

Rehabilitation Of The Aging And Elderly Patient

J Dewey

Rehabilitation Of The Aging And Elderly Patient:

Rehabilitation of the Aging and Elderly Patient Susan J. Garrison,1994 **A Comprehensive Guide to Rehabilitation of the Older Patient E-Book** Shane O'Hanlon,Marie Smith,2020-11-17 This book will help all health professionals involved in the rehabilitation of older people to provide their patients with the highest possible quality of life and autonomy Expanded and rewritten by a diverse team of authors the text is suitable for doctors in all specialties that see older patients as well as nurses physiotherapists occupational therapists psychologists dietitians speech and language therapists pathologists physician associates assistants healthcare assistants and many others including patients family members and students The book is written in an accessible no jargon style and provides a patient centred perspective on recent advances in the field of rehabilitation an increasingly important aspect of care for older people Clear explanations of relevant concepts ageing frailty comprehensive assessment rehabilitation Broad coverage of all aspects of rehabilitation including different settings Explanations of input from multiple health professionals Problem based section that highlights solutions to common issues during rehabilitation Specialty specific areas of rehabilitation such as stroke rehabilitation cancer rehabilitation post operative rehabilitation trauma rehabilitation in the community Practical section explaining how to plan discharge safely run a care planning meeting organize home supports continue rehabilitation at home Evidence based but accessible writing complemented by practical clinical wisdom Aimed at a broader audience applicable to all health professionals who see older patients Resources for patients and their caregivers Multiple choice questions to test knowledge

Rehabilitation Medicine for Elderly Patients Stefano Masiero,Ugo Carraro,2017-09-04 This book clearly explains when and how different rehabilitation techniques should be applied in the aging patient thereby enabling readers to identify and apply those rehabilitation strategies that will maximize quality of life and functional independence in individual cases It is specifically designed for ease of consultation and rapid retrieval of the information most relevant to clinical practice Prominence is given to the benefits of a multidisciplinary approach to rehabilitation with discussion of a very wide range of aspects of rehabilitation in different disease settings The breadth of coverage is illustrated by the attention paid to less commonly addressed topics such as visual and hearing rehabilitation the role of robotics and 3D imaging techniques variations in approach among health care systems and rehabilitation in end of life care The authors are international academic experts in their fields guaranteeing a high scientific standard throughout This manual will be an invaluable tool and source of knowledge for geriatricians and psychiatrists but will also appeal to a wider range of clinicians practitioners and students **Rehabilitation of the Older Person** Amanda J. Squires,Margaret B. Hastings,2002 Readers will be able to gain knowledge of how to manage older people with difficult conditions and in different environments Much of the work of the professionals in this area has changed as a result of NHS reforms new practices and patient demands *Geriatric Rehabilitation* Jennifer M. Bottomley,Carole Bernstein Lewis,2003 This completely updated third edition of Geriatric

Rehabilitation provides a comprehensive look at the specific needs of elderly patients and the practical components of their rehabilitation. The new reader friendly format and improved illustrations enhance the overall learning experience and help to clearly convey the essential theoretical and clinical points. **BOOK JACKET** **Geriatric Rehabilitation Manual** Timothy L. Kauffman, John O. Barr, Michael L. Moran, 2007-01-01. This manual gives step by step guidance on the evaluation and treatment of geriatric diseases and disorders. It covers incidence of disorders, diagnostic tests, associated diagnoses, clinical implications for mobility and rehabilitation techniques. It offers a broad overview of the effects of aging on all body systems. Special geriatric considerations for laboratory assessment, thermoregulations and pharmacology are also discussed. This manual is a resource for all training clinicians in geriatric care and is a quick reference guide for students and practitioners in this field.

A Comprehensive Guide to Geriatric Rehabilitation E-Book Timothy L. Kauffman, Ronald W. Scott, John O. Barr, Michael L. Moran, 2014-09-05. Now in its third edition, this trusted clinical guide enables both the busy practitioner and student to review or to learn about a range of pathologies, conditions, examinations, diagnostic procedures and interventions that can be effectively used in the physical rehabilitation of older people. It presents a broad overview of age related physiological changes as well as specific professional discipline perspectives. Organized into eleven distinct and interrelated units, the first unit begins with key anatomical and physiological considerations seen with aging which have significant impact on the older person. The second and third units go on to review important aging related conditions and disorders of the musculoskeletal and neuromuscular/neurological systems respectively. Neoplasms commonly encountered in older people are the focus of the fourth unit, while aging related conditions of the cardiovascular, pulmonary, integumentary and sensory systems are presented in units five through seven. Unit eight highlights a range of specific clinical problems and conditions commonly encountered with older patients. Critically, all of these units emphasize important examination and diagnostic procedures needed for a thorough evaluation and stress interventions that can be of significant benefit to the older patient. The ninth unit presents select physical therapeutic interventions that are especially important in managing rehabilitative care. Key societal issues related to aging are discussed in the tenth unit. Finally, the concluding eleventh unit focuses on the successful rehabilitation team that includes both professional and non professional caregiver members. A trusted guide to the conditions and problems faced when evaluating and treating geriatric patients. Extensive coverage over 84 chapters, each written by an expert in the field. Includes imaging, vision and the aging ear. Cross referenced providing the complexity and inter relatedness of co morbidities common to aging patients. Collaborative international perspective. Chapters on the aging spine, frailty, safe pilates for bone health, health care for older people. Additional renowned editor Ronald W. Scott. Revised title to reflect the comprehensive scope of content covered previously, entitled *Geriatric Rehabilitation Manual*. *Promoting Health and Wellness in the Geriatric Patient, An Issue of Physical Medicine and Rehabilitation Clinics of North America* David A. Soto-Quijano, 2017-10-25. This issue of *Physical Medicine and Rehabilitation Clinics* edited by Dr David A. Soto-Quijano will

cover the Promotion of Health and Wellness in the Geriatric Patient Topics discussed in the volume include but are not limited to Benefits of Exercise in the Older Population Alternative Exercise Modalities and Its Effect in Older Populations Neurocognitive Decline of the Elder Patient Effects of Spirituality in the Quality of Life of the Elderly Clinical Pharmacology and the Risks of Polypharmacy in the Geriatric Patient The Competitive Senior Athlete Rehabilitation Needs of the Elderly patient with Cancer and Aging with Spinal Cord Injury among others

Aging, Heart Disease, and Its Management

Niloo M. Edwards, 2002-11-14 Reviews the best therapies and surgical techniques available to provide quality care for the elderly cardiac patient and of those areas that require further research The authors detail preventive therapies and the cardiovascular syndromes that disproportionately afflict the older individual including arrhythmias particularly atrial fibrillation syncope heart failure particularly diastolic heart failure and ischemic heart disease They also delineate the surgical management of the heart patient with discussions of postoperative management and its complications and of specific surgical procedures such as coronary artery bypass grafting valve surgery pacemaker and defibrillators and surgical management of heart failure

Cardiovascular Disease and Health in the Older Patient

David J. Stott, Gordon D. O. Lowe, 2012-11-08 As improvements in living conditions and advances in modern medicine lead to increased life expectancy and the number of older adults world wide continues to grow so the number of older individuals with cardiac and cerebrovascular disease is rising Over eighty per cent of all cardiovascular disease related deaths now occur in patients aged sixty five or older The high prevalence of co morbidities frailty and cognitive decline amongst older patients requires that a holistic approach to the management of cardiovascular disease is required Written and edited by leading experts in the field Cardiovascular diseases and health in the older patient provides scholarly evidence and data which explain why treating an older patient with cardiovascular disease is often different from treating a young or middle aged patient with the same disease The chapters have been updated and expanded from the cardiovascular section of the renowned Pathy's Principles and Practice of Geriatric Medicine edited by Alan J Sinclair John E Morley and Bruno Vellas The revised chapters contain updated evidence and references to recent clinical practice guidelines in Europe and North America this book provides complete authoritative information on this major cause of death poor health and disability in old age Covering the epidemiology pathophysiology and management of cardiovascular disease in the older patient the book is an excellent reference at all clinical and pre clinical levels and will appeal particularly to geriatricians cardiologists and GPs as well as cardiac specialist nurses and practice nurses With a Foreword by Stuart M Cobbe

Reichel's Care of the Elderly

Joseph J. Gallo, William Reichel, 1999 Geared specifically for the family practitioner this text provides clinical approaches to the whole geriatric patient Topics covered in this fifth edition include behavioural disturbances in dementia driving and the older adult and clinical practice guidelines in the elderly

Rehabilitation of Older People

Amanda J. Squires, 2013-11-11 Attitudes to rehabilitation of older people particularly in departments specializing in care of the elderly have become

increasingly positive in recent years A growing number of professionals see the speciality as a necessary career experience and this needs encouragement if the professions are to be prepared for the increasing number of older people who will require help from their members The purpose of this book is to bring together the skills and experience of experts in several fields of rehabilitation to provide a primer for those needing the knowledge of how to manage the older person in whatever environment or speciality they present Readers will be able to enhance their own knowledge already gained in a variety of fields and play an immediate part in the team The information will also be of value to interested carers agencies contributing to the widened provision of service to older people and their purchasers The continuing transformation of healthcare delivery world wide resulting from changing user and provider expectations and government policies is altering approaches to and delivery of rehabilitation services These current and envisaged future changes are addressed by each discipline using the UK National Health Service as an example

Clinical Practice Guideline, 1995 Management of Cancer in the Older Patient E-Book Arash Naeim, David Reuben, Patricia Ganz, 2011-08-17 Management of Cancer in the Older Patient by Drs Arash Naeim David Reuben and Patricia Ganz offers the help you need to effectively diagnose refer and manage cancer in geriatric patients You ll see how to provide effective cancer screening refer your patients to the right oncologist deal with comorbidities frailties and other complications navigate end of life issues and much more A templated user friendly format makes it easy to find and apply the answers you need See how to best manage geriatric cancer patients with help from leading specialists in both geriatrics and oncology Make informed decisions as to when to refer patients to specialists Provide the supportive care your patients and their families need on issues such as such as mental health pain fatigue nausea insomnia Be prepared to help cancer survivors navigate their after treatment care including adjuvant therapy side effects second cancers quality of life and other concerns Offer accurate guidance on ethical issues like competency end of life hospice the role of the caregiver and more

Handbook of Clinical Nutrition and Aging Connie W. Bales, Christine S. Ritchie, 2009-04-09 As the older adult population continues to grow so will the prevalence and incidence of age related disorders In Handbook of Clinical Nutrition and Aging Second Edition the editors and contributors a panel of recognized academic nutritionists geriatricians clinicians and scientists have thoroughly updated and revised their widely acclaimed first edition with fresh perspectives and the latest scientific and clinical developments in age associated disease New chapters tackle ecological perspectives on adult eating behavior and behavioral theories applied to nutritional therapies in aging while topics such as Sarcopenia and Cachexia are discussed in greater detail The authors outline the physiological basis for each disorder provide the latest information about the interaction of nutrition with these conditions and review the potential routes and mechanisms for clinical intervention Timely and authoritative Handbook of Clinical Nutrition and Aging Second Edition is a unique comprehensive resource and will prove a valuable guide to all nutritionists physicians nurses dietitians and speech language and occupational therapists who provide care for the rapidly expanding aging population The

Geriatric Patient Mary C. Singleton, Eleanor F. Branch, 1989 Plan realistic and effective treatments for your elderly patients with a more thorough understanding of their needs and the ailments that commonly afflict them The compelling presence of geriatric patients in occupational therapy practice has led professionals from a wide variety of health care specialties to address some of the conditions more commonly encountered in clinical practice The Geriatric Patient is an enlightening volume that highlights assessment and treatment techniques for mental and physical ailments and explores typical attitudes held toward aged people and aging by health care professionals that can have serious implications for the care provided to elderly persons A number of practical topics are discussed the assessment of nutritional status and needs of geriatric patients the care of patients suffering from a variety of physical and mental ailments such as osteoporosis herpes zoster balance problems and Alzheimer s disease and general approaches to the care of the aging patient **Geriatric Rehabilitation**

David X. Cifu, Henry L. Lew, Mooyeon Oh-Park, 2018-01-20 Rehabilitation of the geriatric patient poses a unique set of challenges and conditions often not seen in younger patients but which are common among older adults This quick practical resource helps physiatrists and other members of the rehabilitation team overcome these challenges covering the wide range of topics necessary to provide the highest level of care to this rapidly increasing population Presents practical guidance on arthritis and joint replacement polypharmacy and mobility swallowing dysfunction nutritional recommendations psychiatric and cognitive disorders assistive technology and more Covers the physiologic changes and epidemiology of aging osteoporosis and fragility fractures fall prevention and intervention and prevention of hospital acquired deconditioning Consolidates today s available information on geriatric rehabilitation into one convenient resource **A Clinical Approach to Geriatric Rehabilitation**

Jennifer Bottomley, Carole Lewis, 2024-06-01 The field of geriatric rehabilitation is constantly changing due to the discovery of new evidence based evaluation and treatment strategies as well as the continual support or refutation of older theories and practices Now in its Fourth Edition A Clinical Approach to Geriatric Rehabilitation has been updated to be at the forefront of these changes and includes free video content from MedBridge and a discount on a MedBridge subscription to geriatric rehabilitation courses offered by the authors Drs Jennifer M Bottomley and Carole B Lewis have compiled the plethora of available scientific research on geriatric populations and combined it with their years of actual clinical practice Together this makes this text a complete evidence based guide to the clinical care of geriatric patients and clients The first part of A Clinical Approach to Geriatric Rehabilitation Fourth Edition tackles applied gerontological concepts providing the general knowledge base necessary for treating geriatric patients Topics in this section include patient evaluation an exploration of nutritional needs and age related changes in physiology and function as well as many other foundational areas In the second section topics become more focused on patient care concepts like neurologic considerations cardiopulmonary and cardiovascular considerations and establishing community based screening programs In the final section chapters center on administration and management including important subjects such as attitudes ethics and legal

topics as well as consultation and research New and updated in the Fourth Edition Pearls section for succinct highlights of the content within each chapter The latest evidence based practice interventions with complete references for further reading Updated graphics pictures and diagrams to illustrate the content Content summaries and streamlined text for enhanced readability Updated case studies to exemplify clinical decision making Designed to provide valuable real life clinical knowledge A Clinical Approach to Geriatric Rehabilitation Fourth Edition gives physical therapists an evidence based guide to the clinical aspects of rehabilitative care in older adult patients and clients **Oxford Textbook of Neurorehabilitation** Volker Dietz,Nick S. Ward,2020 Updated to reflect recent developments in the field Oxford Textbook of Neurorehabilitation provides an understanding of the theoretical underpinnings of the subject along with a clear perspective on making treatment decisions on an individual basis This is an indispensable book for those working with patients requiring neurorehabilitation **Caring for the Older Veteran** United States. Veterans Administration,1984
