

Visualizing America's Population By Race

The United States is a unique mosaic of cultural diversity—almost 40% of its people belong to racial or ethnic minorities.

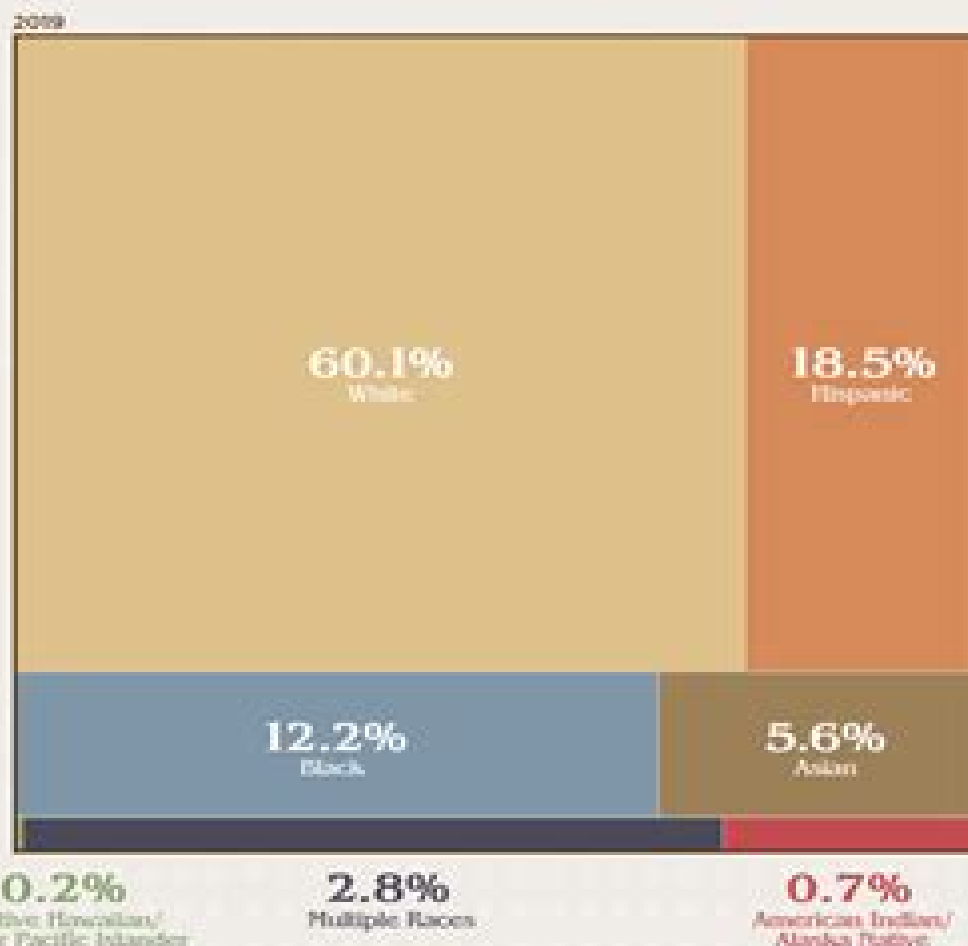

Here, we visualize the breakdown of the U.S. population in 2019, and how this will change over time.

Over time, the share of white populations is expected to decline to less than half (44%) of all Americans after 2045.

The proportion of those with multiple racial backgrounds will more than double by 2060.

Note: U.S. totals exclude Puerto Rico
