**Andreas Cahn, David C. Donald**

## **Regime Unchanged:**

Evaluating Policy Regimes Ralph Bryant, Peter Hooper, Catherine L. Mann, 2010-12-01 Economists have long debated the theoretical merits for an individual nation and for a multi nation world economy of alternative approaches to the conduct of economic policy Yet theory alone cannot resolve the important issues at stake Only after the robustness of policy regimes has been carefully examined with empirical evidence will policymakers and economists be able to reach more of a consensus This pathbreaking volume takes major steps forward in meeting the need for a combination of theoretical and empirical evaluations of alternative policy regimes Bringing together individuals and groups doing pioneering research on macroeconomic interaction it explores what approach to monetary policy would lead to superior performance by individual national economies and the world economy as a whole Many parts of the book use the analytical techniques of stochastic simulation an evaluation procedure increasingly employed at the frontier of empirical economic analysis The book provides a summary of the key issues involved in evaluating policy regimes and clarifies the relationships among those issues The authors examine the stabilization properties of alternative monetary policy regimes and analyze how well various regime types perform in the face of unexpected shocks to national economies Among their conclusions they find that some simplified regimes for monetary policy are markedly less promising than others for achieving the stabilization objectives commonly sought by policymakers Evaluating Policy Regimes is another major installment in a continuing world wide research project sponsored by the Brookings Institution to improve empirical knowledge about the interdependence of national economies

**Organic Synthesis Engineering** L. K. Doraiswamy, 2001-02-15 This book will formally launch organic synthesis engineering as a distinctive field in the armory of the reaction engineer Its main theme revolves around two developments catalysis and the role of process intensification in enhancing overall productivity Each of these two subjects are becoming increasingly useful in organic synthesis engineering especially in the production of medium and small volume chemicals and enhancing reaction rates by extending laboratory techniques such as ultrasound phase transfer catalysts membrane reactor and microwaves to industrial scale production This volume describes the applications of catalysis in organic synthesis and outlines different techniques of reaction rate and or selectivity enhancement against a background of reaction engineering principles for both homogeneous and heterogeneous systems

Central Europe towards Monetary Union: Macroeconomic Underpinnings and Financial Reputation Ronald MacDonald, Rod Cross, 2012-12-06 A key objective of the Central European Economies CEE on their transition path from planned to more market oriented economies has been membership of the European Union EU The start of Economic and Monetary Union EMU in 1999 has added membership of the EMU to the agenda for the CEEs The task of the so called Vis grad countries the Czech and Slovak Republics Hungary and Poland of preparing for EU and EMU membership is the key theme underlying the papers contained in this volume There are many issues to be resolved before the Vis grad countries are admitted into the EU and this volume focuses on the issues relating to

macroeconomic policies and financial sector structures The chapters of Central Europe Towards Monetary Union Macroeconomic Underpinnings and Financial Reputation contain new theoretical and empirical results and also comprehensive institutional overviews The intended readership of the book is policy makers and economists working in the academic and financial sectors Military Rule in Latin America Karen Remmer, 2025-04-30 First published in 1989 in Military Rule in Latin America Karen L Remmer draws upon a wide variety of sources including interviews with top government officials to challenge prevailing interpretations of military rule She questions the assumption that military regimes can be adequately understood in terms of their origins and shows how important variations among them reflect the roles of state actors and institutions In the first part of the book Remmer provides a broad overview of military rule in Latin America in the second a detailed case study of Chile under the Pinochet regime She concludes by examining the implications of her findings for understanding transitions from authoritarianism and the consolidation of democracy This groundbreaking work is essential reading for scholars and researchers of Latin American studies political studies and comparative politics

**Water Framework Directive** Fred F Hattermann, Zbigniew W. Kundzewicz, 2009-11-01 Special Offer Water Framework Directive Series Set Visit [www.iwapublishing.com](http://www.iwapublishing.com) to buy all four titles including Volume 3 and save 100 Water resources planning and management and the development of appropriate policies requires methodologies and tools that are able to support systematic integrative and multidisciplinary assessments at various scales It also requires the quantification of various uncertainties in both data and models and the incorporation of stakeholders participation and institutional mechanisms into the various tools and risk assessment methodologies to help decision makers understand and evaluate alternative measures and decisions This requirement has been explicitly recognised in the context of the European Union Water Framework Directive WFD This book is one of the concrete outcomes of the Harmoni CA concerted action supported by the European Commission It provides a framework for model supported participatory planning of measures at various river basin scales and practical guidance to water managers and other interested stakeholders on the model supported implementation of the WFD The objective of the book is to offer guidance to water managers on the model supported implementation of the Water Framework Directive at the level of a river basin district and at other levels such as sub basins national or international scale in the case of international river basins It should help water managers to better understand how models may be used for planning purposes while special attention is given to the problem of predicting an uncertain future one very likely to differ from the present Six case studies from different parts of Europe are provided to illustrate the practical applicability of the planning framework in the WFD implementation They are very important for illustrating how concepts from earlier parts of the document are applied to real world situations The case studies cover several aspects of mesoscale river basin management water quantity and quality issues and the role of modelling with two case studies located in pilot river basins This text is intended for use by water managers and hydrologists engaged in the implementation of the

Water Framework Directive The other three volumes in the Water Framework Directive Series are Modelling Aspects of Water Framework Directive Implementation Volume 1 edited by Prof Peter A Vanrolleghem Integrated Assessment for WFD implementation Data economic and human dimension Volume 2 edited by Peter A Vanrolleghem Decision support for WFD implementation Volume 3 edited by Peter A Vanrolleghem **When Democracy Breaks** Archon Fung, David Moss, Odd Arne Westad, 2024-02-02 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations Democracy is often described in two opposite ways as either wonderfully resilient or dangerously fragile Both characterizations can be correct depending on the context When Democracy Breaks aims to deepen our understanding of what separates democratic resilience from democratic fragility by focusing on the latter The volume's collaborators experts in the history and politics of the societies covered in their chapters explore eleven episodes of democratic breakdown from ancient Athens to Weimar Germany to present day Russia Turkey and Venezuela Strikingly in every case various forms of democratic erosion long preceded the final democratic breakdown Although no single causal factor emerges as decisive linking together all of the episodes some important commonalities including extreme political polarization explicitly anti democratic political actors and significant political violence stand out across the cases Moreover the notion of democratic culture while admittedly difficult to define and even more difficult to measure may play a role in all of them Throughout the volume the contributors show again and again that the written rules of democracy are insufficient to protect against tyranny While each case of democratic decay is unique the patterns that emerge shed much light on the continuing struggle to sustain modern democracies and to assess and respond to the threats they face Asia-Pacific Financial Deregulation Gordon De Brouwer, Wisarn Pupphavesa, 2002-03-11 Recent events in East Asia have highlighted the risks of volatility and contagion in a financially integrated world Countries in the region had been at the forefront of the movement towards increased integration but the crisis that struck Thailand in July 1997 and the rapidity with which it spread to other East Asian nations suggested that all was not well Weaknesses in domestic financial intermediation poor corporate governance and deficient government responses to large capital inflows all played a role in the build up of vulnerability Asia Pacific Financial Deregulation provides an insight into financial liberalisation and structural reform in the region generally and as illustrated by a number of countries *Demography - Volume II* Zeng Yi, 2010-11-30 Zeng Yi is a Professor at the Center for the Study of Aging and Human Development and Geriatric Division Dept of Medicine of Medical School and Institute of Population Research and Dept of Sociology Duke University He is also a Professor at the China Center for Economic Research National School of Development at Peking University in China and Distinguished Research Scholar of the Max Planck Institute for Demographic Research MPIDR in Germany He received his doctoral degree from Brussels Free University in May 1986 and conducted post doctoral study at Princeton University in 1986-87 Up to Feb 2008 he has had 81 professional articles written

in English published in academic journals or as book chapters in the United States and Europe among them 51 articles were published in anonymous peer reviewed academic journals He has had 85 professional articles written in Chinese and published in China among them 55 articles were published in national top Chinese academic journals He has published sixteen books including five research books as first author such as *Family Dynamics in China* published by the University of Wisconsin Press one textbook on demographic methods as the sole author two volumes of demographic software and user s manuals as the first author on family status life table analysis six edited books four as the chief editor and two as the second editor such as the 2005 and 2008 books published by Springer for which he served as the chief editor Six of Zeng Yi s published books were written in English one was written in both Chinese and English and the remainders were written in Chinese Zeng Yi has been awarded more than ten national and international academic prizes such as the Dorothy Thomas Prize of the Population Association of America the Harold D Lasswell Prize in Policy Science awarded by the international journal *Policy Sciences* and Kluwer Academic Publishers the second class prize for advancement of science and technology awarded by the State Sciences and Technology Commission of China the first class prize for advancement of science and technology awarded by the State Education Commission and the highest academic honor of Peking University Prize for Outstanding Contributions in Sciences According to the search report up to March 1 2008 the internationally most important literature sources SSCI Social Science Citation Index and SCI Science Citation Index published in the U S indicate that Zeng Yi s articles and books have been cited in 755 journal articles by authors other than Zeng Yi Among them 440 citations refer to the work of Zeng Yi as the first author 315 citations refer to the work of Zeng Yi as a co author Zeng Yi is one of the authors of High Impact Papers worldwide in the period of 1981 1998 as announced by International Scientific Institute ISI in September 2000

*Comparative Company Law* Andreas Cahn, David C. Donald, 2018-10-04 When comparing the laws of different jurisdictions one often sees only the forest or the trees This is particularly problematic in comparative company law where students hope both to understand the overall framework of the law and grasp its practical application This text s structure now in its second edition solves that dilemma Chapters open with discursive analyses of the law in each of Germany the UK and the US Delaware the ABA Model Business Corporation Act and federal securities laws and set out the high level governing framework particularly for the EU and its member states This analysis is succinct and pointed with numerous references to both the law and leading scholarship The whole text is arranged to highlight comparative aspects Diagrams are used where helpful Chapters close with edited judicial decisions from at least two of the jurisdictions discussed which allows fresh exploration of comparison in more detail and pointed questions to guide class discussion

*Urban Futures* Timothy J. Dixon, Mark Tewdwr-Jones, 2023-10-17 This book explores the history and evolution of city visions placing them in the wider context of art culture science foresight and urban theory

***Varieties of Liberalism in Central America*** Forrest D. Colburn, Arturo Cruz S., 2009-06-03 Why do some countries progress while others stagnate Why does adversity strengthen

some countries and weaken others Indeed in this era of unprecedented movement of people goods and ideas just what constitutes a nation state Forrest Colburn and Arturo Cruz suggest how fundamental these questions are through an exploration of the evolution of Guatemala El Salvador Honduras Nicaragua and Costa Rica over the last quarter of a century a period of intriguing often confounding paradoxes in Central America's development Offering an elegant defense of empiricism Colburn and Cruz explore the roles of geography and political choice in constructing nations and states Countries are shown to be unique there are a daunting number of variables There is causality but not the kind that can be revealed in the laboratory or on the blackboard Liberalism today defined as democracy and unfettered markets may be in vogue but it has no inherent determinants Democracy and market economies when welded to the messy realities of individual countries are compatible with many different outcomes The world is more pluralistic in both causes and effects than either academic theories or political rhetoric suggest

**Conscience in Action** Kim Dae-jung, 2018-06-20 This book is an English translation of the authoritative autobiography by the late South Korean President Kim Dae-jung The 2000 Nobel Peace Prize winner often called the Asian Nelson Mandela is best known for his tolerant and innovative Sunshine Policy towards North Korea Written in the five years between the end of his presidency and his death in 2009 this book offers a poignant first hand account of Korea's turbulent modern history It spans the pivotal time span between the Japanese colonial period 1910 1945 and reconciliation in the Korean Peninsula 2000 2009 In between are insightful insider descriptions of everything from wars and dictatorships to the hopeful period of economic recovery blooming democracy peace and reconciliation Conscience in Action serves as an intimate record of the Korean people's persistent and heroic struggle for democracy and peace It is also an inspiring story of an extraordinary individual whose formidable perseverance and selfless dedication to the values he believed in led him to triumph despite more than four decades of extreme persecution

*International Macroeconomics* Victor Argy, 2013-01-11 International Macroeconomics Theory and Policy offers phenomenal coverage across the entire subject of international macroeconomics in an open economy context The book has four objectives to describe the evolution of and experiences with global exchange rate regimes to introduce the reader to a rigorous analysis of open economy models to apply the model framework to address key policy issues to review individual country experiences of macro policy

Contemporary China Jurgen Haacke, Peter Preston, 2013-12-19 With a large and growing economy and a leadership dedicated both to domestic reform and the further integration into international society and the world economy China is facing and posing important challenges at the local national regional and wider international level This book analyses the developmental trajectories of China up to and into the new millennium Focusing on the substance and underlying forces of change it considers issues and developments in monetary policy foreign exchange policy the trade regime state owned enterprise reform regional economic development as well as social changes particularly those related to social welfare reform and the Internet The book also covers economic and political developments in Greater China particularly the

prospects of reunification after Taiwan's presidential elections and analyses the core issues and challenges in China's contemporary relations with the USA Japan South East Asia and Europe      **River Restoration** Stephen Darby, David Sear, 2008-02-28 River restoration projects are designed to recreate functional characteristics within a context of physical stability They tend to focus on the development and application of geomorphic principles for river restoration design Due to different models obtaining different results on the same problem incomplete or absent data and climatic social cultural changes the designers and managers of such projects frequently face high levels of uncertainty This book will provide a systematic overview of the issues involved in minimizing and coping with uncertainty in river restoration projects A series of thematic sections will be used to define the various sources of uncertainty in restoration projects and how these show at different points in the life cycle design construction and post construction phases of restoration projects The structure of the book will offer a rational theoretical analysis of the problem while providing practical guidance in managing the different sources of uncertainty A wide range of case studies will be included from Europe North America and Australasia

**Regional Economic Outlook, October 2018, Asia Pacific** International Monetary Fund. Asia and Pacific Dept, 2018-10-12 Growth in the first half of 2018 was softer than in 2017 especially in advanced economies In contrast growth remained robust in emerging market economies and broadly in line with expectations After rising to 6.9 percent in 2017 growth in China continued to be strong into the first half of 2018 but has likely slowed since given the latest high frequency indicators including weakening investment growth In Japan after exceeding potential for two years growth dropped into negative territory in the first quarter of 2018 before rebounding sharply in the second quarter In India growth continues to recover steadily after the disruptions related to demonetization and the rollout of the goods and services tax in the last fiscal year 1 And in ASEAN 4 economies Indonesia Malaysia the Philippines Thailand growth generally lost momentum in the first half of 2018 except in Thailand      **Supreme Courts Under Pressure** Pablo Bravo-Hurtado, Cornelis Hendrik van Rhee, 2021-03-13 This book discusses civil litigation at the supreme courts of nine jurisdictions Argentina Austria Croatia England and Wales France Germany Italy Spain and the United States and focuses on the available instruments used to keep the caseload of these courts within acceptable limits Such instruments are necessary in order to allow supreme courts to fulfil their main duties that is the administration of justice in individual cases private function and providing for the uniformity and development of the law within their respective jurisdictions public function If the number of cases at the supreme court level is too high the result is undue delays which are mainly problematic with regard to the private function It may also put the quality of the court's judgments under pressure which can affect its public and private function alike Thus measures aimed at avoiding excessive caseloads need to take both functions into account Increasing the capacity of the court to handle larger numbers of cases may result in the court being unable to adequately fulfil its public function since large numbers of court decisions make it difficult to guarantee the uniformity of the law and its development Therefore a balanced

approach is needed to safeguard capacity and quality As shown by the contributions gathered here the nature of reform in this area is not the same everywhere There are a variety of reasons for this heterogeneity ranging from different understandings of the caseload problem itself local conceptions regarding the purpose of the Supreme Court and strong entitlements concerning the right to appeal to budgetary restrictions and extremely rigid legislation The book also shows that the implementation of similar solutions to case overload such as access filters may have different effects in different jurisdictions The conclusion might well be that the problem of overburdened courts is multifactorial and context dependent and that easy one size fits all solutions are hard to find and perhaps even harder to implement

**The Design of Educational Exhibits** M. B. Alt, D. C. Gosling, Dr R S Miles, R. S. Miles, 2012-11-12 This is the second and fully updated edition of an authoritative handbook aimed at all those involved in designing educational exhibitions It lays out guidelines for exhibition design that for a given cost will tend to optimize the educational value of exhibitions to their target audience It offers practical guidance on all aspects of the work from the planning administration and evaluation of a large programme of exhibition work down to the selection of media and the design and construction of the single exhibit It discusses the things that should be thought about and the things that should be done in setting up educational exhibits paying particular attention to the pitfalls that must be identified and avoided if the work is to be done well The handbook is essential for all those who are concerned with mounting educational exhibitions whether they be administrators designers educationalists planners or in specific subject areas It will be required reading for students following postgraduate courses in museology museum studies or similar courses at institutions throughout the world No special background knowledge is assumed as the readership will be as varied as the skills required to put together and evaluate an exhibition
