Class, Race, and Inequality in South Africa Jeremy Seekings, Nicoli Nattrass, 2008-10-01 The distribution of incomes in South Africa in 2004 ten years after the transition to democracy was probably more unequal than it had been under apartheid In this book Jeremy Seekings and Nicoli Nattrass explain why this is so offering a detailed and comprehensive analysis of inequality in South Africa from the midtwentieth century to the early twenty first century They show that the basis of inequality shifted in the last decades of the twentieth century from race to class Formal deracialization of public policy did not reduce the actual disadvantages experienced by the poor nor the advantages of the rich The fundamental continuity in patterns of advantage and disadvantage resulted from underlying continuities in public policy or what Seekings and Nattrass call the distributional regime The post apartheid distributional regime continues to divide South Africans into insiders and outsiders The insiders now increasingly multiracial enjoy good access to well paid skilled jobs the outsiders lack skills and employment

South African Urban Change Three Decades After Apartheid Anthony Lemon, Ronnie Donaldson, Gustav Visser, 2021-06-10 This book provides an analysis of South African urban change over the past three decades It draws on a seminal text *Homes Apart* and revisits conclusions drawn in that collection that marked the final phases of urban apartheid It highlights changes in demography social as well as economic structure and their differential spatial expression across a range of urban sites in South Africa The evidence presented in this book points to a very complex set of narratives in urban South Africa and one that cannot be reduced to a singular statement so the conclusions of the various investigations are in many ways open As urban apartheid represented one clear outcome its post apartheid urban legacies varies greatly from city to city As such this book is a great resource to students and academics focused on urban change in South African cities since the demise of apartheid and scholars of urban policy making in South Africa and Southern urbanists generally

Apartheid, 1948-1994 Saul Dubow, 2014-05-23 This new study offers a fresh interpretation of apartheid South Africa Emerging out of the author's long standing interests in the history of racial segregation and drawing on a great deal of new scholarship archival collections and personal memoirs he situates apartheid in global as well as local contexts The overall conception of Apartheid 1948 1994 is to integrate studies of resistance with the analysis of power paying attention to the importance of ideas institutions and culture Saul Dubow refamiliarises and defamiliarise apartheid so as to approach South Africa's white supremacist past from unlikely perspectives He asks not only why apartheid was defeated but how it survived so long He neither presumes the rise

of apartheid nor its demise This synoptic reinterpretation is designed to introduce students to apartheid and to generate new questions for experts in the field

The Freedom Movement's Lost Legacy Keith P. Griffler, 2023-06-06 In the century after emancipation the long shadow of slavery left African Americans well short of the freedom promised to them While sharecropping and debt peonage entrapped Black people in the South European colonialism had bred a new slavery that menaced the liberty of even more Africans A core group of Black freedom movement leaders including Ida B Wells and W E B Du Bois followed their nineteenth-century predecessors in insisting that the continuation of racial slavery anywhere put Black freedom on the line everywhere They even predicted the consequences that ignited the recent nationwide Black Lives Matter movement the rise of a prison industrial complex and the consequent erosion of African Americans' faith in the criminal justice system The Freedom Movement's Lost Legacy Black Abolitionism since Emancipation is the first historical account of the Black freedom movement's response to modern slavery in the twentieth century Keith P Griffler details how the mainstream international antislavery movement became complicit in the enslavement of Black and brown people across the world through its sponsorship of racist international antislavery law that gave the new slavery explicit legal sanction Black freedom movement activists thinkers and organizers did more than call out this breathtaking betrayal of abolitionist principles they dedicated themselves to the eradication of slavery in whatever forms it assumed on the global stage and developed an expansive vision of human freedom This timely and important work reminds us that the resurgence of today's Black freedom movements is a manifestation and continuation of the traditions and efforts of these early Black leaders and abolitionists an important chapter in the history of antislavery and the ongoing Black freedom struggle
