Paisley Rekdal, 2000 In these quizzically probing and provocative poems atoms and torture tattoos and laundromats mug shots the theory of light and such personalities as Joe Louis and Bruce Lee join in shaping a simultaneously personal and historical narrative of love family and desire The tension between the public and the private saturates these poems with a breathless energy that carries the reader through Rekdal's self-aware depiction of American culture and romance complete with Harlequin romance novels and an account of her parents' courtship Though Rekdal delights in turning traditional images of love upside down what she finally offers is a grateful and graceful view of humanity which convinces us that as she says in Convocation Nothing is a single moment No private event lacks history
