Race And Ethnic Relations In The First Person:

Race and Ethnic Relations in the First Person Michael A. Burayidi, Alfred Kisubi, 1998-01-13 This accessible challenging discussion of race relations looks at how institutions shape individual experience and asks how we can prevent a violent splintering of American society along racial lines in the 21st century Arguing that the best way to understand race relations is through the personal accounts of individuals as they go through the life cycle this highly readable book uses real life stories to illuminate how families peer groups and workplaces influence views about other racial and ethnic groups The authors hope to inspire readers to intervene and counteract negative perceptions of racial difference through their open frank discussion of the racial divide

Race, Ethnicity and Education in Globalised Times Ruth Arber, 2008-02-12 What is the speci city of contemporary racism And what happens to questions of race in a context where multiculturalism is taken for granted Few authors address these kinds of questions with subtlety For the most part questions of racism are treated either as self evident or alternatively as self evidenced The rst approach accentuated in everyday life and played out in media expos s is the tendency to treat racism as manifestly self evident We just know what racism is in principle and we just know what it looks like when we see it in practice Dualistic assumptions dominate this sense of identity relations persons are racist or they are not an act is racist or it is not However despite the obviousness of racism in contexts where different people have different seating arrangements on a bus or somebody says I am better than you because your skin colour is different this approach barely comes to terms with the depth of embodied politics and the elusiveness of structures of racism in the contemporary world

The Role of English Teaching in Modern Japan Mieko Yamada, 2014-09-25 The Role of English Teaching in Modern Japan examines the complex nature of Japan's promotion of English as a Foreign Language (EFL). In globalized societies where people with different native languages communicate through English, multicultural and multilingual interactions are widely created. This book takes the opportunity to look at Japan and examines how these multiple realities have affected its English language teaching within the domestic context. The myth of Japan's racial and ethnic homogeneity may hinder many Japanese in recognizing realities of its own minority groups such as Ainu, Zainichi Koreans, and Brazilian Japanese who are in the same EFL classrooms. Acknowledging a variety of English uses and users in Japan, this book emphasizes the influence of Japan's recent domestic diversity on its EFL curriculum and urges that such changes should be addressed. It suggests new directions for incorporating multicultural perspectives in order to develop English language education in Japan and other Asian contexts where English is often taught as a foreign language. Chapters include Social, cultural, and political background of Japan's EFL education; Race, ethnicity, and multiculturalism; Representations of diversity in Japanese EFL textbooks; Perceptions of English learning and diversity in Japan; The role of EFL education in multicultural Japan.

From Persons to People William Petersen, 2018-01-16 Problems associated with aggregation and classification are the underlying theme of this book. When data assembled from individuals are presented as group characteristics, this process has logical complications. Racial profiling and ethnic discrimination are obvious examples of the problem. Petersen's book analyzes in general how information from persons turns into statistics about specific people. The book is divided into two parts covering population and ethnicity. The first two chapters in part 1 on population statistics and the age, sex, structure are the foundations for any demographic analysis. Chapter 3 is a brief review of the interminable debate over whether the subsistence of mankind is on the point of depletion. The three following chapters are on population theory as expounded by Malthus, Marx, and Communists. Chapters 7 and 8 discuss the competition between parents and the state concerning which of the two shall decide on procreation. Chapter 9 is an account of population at the frontier using Nevada as a prototype. The last chapter in part 1 is a proposal to moderate the endless debate about abortion. The first two chapters in the second part of the book concern methods for analyzing ethnicity that are essential for a full understanding of demography: how and by whom ethnic groups are defined. The next chapter discusses some of the many subdivisions of European nations, countering the analyses of European unity with the fact that most of its regions are not themselves homogeneous. In a number of instances, American

statistical agencies have used surnames to identify nationalities with invalid results as the author shows in the next chapter Jews as a Race is an attempt to counter Nazi dogma with a rational analysis of a contentious topic The subsequent chapters compare Japanese and Chinese Americans as small but fascinating minorities and analyze the social consequences of religion from theoretical and factual viewpoints The last chapter summarizes the conclusions to be drawn from these topics

Brown, Sumit Ganguly, 1997-10-20 Efforts to contend with tensions inherent in multiethnic societies case studies of India Pakistan Sri Lanka Burma Thailand Malaysia Singapore Indonesia the Philippines China Australia New Zealand Papua New Guinea Fiji Vanuatu and the Federated States of Micronesia Ethnic conflict one of the most serious and widespread problems in the world today can undermine efforts to promote political and economic development as well as political economic and social justice It can also lead to violence and open warfare producing horrifying levels of death and destruction Although government policies on ethnic issues often have profound effects on a country the subject has been neglected by most scholars and analysts This volume analyzes different policies governments have pursued in their efforts to contend with the tensions inherent in multiethnic societies The book focuses on Asia and the Pacific the most populous and economically vibrant part of the world The heart of the book is a set of case studies of government policies in sixteen countries India Pakistan Sri Lanka Burma Thailand Malaysia Singapore Indonesia the Philippines China Australia New Zealand Papua New Guinea Fiji Vanuatu and the Federated States of Micronesia The studies consider a wide range of political economic educational linguistic and cultural policies and how these policies have evolved over time Using a broad comparative perspective to assess the effectiveness of different governmental approaches the authors offer policy recommendations that cut across individual countries and regions G.K. Hall Interdisciplinary Bibliographic Guide to Black Studies Schomburg Center for Research in Black Culture, 2003 *Ethnic Origins* Jeremy Hein, 2006-04-13 Immigration studies have increasingly focused on how immigrant adaptation to their new homelands is influenced by the social structures in the sending society particularly its economy Less scholarly research has focused on the ways that the cultural make up of immigrant homelands influences their adaptation to life in a new country In *Ethnic Origins* Jeremy Hein investigates the role of religion family and other cultural factors on immigrant incorporation into American society by comparing the experiences of two little known immigrant groups living in four different American cities not commonly regarded as immigrant gateways *Ethnic Origins* provides an in depth look at Hmong and Khmer refugees people who left Asia as a result of failed U S foreign policy in their countries These groups share low socio economic status but are vastly different in their norms values and histories Hein compares their experience in two small towns Rochester Minnesota and Eau Claire Wisconsin and in two big cities Chicago and Milwaukee and examines how each group adjusted to these different settings The two groups encountered both community hospitality and narrow minded hatred in the small towns contrasting sharply with the cold anonymity of the urban pecking order in the larger cities Hein finds that for each group

their ethnic background was more important in shaping adaptation patterns than the place in which they settled Hein shows how in both the cities and towns the Hmong s sharply drawn ethnic boundaries and minority status in their native land left them with less affinity for U S citizenship or Asian American panethnicity than the Khmer whose ethnic boundary is more porous Their differing ethnic backgrounds also influenced their reactions to prejudice and discrimination The Hmong with a strong group identity perceived greater social inequality and supported collective political action to redress wrongs more than the individualistic Khmer who tended to view personal hardship as a solitary misfortune rather than part of a larger scale injustice Examining two unique immigrant groups in communities where immigrants have not traditionally settled Ethnic Origins vividly illustrates the factors that shape immigrants response to American society and suggests a need to refine prevailing theories of immigration Hein s book is at once a novel look at a little known segment of America s melting pot and a significant contribution to research on Asian immigration to the United States A Volume in the American Sociological Association s Rose Series in Sociology
