## **Race And Religion:**

**Race, Religion, and the Continuing American Dilemma** C. Eric Lincoln, 1999-05-17 A classic work on religion and the racial problems of modern America now brought up to date Since the early days of the Republic Americans exuberant unchastened idealism their commitment to the notion of a perfect society in the New World has clashed with the reality of ugly American society and religious groups have all too often accommodated themselves to these injustices In *Race Religion and the Continuing American Dilemma* C Eric Lincoln reevaluates what Gunnar Myrdal called the American dilemma and studies particularly the influence of the black church This revised edition takes into account the weakening of welfare and affirmative action and argues that the black church must serve today as a vital moral authority to lead us in to the twenty first century

**Religion and the Creation of Race and Ethnicity** Craig R. Prentiss, 2003-06 This volume meant specifically for those new to the field brings together an ensemble of prominent scholars and illuminates the role religious myths have played in shaping those social boundaries that we call races and ethnicities *God and Race in American Politics* Mark A. Noll, 2008 A critical analysis of the explosive political effects of the religious intermingling with race reveals the profound role of religion in American political history and in the American discourse on race and social justice *Race, Religion & Racism: Jesus, Christianity & Islam*

Frederick K. C. Price, 1999 A full two years before the September 11 2001 plane crashes pulverized New York's World Trade Center before Osama Bin Laden's name became a household word and before the country ever strained to sort out the issue of muslim aggression this book was on its way *How Long This Road* A. Pollard, L. Welchel, 2003-11-07 In light of the recent death of C Eric Lincoln the renowned theorist of race and religion scholars came together and created this compelling collection that represents twenty years of critical intellectual reflection in Lincoln's honor *How Long this Road* is a social study of African American religious patterns and dynamics C Eric Lincoln's principle concern with the racial factor in American social and religious life expands in these pages to include such correlative factors as gender the African Diaspora and social class *How Long this Road* is an impressive work that is bound to become a classic in religion and sociology courses church studies and African American studies **Christians and the**

**Color Line** J. Russell Hawkins, Phillip Luke Sinitiere, 2013-10-04 *Christians and the Color Line* analyzes the complex entanglement of race and religion in the United States Drawing on historical and contemporary examples of racialized religion the essays in this volume consider the problem of race both in Christian congregations and in American society as a whole Belying the notion that a post racial America has arrived congregations in the US are showing an unprecedented degree of interest in overcoming the deep racial divisions that exist within American Protestantism In one recent poll for instance nearly 70 percent of church leaders expressed a strong desire for their congregations to become racially and culturally diverse To date reality has eluded this professed desire as fewer than 10 percent of American Protestant churches have actually achieved multiracial status Employing innovative research from sociology history philosophy and religious

studies the contributors to this volume use Michael Emerson and Christian Smith's groundbreaking study *Divided by Faith* (Oxford 2000) as their starting point to acknowledge important historical, sociological, and theological causations for racial divisions in Christian communities. Collectively, however, these scholars also offer constructive steps that Christians of all races might take to overcome the color line and usher in a new era of cross-racial engagement.

**This Side of Heaven**  
 Robert J. Priest, Alvaro L. Nieves, 2006-12-07  
 In recent years, Christian scholars have become increasingly aware of their responsibility to recognize and respond to the challenges posed by ethnic and racial diversity. Similarly, historically white Christian colleges, universities, seminaries, and congregations are struggling to transform themselves into communities that are welcoming to minorities and sensitive to their needs. This collection of all new essays is meant to enable those who are engaged in these initiatives to understand the historical linkage of race, ethnicity, and Christianity and to explore the ways in which constructive change can be achieved. The volume is the product of a long-term study funded by the Wabash Center for Teaching and Learning in Theology. In the course of this study, it emerged that many Christian institutions now offer courses on race and ethnicity, but that there is very little relevant literature written from the standpoint of rigorous Christian scholarship. This book is intended to fill that gap. The authors address such questions as: What has been the history of Christian churches and leaders in relation to slavery, segregation, and apartheid? Which biblical texts and doctrines have historically been employed on behalf of racial projects, and which are relevant to the racial and ethnic crises of our day? How have religious leaders constructively engaged such crises? How do congregations shape the values, civic commitments, understandings, and sensitivities of their membership? How can local congregations be sites for racial reconciliation and justice initiatives? Are there positive models for how churches and other religious institutions have helped to bring healing to racial and ethnic tensions and divides? How might Christians in the professions work to bring justice to business, education, government, and other areas of society? When good intentions fail to accomplish desired ends, how do we analyze what went wrong? Written by an interracial and interethnic team of scholars representing diverse disciplines, this book will meet a pressing need and set a new standard for the discussion of race and ethnicity in the Christian context.

**The Oxford Handbook of Religion and Race in American History**  
 Kathryn Gin Lum, Paul Harvey, 2018-03-01  
 The Oxford Handbook of Religion and Race in American History brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview for those interested in the role of religion and race in American history. Thirty-four scholars from the fields of History, Religious Studies, Sociology, Anthropology, and more investigate the complex interdependencies of religion and race from pre-Columbian origins to the present. The volume addresses the religious experience, social realities, theologies, and sociologies of racialized groups in American religious history, as well as the ways that religious myths, institutions, and practices contributed to their racialization. Part One begins with a broad introductory survey outlining some of the major terms and explaining the intersections of race and religions in various traditions and

cultures across time Part Two provides chronologically arranged accounts of specific historical periods that follow a narrative of religion and race through four plus centuries Taken together The Oxford Handbook of Religion and Race in American History provides a reliable scholarly text and resource to summarize and guide work in this subject and to help make sense of contemporary issues and dilemmas

**Divided by Faith** Michael O. Emerson, Christian Smith, 2000 In recent years the leaders of the American evangelical movement have brought their characteristic passion to the problem of race notably in the Promise Keepers movement and in reconciliation theology But the authors of this provocative new study reveal that despite their good intentions evangelicals may actually be preserving America's racial chasm In *Divided by Faith* Michael O. Emerson and Christian Smith probe the grassroots of white evangelical America through a nationwide telephone survey of 2,000 people along with 200 face-to-face interviews The results of their research are surprising Most white evangelicals they learned see no systematic discrimination against blacks indeed they deny the existence of any ongoing racial problem in the United States Many of their subjects blamed the continuing talk of racial conflict on the media unscrupulous black leaders and the inability of African Americans to forget the past What lies behind this perception Evangelicals Emerson and Smith write are not so much actively racist as committed to a theological view of the world that makes it difficult for them to see systematic injustice The evangelical emphasis on individualism free will and personal relationships makes invisible the pervasive injustice that perpetuates inequality between the races Most racial problems they told the authors can be solved by the repentance and conversion of the sinful individuals at fault Combining a substantial body of evidence with sophisticated analysis and interpretation Emerson and Smith throw sharp light on the oldest American dilemma Despite the best intentions of evangelical leaders and some positive trends the authors conclude that real racial reconciliation remains far over the horizon

**Race, Religion, Region** Fay Botham, Sara M. Patterson, 2006-09-15 Racial and religious groups have played a key role in shaping the American West yet scholars have for the most part ignored how race and religion have influenced regional identity In this collection eleven contributors explore the intersections of race religion and region to show how they transformed the West From the Punjabi Mexican Americans of California to the European American shamans of Arizona to the Mexican Chinese of the borderlands historical meanings of race in the American West are complex and are further complicated by religious identities This book moves beyond familiar stereotypes to achieve a more nuanced understanding of race while also showing how ethnicity formed in conjunction with religious and regional identity The chapters demonstrate how religion shaped cultural encounters contributed to the construction of racial identities and served as a motivating factor in the lives of historical actors The opening chapters document how religion fostered community in Los Angeles in the first half of the twentieth century The second section examines how physical encounters such as those involving Chinese immigrants Hermanos Penitentes and Pueblo dancers shaped religious and racial encounters in the West The final essays investigate racial and religious identity among the Latter-day Saints and southern California Muslims As these contributions

clearly show race religion and region are as critical as gender sexuality and class in understanding the melting pot that is the West By depicting the West as a unique site for understanding race and religion they open a new window on how we view all of America

**Passing** Maria C. Sanchez, Linda Schlossberg, 2001-08 Ten contributions from academics in a variety of disciplines consider the social phenomenon of passing The focus is on the construction of identity and its relationship to visibility Topics include for example Jews passing as Christians and the politics of race slumming and class analysis and 20th century male impersonators and women s suffrage The volume is not indexed c Book News Inc [Rhetorics of Race and Religion on the Christian Right](#) Samuel P. Perry, 2020 As the first African American president Barack Obama faced unique challenges and obstacles when addressing issues of race While rhetorical attacks on the basis of race directed at Obama were not unexpected many of the most consistent racially motivated criticisms of Obama were associated with his religious identity The Jeremiah Wright controversy gave way to the birther and secret Muslim conspiracy theories while anxieties about Obama s identity proved particularly potent as modes of political attack in the context of the war on terror This book examines the ways in which those attacks often originated in the rhetoric of the Christian Right and the ways in which these theories circulated amongst the Christian Right Perry argues that the intersections of race and religion in American politics produced rhetoric that often caricatured Obama as un American anti Christian and an enemy of the state By exploring the arguments used to cultivate these characterizations and tracing the roots of conspiracies that worked to delegitimize Obama s religious identity through racial claims and stereotypes a clearer picture emerges of what is at stake when people can no longer separate religious convictions from political arguments

Mitchem, 2019 This book examines race religion and politics in the United States illuminating their intersections and what they reveal about power and privilege Drawing on both historic and recent examples Stephanie Mitchem introduces readers to the ways race has been constructed in the United States discusses how race and religion influence each other and assesses how they shape political influence Mitchem concludes with a chapter looking toward possibilities for increased rights and justice for all      **Race, Religion, and the 'Indian Muslim' Predicament in Singapore** Torsten Tschacher, 2017-11-10 Indian Muslims form the largest ethnic minority within Singapore's otherwise largely Malay Muslim community Despite its size and historic importance however Singaporean Indian Muslims have received little attention by scholarship and have also felt sidelined by Singapore's Malay dominated Muslim institutions Since the 1980s demands for a better representation of Indian Muslims and access to religious services have intensified while there has been a concomitant debate over who has the right to speak for Indian Muslims This book traces the negotiations and contestations over Indian Muslim difference in Singapore and examines the conditions that have given rise to these debates Despite considerable differences existing within the putative Indian Muslim community the way this community is imagined is surprisingly uniform Through discussions of the importance of ethnic difference for social and religious divisions among Singaporean Indian Muslims the role of culture and race in debates about popular religion the invocation of language and history in negotiations with the wider Malay Muslim context and the institutional setting in which contestations of Indian Muslim difference take place this book argues that these debates emerge from the structural tensions resulting from the intersection of race and religion in the public organization of Islam in Singapore      **Ethnicity, Race, Religion** Katherine M. Hockey, David G. Horrell, 2018-06-28 This book is open access and available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com) It is funded by Knowledge Unlatched Religion ethnicity and race are facets of human identity that have become increasingly contested in the study of the Bible largely due to the modern discipline of biblical studies having

developed in the context of Western Europe concurrent with the emergence of various racial and imperial ideologies. The essays in this volume address Western domination by focusing on historical facets of ethnicity and race in antiquity, the identities of Jews and Christians, and the critique of scholarly ideologies and racial assumptions which have shaped this branch of study. The contributors critique various Western European and North American contexts and bring fresh perspectives from other global contexts, providing insights into how biblical studies can escape its enmeshment in often racist notions of ethnicity, race, empire, nationhood, and religion. Covering issues ranging from translation and racial stereotyping to analysing the significance of race in Genesis and the problems of an imperialist perspective, this volume is vital not only for biblical scholars but also for those invested in Christian, Jewish, and Muslim identity.

**Gender, Race and Religion** Martin Bulmer, 2014-01-02. *Gender, Race and Religion* brings together a selection of original papers published in *Ethnic and Racial Studies* that address the intersections between gender, race, and religion in our contemporary environment. Chapters address both theoretical and empirical aspects of this phenomenon, and although written from the perspective of quite different national, social, and political situations, they are linked by a common concern to analyze the interface between gender and other situated social relationships from both a conceptual and a policy angle. These are issues that have been the subject of intense scholarly research and analysis in recent years, as well as forming part of public debates about the significance of gender, race, and religion as sites of identity formation and mobilization in our changing global environment. The substantive chapters bring together insights from both theoretical reflection and empirical research in order to investigate particular facets of these questions. *Gender, Race and Religion* addresses issues that are at the heart of contemporary scholarly debates in the field of race and ethnic studies and engages with important questions in policy and public debates. This book was originally published as a special issue of *Ethnic and Racial Studies*.

**Race, Religion and Politics** Fred Butler, 2004-02. *Have the American people departed from the path the Founding Fathers envisioned?* This history of American politics explores the influence of race and religion on the issues, the choice of candidates, and the effects on our culture.
