Economic Cooperation Organizations Johannes F. Linn,2008 Since the collapse of the Soviet Union Central Asia has
witnessed repeated efforts to strengthen regional integration through cooperation with the establishment of a number of
regional organizations with Central Asian participation In this paper we review the experience with regional cooperation
initiatives and organizations in Central Asia and the rest of the world Using a typology of regional organizations that we have
developed for this paper we review the functions and performance of selected regional organizations and compile evidence
more generally on the experience with regional cooperation around the globe Based on this we draw some lessons to help
Central Asian countries their partners and their regional organizations respond effectively to the opportunities and
challenges of regional cooperation and integration Central Asian countries need to realize that effective cooperation is not
easy It takes time and requires a flexible constructive approach of all major partners It also requires effective leadership by
key countries institutions and individuals and a careful selectivity for membership and for the mandate of the organization
Where multiple regional organizations overlap in membership and mandate it is essential to address the risk of costly
duplication The paper concludes with an assessment of the specific implications for the Central Asia Regional Economic

Bank,2016-03-01 The Asian Development Bank Erdenes Mongol LLC and the Business Council of Mongolia worked together
to organize the Central Asia Regional Economic Cooperation CAREC Investment Forum that took place on 24 September
2015 in Ulaanbaatar Mongolia The forum was the first ever conference to focus on the investment environments in the
CAREC countries More than 300 high level government officials and business leaders from 26 countries attended the event
to share their insights on how to make effective investments within the region They also shared their experiences and
expectations on how to manage investments in Mongolia The main topics discussed during the conference were i generating
a recipe for success in the CAREC region that will focus on identifying and making good investments ii exploring the
investment environment and policies in CAREC member countries and iii investing in a regionally connected Mongolia

have made significant gains in regional transport energy infrastructure and trade facilitation and policy which have increased both the pace and quality of development in the subregion The spirit of trust and confidence that has evolved through the years among good neighbors and good partners has led to better prospects for all *Subregional Economic Cooperation in Central and Eastern Europe* Martin Dangerfield,2001-01-26 This book will be a valuable addition to the existing literature in the area appealing to academics and researchers in European and transition studies BOOK JACKET Economic Integration in Central Asia Regional Economic Cooperation Member Countries Muhammad Ayub Mehar Khan,2020 The nexus of the modes of financing trade and transport related infrastructure quantum of trade activities and economic growth is the core area of this paper It covers the impacts of regional economic integration of Central Asia Regional Economic Cooperation CAREC member countries on their trade and GDP growth Though several bilateral and multilateral agreements to boost mutual trade are considered as a measure of economic integration in the absence of high quality physical infrastructure of transport and logistic services the implementation of such agreements is not possible So the provision of good trade and transport related logistic services has been taken as a key indicator of integration among the countries in the region The role of the magnitudes and modes of financing in determining the provision of logistic services and transport related infrastructure has also been covered in the study The results emphasize the causal relations between trade and transport related infrastructure and GDP growth The most important conclusion is the identification of short term external borrowing as the most effective mode of financing The study does not recommend long term external borrowing or multilateral borrowing for the development of trade and transport related infrastructure The strong significant and robust impact of the share of short term borrowing in total external debt on GDP growth exports and infrastructure development indicates the pressure on policy makers and economic managers to utilize resources effectively and efficiently The global financial architecture should focus on the provision of short term lending facilities to improve the efficiency of developing projects

Central Asia Regional Economic Cooperation Corridor Performance Measurement and Monitoring Asian Development Bank,2014-11-01 This report describes how Central Asia Regional Economic Cooperation CAREC corridor performance measurement and monitoring CPMM helps to achieve the objectives of the CAREC Transport and Trade Facilitation Strategy and its Implementation Action Plan It presents the CPMM methodology and discusses the roles and responsibilities of key stakeholders especially the private sector It highlights ongoing efforts to provide accurate and reliable indicators despite the challenges of measuring corridor performance in the CAREC context The extensive depth of data collected and the richness of information that CPMM has been providing since 2009 supports detailed policy analysis and formulation Trade facilitation indicators have been developed to inform CAREC s Development Effectiveness Review These indicators provide a basis of comparison or benchmarking of one location border crossing point or corridor segment against another in terms of i the efficiency of border management agency policies and procedures in regulating trade ii

infrastructure quality and in due course iii the quality and performance of trade logistics service providers The four indicators include the standard measures of time and cost as the main components Selected corridor performance data are then analyzed to identify the physical and non physical barriers to trade and transit traffic encountered at specific locations helping to pinpoint the causes of excessive delays and costs With this study ADB underscores the value of CPMM for CAREC countries and for countries participating in other subregional programs as they craft policies and consider investments to facilitate trade Technical Assistance for Central Asia Regional Cooperation in Trade, Transport, and Transit B.
