions of the South but all had one characteristic in common as public advocates of southern liberalism each spoke as a southerner with deep roots in the southern past Yet their editorials were not intended solely for local audiences they wrote essays for national and regional journals of opinion as well and each of these men published important books on the South and its history Through their writings they gained reputations throughout the country as articulate spokesmen for southern liberalism Their essays editorials books and letters provide rich and abundant sources for studying the changing patterns of southern liberal thought in the critical years from the 1920s to the 1940s Moreover these journalists were members of southern liberal organizations Will W Alexander's Commission on Interracial Cooperation the Southern Commission on the Study of Lynching the Southern Policy Committee the Southern Conference for Human Welfare and the Southern Regional Council and so they helped devise the reform programs that they in turn publicized While they believed that social and economic change in the modern South required reform of race relations the journalists felt that these reforms could be accommodated within the framework of racial segregation. The protests of blacks against segregation during World War II challenged that way of thinking and created a crisis for southern liberals Kneebone analyzes this crisis and the disconnection between the southern liberalism of the 1920s and 1930s and the Civil Rights movement Originally published in 1985 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both **Reproducing the French Race** Elisa Camiscioli, 2009-09-18 In Reproducing the French historical and cultural value Race Elisa Camiscioli argues that immigration was a defining feature of early twentieth century France and she examines the political cultural and social issues implicated in public debates about immigration and national identity at the time Camiscioli demonstrates that mass immigration provided politicians jurists industrialists racial theorists feminists and others with ample opportunity to explore questions of French racial belonging France's relationship to the colonial empire and the rest of Europe and the connections between race and national anxieties regarding depopulation and degeneration She also shows that discussions of the nation and its citizenry consistently returned to the body its color and gender its expenditure of labor power its reproductive capacity and its experience of desire Of paramount importance was the question of which kinds of bodies could assimilate into the French race By focusing on telling aspects of the immigration debate Camiscioli reveals how racial hierarchies were constructed how gender figured in their creation and how only white Europeans were cast as assimilable Delving into pronatalist politics she describes how potential immigrants were ranked according to their imagined capacity to adapt to the workplace and family life in France She traces the links between racialized categories and concerns about industrial skills and output and she examines medico hygienic texts on interracial sex connecting those to the crusade against prostitution and the related campaign to abolish white slavery the alleged entrapment of white women for sale into

prostitution abroad Camiscioli also explores the debate surrounding the 1927 law that first made it possible for French women who married foreigners to keep their French nationality She concludes by linking the Third Republic s impulse to create racial hierarchies to the emergence of the Vichy regime *Contemporary Debates in the Sociology of Education* R.
