Kuklinski, 1975-10-31      Equity and Efficiency in Economic Development Donald J. Savoie, Irving Brecher, 1992-10-16 The ideological foundations of the contributors range from personalized neo Marxism through extreme centre neo Keynesianism to hard line neoclassical mathematical economics Despite this diversity there is a surprising degree of consensus No contributor advocates centralized planning and none expects a free market to cure all economic ills Opinions vary as to how well the market actually works but all agree that equity and efficiency are essential goals which most consider to be complementary rather than mutually exclusive In the concluding chapter it is suggested that current economic problems are caused not so much by government intervention as by the nature of that intervention The authors believe that the recent ideological convergence may lead to a new paradigm a theory of the optimal blend of market and management that will be flexible enough to deal with the varying conditions of diverse societies thus simplifying the task of creating a smooth running global economy The contributors are Irma Adelman Mark Blaug Kenneth Boulding Irving Brecher Albert Breton John S Chipman Andr Gunder Frank Martha Fuentes Frank Niles Hansen Murray C Kemp Robin Marris Richard Musgrave Walt Rostow Donald J Savoie Nicholas Spulber and Paul Streeten Higgins himself contributes a chapter on basic concepts and collaborates with Donald Savoie on the final chapter      *International Perspectives on Socio-Economic Development in the Era of Globalization* Sen, Saurabh, Bhattacharya, Anshuman, Sen, Ruchi, 2016-03-08 In today s world globalization bears intense interdependencies between countries and the impact global business transactions have on society and economics is more palpable than ever Despite this many developing countries in the global market find themselves struggling to support perpetual population growth These countries must find ways to attain sustainable development in the economic social and environmental sectors *International Perspectives on Socio Economic Development in the Era of Globalization* seeks to examine the existing variability of development in the global marketplace and to identify the catalysts responsible for this disparity of success This title analyzes the economic frontiers social norms and infrastructural capabilities that factor into the socio economic growth of the developing and under developed world This book will become a definitive text for policy makers academics students and business executives      **The individuality of a scholar and advancement of social science : the scholarship of Antoni Kukliński** Anna Gašior-Niemiec, Józef Niżnik, 2008      **All**
