- Better Legislation

New institutions and new tools (or old tools used in new ways)

Regulatory Policy And Practices Regulating Better And Regulating Less

OECD

Regulatory Policy And Practices Regulating Better And Regulating Less:

Regulatory Policy and Practices Fred Thompson, L. R. Jones, 1982 *Regulation, Organizations, and Politics* Lawrence S. Rothenberg, 1994 A major study of federal regulation *OECD Reviews of Regulatory Reform Regulatory Policy in Korea Towards Better Regulation* OECD, 2017-05-23 Regulatory reform has been a top priority in Korea for several successive administrations This review identifies a number of areas where improvements could help Korea reap the full benefits of the reforms introduced so far **Encyclopedia of Business Ethics and Society** Robert W. Kolb, 2007-08-21 2008 Best Reference Library Journal As a field of study business ethics aims to specify the principles under which businesses must operate to behave ethically Thus business ethics focuses on such issues as those that have recently attracted so much public scrutiny executive compensation honesty in accounting transparency treatment of stakeholders and respect for the environment These are in fact perennial questions that accompany the long history of human economic activity and that will also be present through an indeterminate future The five volumes of this ultimate resource recognize the inherent unity between business ethics and business and society that stems from their shared primary concern with value in commerce This Encyclopedia spans the relationships among business ethics and society by including more than 800 entries that feature broad coverage of corporate social responsibility the obligation of companies to various stakeholder groups the contribution of business to society and culture and the relationship between organizations and the quality of the environment Key Features Embraces commerce in all of its ethical and social dimensions Offers comprehensive and fairly lengthy essays on such crucial topics as justice freedom stakeholder theory and regulation Provides very brief essays that introduce important personages in the field while other similarly brief entries explain the nature and function of various organizations Includes contributions from respected authorities in the fields of management psychology sociology communication political science philosophy and other related fields Cross references to other entries in the Encyclopedia and includes a list of references and suggested readings for each article Key Themes Accounting Applied Ethics Corporate Management and the Environment Corporate Powers Organization and Governance Corporations in the Social Sphere Customers and Consumers Economics and Business Employee Issues Environmental Thought Theory Regulation and Legislation Ethical Thought and Theory Finance Gender Age Ethnicity Diversity and Sexual Preference Information Systems International Social and Ethical Issues Justice Legislation and Regulation Management Marketing Organizations Political Theory Thought and Policy Problematic Practices Rights The Encyclopedia of Business Ethics and Society is the premier reference tool for students scholars practitioners and others interested in gaining knowledge of the role business plays with regard to the environment in which it exists making it a must have resource for all academic libraries *Better Regulation Practices across the European Union* 2022 OECD, 2022-06-28 Laws and regulations affect the daily lives of businesses and citizens It is important that they are designed in a way that takes account of their social environmental and business impacts and ensures they remain relevant in

today's fast changing context The second edition of the Better Regulation Practices across the European Union report analyses recent developments and current practices for improving the quality of laws and regulations across all 27 EU Member States and the European Union Recommendations and Reports Administrative Conference of the United States, 1994 International Contracts and National Economic Regulation: Dispute Resolution Through International Commercial Arbitration Mahmood Bagheri, 2000-12-06 The growth of national economic regulation and the process of globalisation increasingly expose international transactions to an array of regulations from different jurisdictions These developments often contribute to widespread international contractual failures when parties claim the incompatibility of their contractual obligations with regulatory laws The author challenges conventional means of dispute resolution and argues for an interdisciplinary approach whereby disciplines such as international economic law conflict of laws contract law and economic regulations are functionally united to resolve international and multifaceted regulatory disputes He identifies the normative foundation of contract law as an important determinant in this process contending that contract law is essentially neutral and underpinned by the concept of corrective justice while economic regulations are mainly prompted by distributive justice Applying this corrective distributive justice dichotomy to international contracts the author critically assesses major conflict of laws approaches such as proper law the Rome Convention and governmental interest analysis which could disregard either public interest or private rights The author taking these theories into account proposes an alternative two dimensional interest analysis approach He tests the viability of this approach with reference to arbitral awards and court decisions in various jurisdictions and concludes that it uniquely fits into the structure of international commercial arbitration In adopting this approach arbitrators would take into account both corrective and distributive justice and to the extent that corrective justice prevails would be able to avert a total failure of the contract **Governing through Regulation** Eric Windholz, 2017-06-26 Over the past forty years numerous theoretical advances have been made From Ayres and Braithwaite's ground breaking work on responsive regulation we have seen models of smart regulation regulatory governance and regulatory capitalism emerge to capture the growing prevalence and importance of regulation in modern liberal Western capitalist societies Important advances also have been made in the practice of regulation with regulators evolving from traditional enforcement focussed command and control models to being modern regulators with a suite of diverse and innovative regulatory tools at their disposal The book presents and critically examines these theoretical and practical developments from the perspective of governments who design regulations and the regulators that deploy them In doing so the book examines the various forces and interests that influence and shape the regulatory endeavour and the practical challenges facing governments and regulators when deciding whether and how to regulate This volume is a study of regulation in context in the context of the public policy it is designed to deliver the law that enables shapes and holds it to account and the evolving societal and institutional frameworks within which it takes place Aimed to provide innovative cross

disciplinary conceptual frameworks that regulators regulatees those whom regulation is intended to benefit and academics might employ to better understand and undertake the regulatory endeavour This will be of great interest to researchers educators advanced students and practitioners working in the fields of political science public management and

administration and public policy **Better Regulation in Europe: Austria 2010** OECD,2010-09-15 This report maps and analyses the core issues which together make up effective regulatory management for Austria laying down a framework of what should be driving regulatory policy and reform in the future **Better Regulation in Europe: France 2010**

OECD,2010-09-17 This report maps and analyses the core issues which together make up effective regulatory management for France laying down a framework of what should be driving regulatory policy and reform in the future **Better**

Regulation in Europe: Belgium 2010 OECD,2010-07-01 This report maps and analyses the core issues which together make up effective regulatory management for Belgium laying down a framework of what should be driving regulatory policy and reform in the future **Better Regulation in Europe: Sweden 2010** OECD,2010-07-01 This report maps and analyses

the core issues which together make up effective regulatory management for Sweden laying down a framework of what should be driving regulatory policy and reform in the future **Better Regulation in Europe: Greece 2012**

OECD,2012-12-04 This review of regulation in Greece maps and analyses the core issues which together make up effective regulatory management laying down a framework of what should be driving regulatory policy and reform in the future

Private Regulation and Enforcement in the EU Madeleine de Cock Buning,Linda Senden,2020-06-25 Globalisation and technological innovation have been fuelling the need for increasing levels of trust in private actors such as companies or special interest groups to regulate and enforce significant aspects of people s daily lives from environmental and social protection to the areas of food safety advertising and financial markets This book investigates the trust vested in private actors from the perspective of European citizens It answers the question of whether private actors live up to citizens expectations or whether more should be done as to the safeguarding of citizens interests Several cross cutting studies explore how private regulation and enforcement are embedded in EU law The book offers an innovative approach to private regulation and enforcement by focusing on the specific EU context which unlike the national and transnational ones has not yet been widely explored This context merits a stand alone analysis because of the unique normative framework of the EU as a particular polity itself but also in relation to its Member States With an overall analysis of the main aspects of private regulation and enforcement across different policy fields of the EU the book adds a missing tile to the mosaic of public private governance studies Better Regulation Stephen Weatherill,2007-06-28 The discourse of Better Regulation is a hot topic intimately associated with the drive for cost savings and a more efficient economy In the UK and in the EU rule makers have lately endeavoured to achieve a more satisfactory balance between the demands of proper protection from market failure and inequity on the one hand and commercial freedom and the potential for innovation on the other But who is the

regulator listening to and what effect does this have on the regulatory pattern governing the integrating EU market What is best practice in the matter of regulatory assessment The essays in this collection explore these and other questions and will foster greater understanding of UK and EU regulation the accountability issues involved and problems of enforcement It is no coincidence that since efforts to construct a Constitution for Europe have stalled the attention of policy makers politicians and the business community has turned instead to the quest for Better Regulation or perhaps it might be said a Better European Union

Public Policy and Economic Institutions Melvin J. Dubnick, Alan R. Gitelson, 1991 **Introduction to Governance, Government and Public Administration** Aimee L. Franklin, Jos C.N. Raadschelders, 2023-07-26 This undergraduate textbook introduces students to the subjects of public administration government and governance It provides an accessible and informative overview of the various substantive areas that comprise the study of public administration drawing on examples and case studies from around the world The opening chapters outline some of the basics of the political administrative institutional arrangements for governing The following chapters introduce students to the fundamentals of public administration Study questions supplemental guidance for instructors and a glossary of terms will be useful for both students and teachers

Risk Analysis and Governance in EU Policy Making and Regulation Bernardo Delogu, 2016-05-02 This book provides an easy but comprehensive and rigorous access to the main concepts terminology methods and procedures of risk analysis intended for all those involved in the EU policy and regulatory decision making on risks It establishes a common ground of knowledge which enables a more informed dialogue on risks a closer collaboration between decision makers and scientists and a better appraisal of the potential and limits of risk science The book also brings together in an accessible way much multidisciplinary knowledge which had been dispersed over many technical documents and specialist books The EU is in the front line of health safety and environmental risk management GMOs food safety hazardous chemicals climate change radiation hazards are just a few of the popular risk issues addressed by the EU through policy and regulatory measures The risk analysis paradigm including risk assessment management and communication has been at the core of the EU decision making for a long time already EU Institutions strive for a science based approach to risk management Nevertheless the dialogue and collaboration on risk issues between policy makers stakeholders and scientists are still difficult and the potential and limits of science in support of decision making as well as the basic concepts of risk analysis are not fully understood outside the narrow specialist circles

Better Regulation in Europe: Portugal 2010 OECD, 2010-03-26 Maps and analyses the core issues which together make up effective regulatory management in Portugal laying down a framework of what should be driving regulatory policy and reform in the future **Public Policy Issues for Management** Rogene A. Buchholz, 1992 Managerial in focus this volume explores the public policy concept as an integrating theme for developing business policies and strategies
