Psychedelic Immortality: Nietzschean Perspectives on Reincarnation, Femtheogens, and Philosophy Joseph I. Breidenstein Jr., 2025-09-02 Recent research has revealed a psychedelic inspiration for Nietzsche's philosophy and far from being a novelty in the history of philosophy there is significant evidence that several of the first western philosophers ingested psychedelics as well In his first book Joseph I Breidenstein Jr PhD maintained that western philosophy began as what we today would call a feminist religious reformation in the sense that many prominent presocratic philosophers were reviving a paleo neolithic goddess centered religiosity of rebirth within the largely patriarchal and death glorifying culture of archaic Greece And in this book Dr Breidenstein Jr proposes that the presocratics psychedelic reincarnationist feminine model of education and or worldview is better suited for democracy in the twenty first century than the economic model of education that takes the west's mainstream materialistic secular worldview for granted For several decades now researchers have acknowledged both that the empirical evidence for reincarnation is overwhelming and that psychedelics can evoke past life recollections but explanations for either reincarnation or how psychedelics do this have yet to be offered By combining Nietzsche's philosophy with the work of other thinkers Psychedelic Immortality both provides explanations for each of these phenomena and explores how situating education and democracy within the context of reincarnation can incite a renaissance of American culture and politics For Nietzscheans and philosophers in particular this book illustrates the contemporary relevance of two neglected aspects of Nietzsche scholarship i e psychedelics and reincarnation and for researchers in such fields as feminist philosophy of religion ecotheology philosophy of education social political philosophy and eastern philosophy it offers a more plausible and healthier worldview in which to explore possibilities in their respective fields that are diminished by the mainstream paradigm For spiritual seekers of all paths it offers a conception of philosophy as a practice of awakening goddess consciousness that unfolds over the course of successive lifetimes **A Message to the Well** Horatio Willis Dresser, 1910 *The Power of Silence* Horatio Willis Dresser, 1907 **Health and the Inner Life** Horatio Willis Dresser, 1906 *Classified Catalogue of the Carnegie Library of Pittsburgh* Carnegie Library of Pittsburgh, 1907 **The Naturalisation of the Supernatural** Frank Podmore, 1908 *Reincarnation* Richard Ingalese, 1928 **Cambridge Public Library Bulletin** Cambridge Public Library (Cambridge, Mass.), 1898 *Classified Catalogue of the Carnegie Library of Pittsburgh, 1895-1902* Carnegie Library of Pittsburgh, 1903 **A Physician to the Soul** Horatio Willis Dresser, 1908 *Classified Catalog of the Carnegie Library of Pittsburgh. 1895-1902.
