Heita Kawakatsu, A. J. H. Latham

Regional Trends 31 1996 Regional Trends 1996:

The UK Regional-National Economic Problem Philip McCann, 2016-03-10 In recent years the United Kingdom has become a more and more divided society with inequality between the regions as marked as it has ever been In a landmark analysis of the current state of Britain's regional development Philip McCann utilises current statistics examines historical trends and makes pertinent international comparisons to assess the state of the nation The UK Regional National Economic Problem brings attention to the highly centralised top down governance structure that the UK deploys and demonstrates that it is less than ideally placed to rectify these inequalities The North South divide in the UK has never been greater and the rising inequalities are evident in almost all aspects of the economy including productivity incomes employment status and wealth Whilst the traditional economic dominance of London and its hinterland has continued along with relative resilience in the South West of England and Scotland in contrast the Midlands the North of England Northern Ireland and Wales lag behind by most measures of prosperity This inequality is greatly limiting national economic performance and the fact that Britain has a below average standard of living by European and OECD terms has been ignored The UK's economic and governance inequality is unlikely to be fundamentally rebalanced by the current governance and connectivity trends although this definitive study suggests that some areas of improvement are possible if they are well implemented This pivotal analysis is essential reading for postgraduate students in economics and urban studies as well as researchers and policy makers in local and central government

Regional Identity and Behavior Max Sugar, 2012-12-06 The author proposes that the four earliest British North American colonies in the United States promoted the development of distinct regional identities and that this cultural legacy affected identity development as well as behavioral patterns differently in each region He compares data from the North American colonies to the situation in England and discovers that the findings in the latter's eight standard regions are very similar to those in the United States

Housing Need and the Need for Housing Richard Fordham, Stephen Finlay, Justin Gardener, Angus Macmillan, Cecilia Muldoon, Geoff Taylor, Gary Welch, 2019-05-23 First published in 1998 this book addresses a central issue in housing that of need and how to meet it Need refers either to individual household circumstances or to the aggregate requirement for new social and market housing The book develops a new policy mechanism to address the present fragmented policy situation The mechanism now used to allocate finance and new social housing numbers is complex and ineffective in terms of meeting needs The book's proposals are rooted in clear definitions of the key terms especially that of housing need which suffers from lack of any clear definition The analysis is developed using a large database of survey information covering England and Wales The proposed policy mechanism should be of great interest at a time when radical change to local government are being considered The proposed mechanism would greatly increase value for money of public time and expenditure on planning for social housing

Bank Strategies and Challenges in the New Europe E. Gardener, P. Versluijs, 2001-07-10 Both in global and European banking markets banks and

banking are undergoing fundamental changes Deregulation competition technology and other developments have extended the frontiers of banking into the wider and ever expanding financial services industry Bank Strategies and Challenges in the New Europe brings together the work of leading European researchers in banking and finance in a blend of theory practice and empirical study The contributors situate banking within this new environment by exploring key issues such as the impact of technological advances changes in delivery and payment systems EMU and the convergence of EU banking sectors competition regional investment offshore banking capital adequacy and risk management *Foreign Direct Investment and the Regional Economy* Jonathan Jones, Colin Wren, 2016-04-15 The boom in foreign direct investment FDI since the mid 1980s continues to be paramount in policy interest This book reviews the literature on the nature of FDI and reports the recent results on the performance of FDI plants in order to show the implications for regional economic development It presents new evidence on the nature and performance of these plants using a unique dataset that has been constructed and rigorously analyzed by applying econometric techniques The role of FDI in economic development has long been poorly understood and this book contributes to improving understanding and is of direct policy relevance An examination is made of the generation theory and location of FDI as well as its implications for regional and national development In addition to this analysis is made of the issues at the project and plant levels related to investment employment and firm survival **Wales since 1939** Martin Johnes, 2013-01-18 The period since 1939 saw more rapid and significant change than any other time in Welsh history Wales developed a more assertive identity of its own and some of the apparatus of a nation state Yet its economy floundered between boom and bust its traditional communities were transformed and the Welsh language and other aspects of its distinctiveness were undermined by a globalizing world Wales was also deeply divided by class language ethnicity gender religion and region Its people grew wealthier healthier and more educated but they were not always happier This ground breaking book examines the story of Wales since 1939 giving voice to ordinary people and the variety of experiences within the nation This is a history of not just a nation but of its residents hopes and fears their struggles and pleasures and their views of where they lived and the wider world *Regional Trends*, 2000 *World Population Profile*, 1998 Asia Pacific Dynamism 1550-2000 Heita Kawakatsu, A. J. H. Latham, 2002-11 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company Economic Trends, 1997 Small Business D. J. Storey, 2000 Proposed Runway 5L/23R, Proposed New Overnight Express Air Cargo Sorting and Distribution Facility, and Associated Developments, Piedmont Triad International Airport, 2001 *The Insecure Workforce* Edmund Heery, Professor Edmund Heery, John Salmon, 2000-02-24 This unique cross disciplinary collection of essays explores claims that an insecure workforce imposes wide economic and social costs through lower rates of skill formation reduced consumer confidence and family instability Water Resources of North America Asit K. Biswas, 2013-12-17 Leonardo da Vinci the eminent Renaissance scholar and philosopher said water is the driver of nature Many may have considered it to be an overstatement in the past but at the beginning of the third

millennium no sane individual would disagree with Leonardo's view. Water is becoming an increasingly scarce resource for most of the world's citizens. The current trends indicate that the overall situation is likely to deteriorate further at least for the next two decades unless the water profession eschews its existing business as usual practices which can only allow incremental changes to occur. Somewhat surprisingly the water profession as a whole neither realised nor appreciated the gravity of the global water situation as late as 1990 even though a few serious scholars have been pointing out the increasing criticality of the situation from around 1982. For example the seriousness of the crisis was not a major issue either at the International Conference on Water and the Environment which was organised by the UN system in Dublin and also at the UN Conference on Environment and Development at Rio de Janeiro held in 1992 both are considered to be important events for the water sector of the past decade. It is now being increasingly recognised that the Dublin Conference was poorly planned and organised and thus not surprisingly it produced very little if any worthwhile and lasting results.

Business Profile of the Novosibirsk Region of Russia BIA, 2006-12 *Fish and Other Aquatic Resource Trends in the United States* Andrew J. Loftus, 2000 *The Transformation of British Life, 1950-2000* Andrew Rosen, 2003 This book should be of use to undergraduates reading modern British history as well as students of modern British culture and society.

Human Geography of the UK David Graham, Irene Hardill, Eleonore Kofman, 2013-01-11 This new key textbook for introductory courses in human geography provides first and second year undergraduates with a comprehensive thematic approach to the changing human geography of the UK at the end of the twentieth and beginning of the twenty first century. Covering local regional national European and global issues it also explores in some detail topics which are part of the lived experience of undergraduates themselves such as crime unemployment social exclusion and AIDS. User friendly textbook features include chapter introductions summaries and important theoretical principles up to date further reading and key on line sources case studies examples and revision questions.
