Racism In Mind:

Racism in Mind Michael P. Levine, Tamas Pataki, 2018-08-06 This philosophical analysis of the phenomenon of racism brings together some of the most influential analytic philosophers writing on racism today The introduction by Tamas Pataki outlines the historical and thematic development of conceptions of race and racism and locates the following essays against the backdrop of contemporary reactions to that development While the framework is primarily analytic the volume also includes essays deeply informed by psychoanalysis phenomenology and feminist and social theory The fourteen chapters in this collection address three interrelated questions What is racism What are the causes of racism And what are the moral and political implications of racism Although their approaches are wide ranging the contributors to *Racism in Mind* broadly endorse a psychological characterological approach to the understanding of many aspects of racism

The State of the American Mind: Stupor and Pathetic Docility Amechi Okolo PhD, 2010-06-10 This book *The State of the American Mind: Stupor and Pathetic Docility* Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary

Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands

Retooling the Mind Factory Alan Sears,2003-01-01 Alan Sears examines education reform in relation to a broad process of cultural and economic change His book makes the case that education reform is one aspect of a broad ranging neo liberal agenda that aims to push the market deeper into every aspect of our lives by eliminating or shrinking non market alternatives The author begins by showing that advocates of education reform have had to make the case that the current system is not working This sets the ground for an examination of the so called Common Sense Revolution a claim that drastic change was required to redesign government policies to fit a changing world Lean production methods are a crucial component of this changing world and broader social and cultural change is now required to consolidate the emerging order built on the spread of these methods Education reform is designed to recast the relations of citizenship contributing to the cultural and social change promoted through the social policy of the lean state

Race in the Mind of America Paul L. Wachtel,2012-10-12 Internationally recognized psychologist Paul L Wachtel sheds new light on the psychological foundations of our nation s racial impasse and applies his pathbreaking vicious circle approach to help resolve it This timely and fascinating analysis shows how the ways we attempt to cope with racial tensions and inequalities often lead to the perpetuation of our difficulties rather than their resolution Understanding the ironies that characterize contemporary race relations is the first step toward extricating our nation from the vicious circle Both controversial and healing *Race in the Mind of America* challenges the orthodoxies that shape black and white opinion and liberal and conservative policies while sensitively exploring the way the world looks to both sides and why it looks that way Wachtel probes the daily experiences of blacks and whites shedding new light on how individual experiences and larger social historical and economic forces continually re create each other In illustrating how blacks and whites get caught in vicious circles that sustain the very behaviors and attitudes they wish would change Wachtel also points toward the concrete solutions to our seemingly enduring dilemmas and shows how to move beyond the adversarial rhetoric that divides us

Racial Resentment in the Political Mind Darren W. Davis, David C. Wilson, 2021-12-27 A thought provoking look at how racial resentment rather than racial prejudice alone motivate a growing resistance among whites to improve the circumstances faced by racial minorities In *Racial Resentment in the Political Mind* Darren W Davis and David C Wilson challenge the commonly held notion that all racial negativity disagreements and objections to policies that seek to help racial minorities stem from racial prejudice They argue that racial resentment arises from just world beliefs and appraisals of deservingness that help explain the persistence of racial inequality in America in ways more consequential than racism or racial prejudice alone The culprits as many White people see it are undeserving people of color who are perceived to benefit unfairly from and take advantage of resources that come at Whites expense a worldview in which any attempt at modest change is seen as a challenge to the status quo and privilege Yet as Davis and Wilson reveal many Whites have become racially resentful due to their perceptions that African Americans skirt the rules of the game and violate traditional values by taking advantage of unearned resources Resulting attempts at racial progress lead Whites to respond in ways that retain their social advantage opposing ameliorative policies minority candidates and other advancement on racial progress Because racial resentment is rooted in beliefs about justice fairness and deservingness ordinary citizens who may not harbor racist motivations may wind up in the same political position as racists but for different reasons
