Regulating Fraud White Collar Crime And The Criminal Process:

Regulating Fraud (Routledge Revivals) Michael Levi, 2013-11-26 First published in 1987 this book discusses white collar or commercial crime which has grown to be a major issue in our society today Looking at research from North America and Britain the book explores the way fraudsters are treated It draws on various disciplines including Economics Law Politics and Sociology in order to show the frequency and impact of different types of fraud In this book Dr Levi introduces the reader to the key areas of debate What pressures influence the law on fraud How do state agencies self regulatory bodies or other professionals police fraud To what extent are money laundering and international organized crime breaking down the distinction between policing of the underworld and the upperworld Dr Levi concludes with an analysis of national and international policy trends in relation to fraud This book will be of interests to students of criminology politics and the sociology of law as well as to practicing lawyers and other professionals in the business sector **Regulating Fraud**

Michael Levi, 1990 Money Laundering and the Proceeds of Crime Mary Michelle Gallant, 2005-01-01 The pursuit of the financial proceeds of criminal activity has become a central theme of contemporary crime control Initially conceived to tackle the global trade in illegal drugs these methods have been more recently employed in the context of terrorism This work offers a judicious account of the national and international strategies which seek to cope with crime by attacking its financial underpinnings The book focuses on the increasingly civil legal orientation of these strategies a sea change from criminal prosecutions to civil legal instruments The author focuses on developments of the civil strategy in the US and the UK beginning with its historical origins The work reveals the contradictions that animate the civil approach to criminal finance and discloses the failure of civil devices as presently constituted to comply with rights It bridges the gap between two jurisdictions prominent in this area the United States and the United Kingdom This comparative element distinguishes the project from other work in the field that focuses on a single jurisdiction Critical in its perspective the work brings balance and reflection to an emergent area of national and international interest *Criminology* Yvonne Jewkes, Gayle

Letherby, 2002-07-24 This text provides a comprehensive introduction for students studying criminology at undergraduate level It includes essential readings editorial commentary with section introductions and suggestions for further reading

The Oxford Handbook of White-Collar Crime Shanna R. Van Slyke, Michael L. Benson, Francis T. Cullen, 2016-03-01 Although white collar crime has caused a substantial amount of damage on both the individual and societal levels it often ranks below street crime as a matter of public concern Thus white collar crime remains an ambiguous and even controversial topic among academics with a relative dearth of scholarly focus on the issue The Oxford Handbook of White Collar Crime offers a comprehensive treatment of the most up to date theories and research regarding white collar crime Contributors tackle a vast range of topics including the impact of white collar crime the contexts in which white collar crime occurs current crime policies and debates and examinations of the criminals themselves The volume concludes with a set of essays

that discuss potential responses for controlling white collar crime as well as promising new avenues for future research. Uniting conceptual theories, empirical research and ethnographic data, the Handbook provides the first unified analytic framework on white collar crime. Given the astronomical aggregate losses to victims, building a more nuanced understanding of the dynamics of white collar crime is a topic of immediate social concern. The definitive resource on white collar crime, this Handbook will be a valuable resource for developing both intellectual and policy related solutions.

The Origins of Modern Financial Crime Sarah Wilson, 2014-06-05. The recent global financial crisis has been characterised as a turning point in the way we respond to financial crime. Focusing on this change and crime in the commercial sphere, this text considers the legal and economic dimensions of financial crime and its significance in societal consciousness in twenty first century Britain. Considering how strongly criminal enforcement specifically features in identifying the post crisis years as a turning point, it argues that nineteenth century encounters with financial crime were transformative for contemporary British societal perceptions of crime and its perpetrators and have lasting resonance for legal responses and societal reactions today. The analysis in this text focuses primarily on how Victorian society perceived and responded to crime and its perpetrators with its reactions to financial crime specifically couched within this. It is proposed that examining how financial misconduct became recognised as crime during Victorian times makes this an important contribution to nineteenth century history. Beyond this, the analysis underlines that a historical perspective is essential for comprehending current issues raised by the fight against financial crime represented and analysed in law and criminology as matters of enormous intellectual and practical significance, even helping to illuminate the benefits and potential pitfalls which can be encountered in current moves for extending the reach of criminal liability for financial misconduct. Sarah Wilson's text on this highly topical issue will be essential reading for criminologists, legal scholars and historians alike. It will also be of great interest to the general reader.

The **Origins of Modern Financial Crime** was short listed for the Wadsworth Prize 2015.

Countering Tax Crime in the European Union Umut Turksen, 2021-03-25. This book seeks durable solutions for tax crime and is a great resource for the development of knowledge, policy and law on tax crime. The book uniquely blends current practice with new approaches to countering tax crime. With insights from the EU funded project PROTAX which conducts advanced research on tax crimes, the book comparatively analyses the EU's tax crime measures and the Ten Global Principles (TGP) on fighting tax crime by the Organisation for Economic Cooperation and Development (OECD). The study critically examines how the TGP can serve as minimum standards for the EU to counter tax crime such as tax evasion and tax fraud. The study also analyses how the anti tax avoidance package can be graduated to fight tax crime in the EU. When escalated, the strengths of the EU tax crime measures and TGP can form a fortress in which criminal law can be empowered to mitigate tax crimes with greater effect. The book will be particularly useful for end user stakeholders such as tax policy makers, LEAs, professional enablers as well as academics and students interested in productive interaction between tax, criminal and administrative laws.

Marxism and

Criminological Theory Mark Cowling, 2008-11-03 This volume looks at Marxist thought in criminology the work of Willem Bonger Georg Rusche and Otto Kirchheimer and assesses the role of Marxist analysis in areas such as Critical Criminology and Left Realism Arguing that Marxism is relevant in the post Soviet era it offers a toolkit of Marxist theories and how to use them

Corporate Crime Frank Pearce, Laureen Snider, 1995-01-01 Corporate Crime is a collection of original papers by many of the world's leading experts on corporate crime and covers its causes extent and control

Encyclopedia of White-Collar & Corporate Crime Lawrence M. Salinger, 2005 In a thorough reappraisal of the white collar and corporate crime scene this Second Edition builds on the first edition to complete the criminal narrative in an outstanding reference resource

The Oxford Handbook of Organized Crime Letizia Paoli, 2014-09-26 While the success of national and international law enforcement cooperation to suppress organized crime means that stable large scale criminal organizations like the Cosa Nostra or the Japanese Yakuza have seen their power reduced organized crime remains a concern for many governments Economic globalization and the easing of restrictions on exchanges across borders now provide ample opportunity for money making activities in illegal markets Policies designed to stop illegal market flows often shift these activities to new places or create new problems as the U S led war on drugs spread production and trafficking to a number South and Central American countries The Oxford Handbook of Organized Crime provides informed authoritative and comprehensive overviews of these issues and other principal forms of organized crime as well as the type and effectiveness of efforts to prevent and control them Leading scholars from criminology law sociology history and political science discuss the key concepts history and methods of organized crime the major actors and interactions involved in it the markets and activities frequently associated with organized crime and the policies designed to combat it Individual chapters on criminal organizations and specific activities or markets comprise the heart of the volume The chapters on actors provide the history analyze the structure and activities and assess the strength and future prospects of each organization Articles on particular markets address the patterns of activity identify the most affected regions and where possible provide estimated revenues discuss factors promoting the activity and disclose information on the victims and harms caused The Oxford Handbook of Organized Crime delivers a systematic high quality and truly global approach to the topic and with it a more complete understanding of organized crime in its many forms for researchers government officials and policymakers

Financing Terrorism Mark Pieth, 2002 In declaring the war against terrorism President George W Bush also declared war on the financing of terrorism In this book bankers regulators and academics pose a variety of questions from their individual perspectives What can financial institutions realistically contribute to the suppression of terrorist financing Can individual rights be protected in these circumstances These questions are analyzed by experts who come up with some thought provoking answers

Masters of Paradise Alan A. Block, 2020-01-30 This is the story of organized crime's penetration of the islands and the corruption of its high officials during the time The Bahamas become politically independent of Great

Britain It describes secret U S Internal Revenue Service operations aimed at American criminals involved in Bahamian based tax scams and similar crimes Block paints a devastating picture of a symbiotic relationship among off shore tax havens in The Bahamas sophisticated American criminals and complacent public officials in the United States During the 1960s and 1970s the I R S launched major investigations into American organized crime and the subterranean economy of The Bahamas Block s access to the private papers of many of the key players in these affairs has given him a unique perspective He has uncovered details of crime corruption and bureaucratic infighting within and among the U S Treasury and Justice Departments that have been largely unrecognized by previous researchers Block shows how important links in the international traffic in cocaine were forged in the Bahamas in full view of American officials Masters of Paradise raises major questions about American law enforcement officials commitment to fighting complex international crime during the 1960s and the 1970s While there have been other studies of tax havens money laundering and offshore investigations Block s access to information and his grasp of its meaning is unique Professionals interested in the history and sociology of organized crime and the underground economy will find this book eye opening General readers interested in organized crime and political corruption will find it absorbing

Economic Crime Mark Button,Branislav Hock,David Shepherd,2022-04-24 This book is the first attempt to establish economic crime as a new sub discipline within criminology Fraud corruption bribery money laundering price fixing cartels and intellectual property crimes pursued typically for financial and professional gain have devastating consequences for the prosperity of economic life While most police forces in the UK and the USA have an economic crime department and many European bodies such as Europol use the term and develop strategies and structures to deal with it it is yet to gain traction as a widely used term in the academic community Economic Crime From Conception to Response aims to change that and covers definitions of the key premises of economic crime as the academic sub discipline within criminology an overview of the key research on each of the crimes associated with economic crime public private and global responses to economic crime across its different forms and sectors of the economy both within the UK and globally This book is an essential resource for students academics and practitioners engaged with aspects of economic crime as well as the related areas of financial crime white collar crime and crimes of the powerful Criminology Tim

Newburn,2017-02-22 Comprehensive and accessible Tim Newburn s bestselling Criminology provides an introduction to the fundamental themes concepts theories methods and events that underpin the subject and form the basis for all undergraduate degree courses and modules in Criminology and Criminal Justice This third edition includes A new chapter on politics reflecting the ever increasing coverage of political influence and decision making on criminology courses New and updated crime data and analysis of trends plus new content on recent events such as the Volkswagen scandal the latest developments on historic child abuse as well as extended coverage throughout of the English riots A fully revised and updated companion website including exam review and multiple choice questions a live Twitter feed from the author

providing links to media and academic coverage of events related to the concepts covered in the book together with links to a dedicated textbook Facebook page Fully updated to reflect recent developments in the field and extensively illustrated this authoritative text written by a leading criminologist and experienced lecturer is essential reading for all students of Criminology and related fields Find online resources for both students and instructors at <https://routledge-textbooks.com/textbooks/9781138643130>

Tax Evasion and the Rule of Law in Latin America Marcelo Bergman, 2010-11-01 Few tasks are as crucial for the future of democracy in Latin America and indeed in other underdeveloped areas of the world as strengthening the rule of law and reforming the system of taxation In this book Marcelo Bergman shows how success in getting citizens to pay their taxes is related intimately to the social norms that undergird the rule of law The threat of legal sanctions is itself insufficient to motivate compliance he argues That kind of deterrence works best when citizens already have other reasons to want to comply based on their beliefs about what is fair and about how their fellow citizens are behaving The problem of free riding which arises when cheaters can count on enough suckers to pay their taxes so they can avoid doing so and still benefit from the government's supply of public goods cannot be reversed just by stringent law because the success of governmental enforcement ultimately depends on the social equilibrium that predominates in each country Culture and state effectiveness are inherently linked Using a wealth of new data drawn from his own multidimensional research involving game theory statistical models surveys and simulations Bergman compares Argentina and Chile to show how in two societies that otherwise share much in common the differing traditions of rule of law explain why so many citizens evade paying taxes in Argentina and why in Chile most citizens comply with the law In the concluding chapter he draws implications for public policy from the empirical findings and generalizes his argument to other societies in Africa Asia and Eastern Europe

Just Boys Doing Business? Tim Newburn, Elizabeth A Stanko, 2013-11-05 What is it about crime that makes it men's work Can we imagine masculinity without crime This is the first book of its kind to bring contributors from three continents together to examine the relationship between masculinity and crime Covering such areas as policing prisons violence against women homicide white collar crime and male victimisation this book will force us to rethink many aspects of masculinity and crime

Reconstructing Criminal Law Nicola Lacey, Celia Wells, Oliver Quick, 2003-09 The authors analyse central aspects of criminal law in the context of the assumptions surrounding it and employ a number of critical approaches including a feminist perspective to give insights into the current state of the law

Pan-African Issues in Crime and Justice Biko Agozino, 2017-07-05 Criminology is an established discipline yet non-Western criminology is still relatively ignored in the literature Drawing upon materials from countries in Africa the Caribbean North and South America and Europe this stimulating book reflects on the experiences of people of African descent to offer a convergence of criminologies in and outside the West

Histories of Crime Anne-Marie Kilday, David Nash, 2010-06-03 Providing a rounded and coherent history of crime and the law spanning the past 400 years Histories of Crime explores the

evolution of attitudes towards crime and criminality over time Bringing together contributions from internationally acknowledged experts the book highlights themes current issues and key debates in the history of deviance and bad behaviour including Marital cruelty and adultery Infanticide Murder The underworld Blasphemy and moral crimes Fraud and white collar crime The death penalty and punishment Individual case studies of violent and non violent crime are used to explore the human means and motives behind criminal practice Through these the book illuminates society s wider attitudes and fears about criminal behaviour and the way in which these influence the law and legal system over time This fascinating book is essential reading for students and teachers of history sociology and criminology as well as anyone interested in Britain s criminal past
