Racialisation Of British Policing:

The Racialisation of British Policing Simon Holdaway, 1996-03-06 Drawing extensively on his own and others research Simon Holdaway argues that to understand manifestations of race within and outside the police we need to analyse processes of racialisation previously ignored by the untheoretical emphases of much of criminology Importantly he analyses how race is manifested within the organisational and cultural contexts of British policing Laced with quotations from research contemporary policy documents and other sources this is a graphic and compelling account of racialised relations within police work which will appeal to students on a very wide range of social science degrees from sociology to police studies

Policing Race and Place in Indian Country Barbara Perry, 2009-01-01 Policing Race and Place in Indian Country is the first book to explore Native Americans perspectives on the way law enforcement operates in Indian Country In particular it addresses the ways in which Native American communities especially those in and around reservations are both over and underpoliced in ways that perpetuate both the criminalization and victimization of Native Americans as nations and as individuals

Policing and the Condition of England Ian Loader, Aogán Mulcahy, 2003 Citizens it is said have lost faith in the English police Opinion polls repeatedly show that trust in and respect for the police have declined precipitously from the historically high levels achieved during the golden age of the 1950s Successive decades of rising crime political violence and urban disorder miscarriages of justice and declining effectiveness have left the police in what seems like a permanent crisis of legitimation A once revered national institution has become thoroughly profane In this major new work on the relationship between English policing and culture Ian Loader and Aogan Mulcahy reassess and revise this received sociological and popular wisdom on the fate that has befallen the English police Paying close attention to the symbolic and cultural significance of the police Loader and Mulcahy document the mix of profane and sacred sensibilities that struggle with one another to determine the contours of what they call English policing culture They draw on documentary analysis of official representations of policing and oral historical research with citizens police officers former government ministers and civil servants to show that far from being demystified policing is a cultural institution that remains deeply entangled with questions of subjectivity recognition belonging and collective identity This cultural sociology of English policing sheds new light on the social changes and conflicts that have called police authority into question in the decades since 1945 and offers an important appraisal of what is at stake in the contemporary cultural politics of policing

Police Culture in a Changing World Bethan Loftus, 2012-01-19 This fascinating new title offers an ethnographical investigation of contemporary police culture based on extensive field work across a range of ranks and units in the UK s police force By drawing on over 600 hours of direct observation of operational policing in urban and rural areas and interviews with over 60 officers the author assesses what impact three decades of social economic and political change have had on police culture She offers new understandings of the policing of ethnicity gender and sexuality and the ways in which reform initiatives are accommodated

and resisted within the police The author also explores the attempts of one force to effect cultural change both to improve the working conditions of staff and to deliver a more effective and equitable service to all groups in society Beginning with a review of the literature on police culture from 30 years ago the author goes on to outline the new social economic and political field of contemporary British policing Taking this as a starting point the remaining chapters present the main findings of the empirical research in what is a truly comprehensive analysis of present day policing culture **The New Policing** Eugene McLaughlin,2007 The New Policing provides a comprehensive introduction to the critical issues confronting policing today It incorporates an overview of traditional approaches to the study of the police with a discussion of current perspectives The book goes on to examine key themes including the core purpose of contemporary policework the reconfiguration of police culture organizational issues and dilemmas currently confronting the police the managerial reforms and professional innovations that have been implemented in recent years and the future of policing security and crime control In offering this discussion of the nature and role of the police The New Policing illustrates the need to re examine and re think the theoretical perspectives that have constituted policing studies Examining evidence from the UK the USA and other western societies the book promotes and enables an understanding of the cultural and symbolic significance of policing in society

diversity showing how it extends far beyond the confines of public police working in uniform and visible to all Brodeur considers military policing both when it complements the values of democracy and when it does not He also discusses criminal individuals acting as police informants and criminal organizations enforcing their own rules in urban zones deserted by the police Brodeur argues that the diverse strands of the policing web are united by a common definition that emphasizes the license granted to policing agencies legally or with impunity to use means otherwise forbidden to the rest of the population Employing an international and comparative approach Brodeur establishes a comprehensive model that links all the components of policing The policing web however is not a neat and well integrated structure There is not just one policing web There are several depending on the country police history and culture and the various public images of policing These often overlooked factors are essential components of the context of policing Wide ranging and authoritative The Policing Web expands the very idea of what policing is and how it works and presents a novel yet fundamental understanding of law enforcement
