Regional Policy And Local Governments:

Regional Policy in China Marek Świstak, 2022-12-12 Currently much is said about the directions of development of modern China. However, we still do not know what will determine the expected superpower position of the Middle Kingdom. The book is an attempt to answer questions about China's main development challenges from a regional perspective. China aspires to become the country with the largest economy and development potential. This intention may turn out to be in vain if such significant disparities and development imbalances in the regional system are still present in China. The key to understanding the transformation of contemporary China is to recognize the internal determinants of the functioning of both the state and the economy from a regional perspective. A better understanding of the ways of managing regional development disparities may contribute to a more accurate assessment of the dynamics and directions of China's socio-economic development.

Regional Policy Ugo Fratesi, 2023-11-08 Regional policy is an essential in any government's toolkit for promoting socioeconomic prosperity. It comes in many forms and can be used to target the development of weak and stronger regions. This textbook provides comprehensive and systematic coverage of regional policy, dealing with core theories and looking at contemporary challenges in practice, addressing regional policy across the world. Structured in four parts, the book opens with an exploration of regional policy's characterisation, aims, and rationale. The second part is devoted to issues of implementation and the instruments available to policymakers for intervention. The third part addresses regional policy evaluation, as well as statistics and modelling in policymaking. Finally, the book discusses how regional policy is applied in different contexts. Each chapter contains real-life examples of a regional policy topic in action and highlights supplementary topics for advanced readers. With its broad coverage of the subject, *Regional Policy: Theory and Practice* will prove a valuable resource for advanced students, researchers, and practitioners in regional policy, regional economics, economic geography, planning, and public policy.

The Coherence of EU Regional Policy John Bachtler, Ivan Turok, 2013-12-16 This book brings together a rich selection of up-to-date practical experience of EU regional policy from across Europe. It provides different perspectives on the design and operation of regional development strategies under the Structural Funds from people closely involved in studying, managing, or advising on the process at EU national and regional levels. It therefore offers a more comprehensive and detailed understanding of the structural policies than has been available hitherto. This will prove particularly useful to researchers, practitioners, and students interested in European regional policies and processes.

Reshaping Regional Policy Harry Ward Richardson, Chang-Hee Christine Bae, Sang-Chul Choe, 2011-01-01 The book first examines some radical new directions in Korea's regional policies instigated by the newly established permanent Presidential Commission of Regional Development. The existing nine provinces and seven Special Cities (i.e. metropolitan areas) will yield considerable power and budget authority to seven new mega-regions. Many of the ideas behind the new policies, such as territorial cohesion, regional innovation, and regional competitiveness, were inspired from abroad, especially Europe.

There are also changes at the lower urban scale to modify Korea's traditional top-down strategies. Previous policies named balanced national development were targeted at undermining Seoul by redistributing activities including government to other parts of the country under the zero-sum game assumption. The new policies aim to benefit both the Capital Region and other mega regions under a win-win assumption. The book evaluates these approaches. Original contributions from some of the field's foremost scholars including Sang Chul Choe, Sir Peter Hall, Andreas Faludi, Michael Storper, Takashi Onishi, Maryann Feldman, and Sam Ock Park identify priorities for territorial integration, develop ideas for cross-border cooperation, discuss EU policy and policies for overall regional competitiveness, examine the construction of regional entrepreneurial advantage and consider fiscal policy and decision making.

Regional Policy and Planning in Europe Paul Balchin, Ludek Sykora, Gregory Bull, 2002-06-01. Regional Policy and Planning in Europe explores the ways regional policy and planning systems across Europe have been influenced by economic and monetary union, the impending enlargement of the European Union, the devolution of administrative power from central government to regional authorities, the increased importance of environmental and urban issues. Presenting a comprehensive overview of the economic basis of integration, this book examines the evolution of various systems of government planning and forms of devolution.

Regional Policy in Britain Paul N. Balchin, 2021-07-11. Originally published in 1990, this book examines the extent to which the north-south divide in the UK has been a reality in recent years. It also reveals the degree to which the gap between the two parts of Britain has worsened. An issue of enduring relevance, particularly given the political drive to level up the regions, the book focusses particularly on the 1980s, a period when regional assistance became a victim of both monetarism and free market ideology. The book reviews legislation and considers whether regional policy has been effective and consistent. To widen the debate, the author questions some common assumptions about regional imbalance and argues that intraregional disparities and the plight of Inner London were causes of concern no less serious than the problem of the north-south imbalance.

OECD Rural Studies Adapting Regional Policy in Korea Preparing Regions for Demographic Change OECD, 2022-06-23. The study is part of the OECD work stream Preparing Regions for Demographic Change, a megatrend that affects several important dimensions of public policy. The following three of them are particularly relevant for Korea's regions and rural places: i) workforce dimension, ii) social dimension, and iii) governance dimension. The report consists of three chapters.

Local Economic and Employment Development (LEED) Baltic Partnerships Integration, Growth and Local Governance in the Baltic Sea Region OECD, 2007-03-22.
