Region And Strategy In Britain And Japan:

Region and Strategy in Britain and Japan David J. Jeremy, 2005 **Region and Strategy in Britain and Japan** Takeshi Abe, Douglas A. Farnie, David J. Jeremy, Tetuso Nakaoka, John F. Wilson, 2005-07-20 Highlighting the importance of regional and national differences in industrial development this book is a pioneering long term comparison of the two regions of Lancashire and Kansai **Britain and Japan in the Twentieth Century** Philip Towle, Nobuko Margaret Kosuge, 2007-04-27 After the horrors of World War II in Asia not least the systematic appalling mistreatment of Allied prisoners of war by the Japanese military few would have predicted that Britain's relationship with Japan would flourish into a booming partnership of economic interdependence by the start of the twenty first century This ambitious examination of Anglo Japanese relations over the course of the 20th century charts the fascinating history of how both nations overcame many years of prejudice and bitter conflict to form a bond fused by financial political and military cooperation In the 1930s many Japanese became convinced that their exports were being kept out of India by British tariffs and it was not until the 1980s that the British government fully accepted the futility of any protectionist impulse and encouraged Japanese companies to invest in Britain Today each country not only assists the other economically but also no longer blames the other for its own domestic problems Britain and Japan in the Twentieth Century elucidates how both nations have struggled to achieve stability and harmony in their relations with each other in the face of contrasting cultural identities British and Japanese Military Leadership in the Far Eastern War, 1941-45 Brian Bond, 2012-11-12 Some sixty years after the Far Eastern War ended this innovative new collection brings together five distinguished UK based scholars and five from Japan to reappraise their respective country's leadership in the Malaya and Burma campaigns This leadership is analyzed on various levels ranging from the grand strategic to operational The Japanese contributors examine the reasons for their forces brilliant advances in 1941-42 whereas the British writers have to account for the disastrous defeat characterized by the poor leadership of senior commanders such as Bennett and Percival Between 1943 and 1945 the tables were turned dramatically so the failure of Japanese command decisions then comes under critical scrutiny and the British have to explain how defeat was transformed into victory Above all this volume should stimulate interest in different methods and styles of military leadership in view of the contrasting approaches of the British and Japanese in the Second World War Japan's Strategic Challenges in a Changing Regional Environment Purnendra Jain, Peng Er Lam, 2013 Japan faces significant challenges in both traditional and non traditional areas of national security policy as the economic resurgence of China and the loss of US hegemonic clout significantly transform the strategic landscape of the Asia Pacific region How is Japan coping with this new global and regional politico security environment What strategic moves has it taken to best position itself for the future to maximize its global and regional influence More importantly how is Japan perceived within the region by traditionally close regional partners such as the US and Australia by supporters in Southeast Asia and by new competitors most prominently

China and India What international role do these nations wish Japan to play In this comprehensive volume these crucial questions are explored in depth by a group of scholars both distinguished and diverse Regions, Power, and Conflict William R. Thompson, Thomas J. Volgy, Paul Bezerra, Jacob Cramer, Kelly Marie Gordell, Manjeet Pardesi, Karen Rasler, J. Patrick Rhamey Jr., Kentaro Sakuwa, Rachel Van Nostrand, Leila Zakhirova, 2022-08-16 The three main levels of analysis in international relations have been the systemic the national and the individual A fourth level that falls between the systemic and the national is the region It is woefully underdeveloped in comparison to the attention afforded the other three Yet regions tend to be distinctive theaters for international politics Otherwise we would not recognize that Middle Eastern interstate politics somehow does not resemble Latin American interstate politics or interstate politics in Southern Africa although once the Middle East and Southern Africa may have seemed more similar in their mutual fixation with opposition to domestic policies in Israel and South Africa respectively This book divided into three parts first makes a case for studying regional politics even though it must also be appreciated that regional boundaries are also hazy and not always easy to pin down empirically The second part examines power distributions within regions as an important entry point to studying regional similarities and differences Two emphases are stressed One is that regional power assessments need to be conditioned by controlling for weak states which are more common in some regions than they are in others The other emphasis is on regional power hierarchies Some regions have strong regional hierarchies while others do not Regions with strong hierarchies operate much differently from those without them in the sense that the former are more pacific than the latter The third part of the book focuses on regional differences in terms of conflict behavior order preferences rivalries and rivalry termination

Britain and Regional Cooperation in South-East Asia, 1945-49 Tilman Remme, 2015-04-10 This book first published in 1995 traces the attempt by the British Foreign Office to establish an international regional organisation in South East Asia which would allow Britain to dominate the region politically economically and militarily The author explores the changing emphasis of Britain's regional policies and puts the issues affecting South East Asia in the post War period into a wide context He explores events in the light of the Japanese defeat in the Second World War the Communist struggle for supremacy of China the development of Anglo American relations in Asia and the beginnings of the Cold War *Royal Navy Strategy in the Far East 1919-1939* Andrew Field, 2004-05-20 Between the ending of the Great War and the start of the Second World War in 1939 the Royal Navy remained the largest in the world But with the League of Nations seeming to offer a solution to all future conflicts a country weary of war and without an obvious enemy there seemed no need for a large battlefleet The strategic focus shifted eastwards to Japan with its growing battlefleet as the new threat to the British Empire and to the Royal Navy's supremacy From 1924 a strategic plan War Memorandum Eastern was written and refined The plan called for the Royal Navy still the largest in the world even after the Washington Naval Treaties to move eastwards to a defended base at Singapore cut off Japan and force her battlefleet into a decisive fleet battle As a strategy War Memorandum Eastern had many flaws Its real importance lay in the fact that it provided a justification for the Royal Navy to maintain its leading position in the world and to be in the forefront of the development of new tactical thinking Through planning for a war with Japan the Royal Navy was able to test its readiness for a future war Many of the lessons learnt during this period were ultimately put to good use against a different foe in 1939 **Railways and International Politics** T.G. Otte, Keith Neilson, 2012-09-10 This new study brings together leading experts to show how the modern world began with the coming of the railway They clearly explain why it had a greater impact than any other technical or industrial innovation before and completely redefined the limits of the civilized world While the effect of railways on economic development is self evident little attention has been paid to their impact on international relations This is unfortunate for in the period from 1848 to 1945 railways were an important element in the struggle between the Great Powers This took many forms Often as in East Asia the competition for railway concessions reflected the clash of rival imperial interests The success or failure of this competition could determine which of the European Powers was to dominate and exploit the markets of China and Siam Just as often railways were linked with military matters Prussia's success in the wars of German unification depended on its strategic railways just as much as on the strength of its armies and the rail links remained a vital aspect of German military thinking before the First World War So too did they for the Russians whose vast Empire required rail links capable of moving the Tsarist army quickly and competently Just as importantly railways could be vital for Imperial defence as the British discovered on the North West frontier of India This book will be of much interest to students of international history military

Japanese Participation in British Industry John Dunning, 2010-11-01 Japanese participation in British industry has increased greatly in recent years While the new investment is welcomed for the jobs it helps create and the injection of new technology and managerial techniques many people are fearful lest this increased participation should lead to loss of control of British industry by British nationals and adversely affect British competitors and their struggle for global markets These concerns are made worse by lack of knowledge about just how extensive Japanese managerial participation in British industry is and about how Japanese practices differ This book based on extensive original research answers these and related questions It is the first detailed study of the extent of Japanese participation in British industry and of its economic impact in a number of key areas Intelligence and the War Against Japan Richard J. Aldrich, 2000-04-13 This book explores the

politics of the British and American secret service during the Far Eastern War **Anglo-American Strategic Relations and the Far East, 1933-1939** Greg Kennedy, 2013-01-11 This volume charts how the national strategic needs of the United States of America and Great Britain created a parallel but not joint relationship towards the Far East as the crisis in that region evolved from 1933-39 In short it is a look at the relationship shared between the two nations with respect to accommodating one another on certain strategic and diplomatic issues so that they could become more confident of one another in any potential showdowns with Japan *Australia's Defence Strategy* Adam Lockyer, 2017-01-30 How would we know a good defence strategy if we saw one The Asian Century is challenging many of the traditional assumptions at the heart of Australian defence policy and strategy Defence scholars have risen to the challenge of these transformational times and have collectively produced a smorgasbord of alternatives for policy makers The problem is that these recommendations all point in very different directions How should we evaluate these options Adam Lockyer tackles this question and develops a novel conceptual framework for evaluating defence strategies By doing so this book breaks new theoretical ground and makes an important contribution to our understanding of strategy in general and defence strategy in particular Lockyer then applies this analytical tool to the leading arguments in Australia's defence debate and finds that there is still substantial work to be done Lockyer concludes by proposing a new Australian defence strategy for a contested Asia that would pass the test for a good defence strategy The result is essential reading for anyone interested in strategy or the future of Australian defence policy **British Naval Intelligence through the Twentieth Century** Andrew Boyd, 2020-08-30 An acclaimed

military historian examines the vital role of British naval intelligence from the mid nineteenth century to the end of the Cold War In this comprehensive account Andrew Boyd brings a critical new dimension to our understanding of British naval intelligence From the capture of Napoleons signal codes to the satellite based systems of the Cold War era he provides a coherent and reliable overview while setting his subject in the larger context of the British state It is a fascinating study of

how naval needs and personalities shaped the British intelligence community that exists today Boyd explains why and how intelligence was collected and assesses its real impact on policy and operations Though he confirms that naval intelligence was critical to Britain's victory in both World Wars he significantly reappraises its role in each He reveals that coverage of Germany before 1914 and of the three Axis powers in the interwar period was more comprehensive and effective than previously suggested and while British power declined rapidly after 1945 the book shows how intelligence helped the Royal Navy to remain a significant global force for the rest of the twentieth century

Britain's Secret War against Japan, 1937-1945 Douglas Ford, 2006-09-27 A new look at how Britain's defence establishment learned to engage Japan's armed forces as the Pacific War progressed Douglas Ford reveals that prior to Japan's invasion of Southeast Asia in December 1941 the British held a contemptuous view of Japanese military prowess He shows that the situation was not helped by the high level of secrecy which surrounded Japan's war planning as well as the absence of prior engagements with the Imperial Japanese Navy and Army The fall of Fortress Singapore in February 1942 dispelled the notion that the Japanese were incapable of challenging the West British military officials acknowledged how their forces in the Far East were inadequate and made a concerted effort to improve their strength and efficiency However because Britain's forces were tied down in their operations in Europe North Africa and the Mediterranean they had to fight the Japanese with limited resources Drawing upon the lessons obtained through Allied experiences in the Pacific theatres as well as their own encounters in Southeast Asia the British used the available intelligence on the strategy tactics and morale of Japan's armed forces to make the best use of what they had and by the closing stages of the war in 1944 to 1945 they were able to devise a war plan which paved the way for the successful war effort This book will be of great interest to all students of the Second World War intelligence studies British military history and strategic studies in general
