cultures of sport and leisure in late Victorian society but also for considering the intersections between recreation and the politics of everyday life A social history of sport Canoe and Canvas is particularly concerned with how gender class and race shaped the social cultural and physical landscapes of the ACA encampments Although there was an ever expanding arena of opportunity for leisure and sport in the late nineteenth century as the example of the ACA makes clear not all were granted equal access Most of the members of the American Canoe Association and the majority of the campers at the annual encampments were white middle class men though white women were extended partial membership in 1882 and in 1883 they were permitted to camp on site Canoe and Canvas also reveals how Black Indigenous and working class people while obscured in the historical record were indispensable to the smooth functioning of these events through their labour *The Infrastructure of Play* Dennis R. and reform our de facto industrial policies in order to equip the United States with the institutional capacity to formulate industrial interventions guided by strategic vision and bipartisan participation by labor and management **State Government and Economic Performance** Paul Brace, 1993 Beginning in the Reagan administration shifting federal economic policies have forced states to bear an increasing share of the burden of their economic development Some states have weathered the transition well others have not In *State Government and Economic Performance* Paul Brace combines political and economic analysis to examine the changing relationship between state and federal governments and to identify those factors which have allowed certain states to manage change effectively **Choice** , 1987 *New York, a Guide to Information and Reference Sources, 1979-1986* Manuel D.
