"Right Development" Juliana Essen, 2005-01-01 Right Development examines the Santi Asoke Buddhist Reform Movement of Thailand as a culturally and environmentally appropriate alternative to western development programs The Asoke group's aim is not a Western ideal to accumulate high levels of material comfort but a Buddhist ideal to release attachment to the material world and attain spiritual freedom Ethnographic research at one Asoke community illuminates how Asoke beliefs and practices foster development on three levels the individual community and society A closer look at a day in the life of four women provides further insight into this development This book stipulates that development must be culturally locally situated focused on livelihoods rather than economic growth environmentally sustainable and endogenously inspired implemented and maintained The intent here is not to offer a new meta strategy for global development but to underscore the need for diverse responses to the vast array of economic social and environmental dilemmas Right Development offers alternatives for sustainable development perfect for scholars of Buddhism or Thailand *Blue Kai*

Singapore's Multiculturalism Chan Heng Chee, Sharon Siddique, 2019-03-15 Since independence in 1965 Singapore has developed its own unique approach to managing the diversity of Race Religion Culture Language Nationality and Age among its citizens This approach is a consequence of many factors including its very distinct ethnic makeup compared with its neighbours its ambitions as a globally oriented city state and its small physical size Each of these factors and many others have presented Singapore society with a range of challenges and opportunities and will in all likelihood continue to do so for the foreseeable future In the writing of this book the author team set themselves the task of projecting the impact of current domestic and international social trends into the future to anticipate what Singapore society might look like by around 2040 In doing so they analyse the particular path that Singapore has taken since independence in comparison with other multicultural societies and with regard to the balance between the necessity of forging a new national identity after British rule and departure from Malaysia and the need to ensure that Singapore's ethnic minority populations remain socially enfranchised They further consider how current trends may develop over the next couple of decades what new challenges this may present to Singapore society and what might be the likely responses to such challenges In this book Singapore is a case study of a global city facing the challenges of developed world modernity in frequently acute ways

Islam in a Secular State Walid Jumblatt Abdullah,2025-10-01 The overtly secular state of Singapore has unapologetically maintained an interventionist approach to governance in the realm of religion Islam is particularly managed by the state Muslim activists thus have to meticulously navigate these realities in addition to being a minority community in order to maximize their influence in the political system Significantly Muslim activists are not a monolith there exists a multitude of political and theological differences amongst them Islam in a Secular State Muslim Activism in Singapore analyses the following categories of Muslim activists Islamic religious scholars ulama liberal Muslims and the more conservative minded individuals Due to constricting political realities many activists attempt to align themselves with the state and call upon the state to be an arbiter in their disagreements with other factions Though there are activists who challenge the state these are by far in the minority and are typically unable to assert their influence in a sustained manner The author draws upon his own experiences as a researcher and as someone who was involved in some of the discourses explored in this book *Proceedings RMRS.* ,1998
