Before the West Was West Amy T. Hamilton, Tom J. Hillard, 2014-11-01 Before the West Was West examines the extent to which scholars have engaged in depth with pre 1800 western texts and asks what we mean by western American literature in the first place and when that designation originated Calling into question the implicit temporal boundaries of the American West in literature a literature often viewed as having commenced only at the beginning of the 1800s Before the West Was West explores the concrete meaningful connections between different texts as well as the development of national ideologies and mythologies Examining pre nineteenth century writings that do not fit conceptions of the Wild West or of cowboys cattle ranching and the Pony Express these thirteen essays demonstrate that no single unified idea or geography defines the American West Contributors investigate texts ranging from the Norse Vinland Sagas and Mary Rowlandson's famous captivity narrative to early Spanish and French exploration narratives an eighteenth century English novel and a play by Aphra Behn Through its examination of the disparate and multifaceted body of literature that arises from a broad array of cultural backgrounds and influences Before the West Was West apprehends the literary West in temporal as well as spatial and cultural terms and poses new questions about westernness and its literary representation **Nation and Migration**

Juliet Shields, 2016-01-04 Nation and Migration explores the significant contributions of Scotland Ireland and Wales to the development of a British Atlantic literature and culture moving beyond traditional studies of transatlantic literature that focus on what Stephen Spender has described as the love hate relations between the United States and England By allowing England to stand in for the British archipelago Juliet Shields argues recent literary scholarship has oversimplified the processes through which the new United States differentiated itself culturally from Britain and underestimated the impact of migration on British nation formation during the late eighteenth and early nineteenth centuries In short Nation and Migration provides a literary history for a nation that still considers itself a land of immigrants Scottish Irish and Welsh migrants brought with them to the American colonies and early republic stories and traditions very different from those shared by English settlers Americans looked to these stories for narratives of cultural and racial origins through which to legitimate their new nation Writers situated in Britain's Celtic peripheries in turn drew on American discourses of rights and liberties to assert the cultural independence of Scotland Ireland and Wales from the English imperial center The stories that late eighteenth and early nineteenth century Britons and Americans told about transatlantic migration and settlement whether from the position of migrant or observer reveal the tenuousness and fragility of Britain and the United States as relatively new national entities These stories illustrate the dialectical relationship between nation and migration **Reading**

Asian Art and Artifacts Paul Nietupski, Joan O'Mara, 2011-04-04 This book begins with the understanding that in addition to its aesthetic qualities Asian art and material artifacts are expressive of cultural realities and constitute a visible language with messages that can be read interpreted and analyzed Asian art and artifacts are understood in their contexts as windows

into cultures and as such can be used as a powerful pedagogical tool in many academic disciplines The book includes essays by scholars of Asian art philosophy anthropology and religion that focus on objects held in ASIANetwork schools The ASIANetwork collections are reflective of Asian societies historical and religious environments political positions and economic conditions The art objects and artifacts were discovered sometimes in storage and were sometimes poorly understood and variously described as fine art curiosities souvenirs and markers of events in a school s history The chapter authors tell the stories of the collections and the collections themselves tell stories of the collectors This volume is intended for use in many disciplines and its interpretive structures are adaptable to other examples of art and artifacts in other colleges universities and museums An online database of some 2000 art objects held in the ASIANetwork schools collections supplements this book Regional Sketch Plan, 1974, Southern Columbia Regional Planning Commission, Columbia County, Pennsylvania Local Government Research Corporation,1974 *The Oxford History of the Novel in English* J.
