As UN Secretary General Ban Ki moon has stated Climate change is the pre eminent geopolitical and economic issue of the 21st century It rewrites the global equation for development peace and prosperity The scientific evidence is clear climate change is happening and the exposure to weather related disasters such as heat waves forest fires cyclones and flooding has the potential to seriously impact the tourism sector The travel and tourism industry is both a significant contributor to climate change being responsible for 5% of global greenhouse gas emissions and is directly impacted by it At the same time the industry is a vital driver of the global economy with an estimated US 6 6 trillion total contribution in 2012 and is particularly significant to developing and emerging economies where the impacts of climate change can be most disruptive This collection of papers is a timely and indispensable source of insights and models of best practice relating to the mitigation of and adaptation to climate change by various sectors of the industry Encyclopedia of the Arctic Mark Nuttall,2005-09-23 With detailed essays on the Arctic s environment wildlife climate history exploration resources economics politics indigenous cultures and languages conservation initiatives and more this Encyclopedia is the only major work and comprehensive reference on this vast complex changing and increasingly important part of the globe Including 305 maps This Encyclopedia is not only an interdisciplinary work of reference for all those involved in teaching or researching Arctic issues but a fascinating and comprehensive resource for residents of the Arctic and all those concerned with global environmental issues sustainability science and human interactions with the environment **Countdown to Kyoto, Parts**

I-III United States. Congress. House. Committee on Science. Subcommittee on Energy and Environment,1998 **Climate Change 2001: The Scientific Basis** J. T. Houghton,Y. Ding,D. J. Griggs,M. Noguer,P. J. van der Linden,X. Dai,K. Maskell,C. A. Johnson,2001-07-12 Climate Change 2001 The Scientific Basis is the most comprehensive and up to date scientific assessment of past present and future climate change The report Analyses an enormous body of observations of all parts of the climate system Catalogues increasing concentrations of atmospheric greenhouse gases Assesses our understanding of the processes and feedbacks which govern the climate system Projects scenarios of future climate change using a wide range of models of future emissions of greenhouse gases and aerosols Makes a detailed study of whether a human influence on

climate can be identified Suggests gaps in information and understanding that remain in our knowledge of climate change and how these might be addressed This latest IPCC assessment will again form the standard scientific reference for all concerned with climate change and its consequences including students and researchers in all aspects of environmental and atmospheric science and policymakers in governments and industry worldwide

Use of Landscape Sciences for the Assessment of Environmental Security Irene Petrosillo, Felix Müller, K. Bruce Jones, Giovanni Zurlini, Kinga Krauze, Sergey Victorov, Bai-Lian Li, William G. Kepner, 2007-10-24 This book examines environmental security from the perspective of landscape sciences identifying the forces that threaten environmental security at all levels It stems from the last five years of the Pilot Study Project on Use of Landscape Sciences for Environmental Assessment sponsored by the NATO Committee on the Challenges of Modern Society Readers explore concepts of environmental security from subjective and objective perspectives

Geography in America at the Dawn of the 21st Century Gary L. Gaile, Cort J. Willmott, 2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial Geography in America was published in 1989 and has become a benchmark reference of American geographical research during the 1980s This latest volume is completely new and features a preface written by the eminent geographer Gilbert White
