REINVENTING GOVERNMENT IN ICELAND

**A CASE STUDY
OF PUBLIC
MANAGEMENT
REFORM**

Reinventing Government In Iceland

Lauren Gardner

Reinventing Government In Iceland:

Reinventing Government in Iceland Ómar Hlynur Kristmundsson, 2003 The book describes a case study of governmental reform in Iceland during the period 1993-2000. Public management reform has become a political priority in Iceland as elsewhere in the world in the last two decades as a response to economic and administrative problems during this time. It has also been a reaction to ideas which have come in vogue for both diagnosing the problems of government and providing solutions. The problems identified involve the growing cost of the public sector and an inefficient and unresponsive bureaucracy. The solutions offered focus on ensuring efficiency, effectiveness and flexibility by transferring government activities to the competitive marketplace through privatization or by adopting a market mechanism within government. The literature has identified both theoretical flaws and potential limitations in the application of current governmental reform. The literature however does not provide voluminous empirical data on its effects. The book includes data on the significance of public management for the central government in Iceland and illustrates how various situational factors such as administrative characteristics, reform management capacity and experiential learning efforts have contributed to the reform outcome.

Nordic Civic Society Organisations and the Future of Welfare Services Aila-Leena Matthies, 2006 When well functioning national welfare states are put under pressure, also the tasks of civic society and citizens' mutual responsibility are being redefined. Hence the significance of the civic society organisations in one of the most successful and stable circumstances of welfare states in Northern Europe is of great interest. This publication gives a first comprehensive overview of existing research on civic society organisations in the area of welfare services in the five Nordic countries. Besides a comparative Nordic analysis, focussed national contributions are provided. Finally, leading European researchers connect the Nordic debate in to a stimulating European context. How far are the Nordic welfare traditions still of significance since all welfare states are similarly challenged by the global market economy? Can welfare organisations provide opportunities even for the most vulnerable groups to achieve full citizenship?

The A to Z of Iceland Guðmundur Halfdanarson, 2010-05-10 While Iceland is the second largest inhabited island in Europe with only 313 000 inhabitants in 2007, the Icelanders form one of the smallest independent nations in the world. Around two thirds of the population lives in the capital Reykjavík and its suburbs while the rest is spread around the inhabitable area of the country. Until fairly recently the Icelandic nation was unusually homogeneous both in cultural and religious terms. In 1981 around 98 percent of the nation was born in Iceland and 96 percent belonged to the Lutheran state church or other Lutheran religious sects. In 2007 these numbers were down to 89 and 86 percent respectively, reflecting the rapidly growing multicultural nature of Icelandic society. *The A to Z of Iceland* traces Iceland's history and provides a compass for the direction the country is heading. This is done through its chronology, introductory essays, appendixes, map, bibliography and hundreds of cross referenced dictionary entries on important persons, places, events and institutions and significant political, economic, social and cultural aspects. *Historical Dictionary of*

Iceland Gudmundur Halfdanarson, 2008-10-23 The second edition of the Historical Dictionary of Iceland traces Iceland's history and provides a compass for the direction the country is heading This is done through its chronology introductory essays appendixes map bibliography and hundreds of cross referenced dictionary entries on important persons places events and institutions and significant political economic social and cultural aspects Political Handbook of the World 2024-2025 Tom Lansford, 2025-04-18 The Political Handbook of the World 2024 2025 is the most authoritative and comprehensive reference guide available for understanding the political landscape of every nation and territory across the globe This updated edition features more than 200 entries offering detailed coverage of governmental structures political parties and current leadership Known for its unmatched depth the volume provides in depth analysis of both major and minor political parties and movements and delivers timely insights into recent controversies political crises and key events from the past two years This edition also includes up to date listings of ambassadors international organization memberships and expanded profiles of over 30 intergovernmental organizations and UN agencies Trusted by researchers analysts journalists and students this resource continues to deliver essential reliable political data and analysis *Historical Dictionary of Iceland* Sverrir Jakobsson, Gudmundur Halfdanarson, 2016-02-15 Iceland demonstrates most of the characteristics of a modern liberal democracy It has maintained political stability through a democratic process which enjoys universal legitimacy Rapid economic modernization has also secured its inhabitants one of the highest living standards in the world and a comprehensive and highly developed health system has ensured them longevity and one of the lowest rates of infant mortality in the world Icelanders face however formidable challenges in maintaining their status as an independent nation First the Icelandic economy is fairly fragile as overexploitation threatens the fish stocks that remain among Iceland's principal economic resources Second the country is rich in unused energy resources because many of its rivers are still not harnessed and geothermal power is abundant But using these resources will necessarily damage the pristine nature of the country forcing the politicians and the Icelandic public to choose between environmental protection and industrial expansion Finally it remains to be seen if a country with just over 329 740 inhabitants will be able to manage its foreign relations in a complex and constantly changing world This third edition of Historical Dictionary of Iceland contains a chronology an introduction and an extensive bibliography The dictionary section has over 200 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Iceland Phallogological Museum Sigurjón Baldur Hafsteinsson, 2014 In an age of various kinds of surgical and imaginary penis augmentations the Icelandic Phallogological Museum has appeared on the world stage as a tour de force of global castration and local creativity In this timely book Professor Sigurjon Baldur Hafsteinsson portrays some of the aesthetic political moral social and cultural significance of the unique and internationally famous Icelandic Phallogological Museum The book shows that the museum both ridicules and undermines traditions in

Western cultures when it comes to the nature of histories scholarly fields and cultural institutions simultaneously offering an alternative in knowledge production and cultural representation by focusing on and displaying the highly sensitive subject of penises

Series Museums Past and Present Museen Geschichte und Gegenwart Vol 7 [International Encyclopedia of Social Policy](#) Tony Fitzpatrick, Huck-ju Kwon, Nick Manning, James Midgley, Gillian Pascall, 2013-07-04 Available in paperback for the first time this milestone work offers an in depth treatment of all aspects of the discipline and practice of social policy globally Supported by a distinguished international advisory board the editors have compiled almost 900 000 words across 734 entries written by 284 leading specialists to provide authoritative coverage of concepts policy actors welfare institutions and services along a series of national regional and transnational dimensions Also included are biographical entries on major policy makers and shapers The editors have particularly striven to provide strong coverage of differing geographical and cultural traditions so that the variety of social policy as both an academic discipline and a domain of governance is reflected Contributors draw in and make the necessary connections with social policy s associated disciplines to provide a rich picture of this vast and highly diverse field Comprehensive and authoritative the Encyclopedia has sought to open up rather than to foreclose the numerous areas in which there is on going research debate and sometimes serious disagreement and divergence in theory and practice To this end entries attempt to introduce a core or common ground of understanding before moving on to a wider discussion of debates regarding different conceptual and geographical approaches The whole is integrated by cross referencing and each entry includes a bibliography for further reading There is a full index The International Encyclopedia of Social Policy provides the most substantial mapping of the international study and practice of social policy to date and will stand as a vital storehouse of knowledge for many years to come **Political Handbook of the World 2022-2023** Tom Lansford, 2023-06-09 The Political Handbook of the World 2022 2023 provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2022 2023 edition continues to be the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup Tom Lansford has compiled in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this update will aim to include coverage of current events issues crises and controversies from the course of the last two years *Corporate Governance and Business Ethics in Iceland* Throstrur Olaf Sigurjonsson, Robert H. Haraldsson, Jordan Mitchell, 2023-01-23 Corporate Governance and Business Ethics in Iceland provides real world case studies of how institutions approach governance and ethics in a country where one organization s actions often have a massive ripple effect throughout the entire nation *Party Patronage and Party Government in European Democracies* Petr Kopecký, Peter

Mair, Maria Spirova, 2012-07-26 *Party Patronage and Party Government in European Democracies* brings together insights from the worlds of party politics and public administration in order to analyze the role of political parties in public appointments across contemporary Europe Based on an extensive new data gathered through expert interviews in fifteen European countries this book offers the first systematic comparative assessment of the scale of party patronage and its role in sustaining modern party governments Among the key findings are First patronage appointments tend to be increasingly dominated by the party in public office rather than being used or controlled by the party organization outside parliament Second rather than using appointments as rewards as used to be the case in more clientelistic systems in the past parties are now more likely to emphasize appointments that can help them to manage the infrastructure of government and the state In this way patronage becomes an organizational rather than an electoral resource Third patronage appointments are increasingly sourced from channels outside of the party thus helping to make parties look increasingly like network organizations primarily constituted by their leaders and their personal and political hinterlands *Comparative Politics* is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.essex.ac.uk/ecpr The *Comparative Politics* series is edited by Professor David M Farrell School of Politics and International Relations University College Dublin Kenneth Carty Professor of Political Science University of British Columbia and Professor Dirk Berg Schlosser Institute of Political Science Philipps University Marburg **Political Handbook of the World 2020-2021** Tom Lansford, 2021-03-23 *The Political Handbook of the World* by Tom Lansford provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2020 2021 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system *The Political Handbook of the World 2020 2021* also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this update will aim to include coverage of current events issues crises and controversies from the course of the last two years *Social Policy in Challenging Times* Kevin Farnsworth, Zoë M. Irving, 2011 Bringing together a range of expert contributions this book is the first to address the relationship between the economic crisis and social policy within an international context The key lesson to emerge is that the crisis is better understood as a variety of crises each mediated by national context *Objects in the Archives* Kristján Mímisson, Davið Ólafsson, 2025-02-06 Situated on an intersection between Material Culture Studies History and Museum and Archival Studies this book investigates the material world of the

Icelandic population in the late Modern Era Utilizing the great wealth of inventories of household goods stored at The National Archives of Iceland in conjunction with material objects the book highlights new paths and insights into understanding people's possessions and material relations and the entwined biographies of people and things It shows how people shaped their own lives by means of things and how these material relations are archived and represented in heritage and museum spaces The book is divided into two parts that explore how material culture contributes to history the relationship between things and text and the practice of collecting things and address the process of assembly or how things gather Micro and macro methods of investigation tease out new approaches to debates around human thing relationships acknowledging ideas about material agency and social significance and that the human material relation is reciprocal This volume will appeal to students and researchers within the field of archaeology material culture studies museum studies heritage and the history of material culture

Privatization of Early Childhood Education and Care in Nordic Countries Håkon Solbu Trætteberg, Karl Henrik Sivesind, Maiju Paananen, Steinunn Hrafnisdóttir, 2023-09-08 This book explores the increasing role of private providers in early childhood education and care ECEC as they become a core part of the Nordic welfare model one that once rejected for profit involvement in public welfare Within this context ECEC has become the key battleground over private providers role in the welfare system Chapters compare five Nordic countries Iceland Finland Denmark Sweden and Norway to discuss possible benefits from having different types of providers public nonprofit and for profit in the welfare mix To conclude the authors also provide a comparative perspective on governance of the ECEC sector and on the development and functions of the Nordic welfare model

Public Management in Global Perspective Salvatore Schiavo-Campo, Hazel M. McFerson, 2014-12-18 Written by two authors with a wide range of experience in international affairs this introductory text addresses both the commonalities and diversity of administrative

practice around the world including a succinct but thorough overview of PA in the United States. It combines solid conceptual foundations with strong coverage of nuts and bolts how to topics such as personnel management procurement and budgeting and covers both developed countries and developing and transitional economies. The book's chapters are organized into four major sections: government functions and organization; management of government activity; interaction between government and citizens; and prospects of administrative reform. Plentiful illustrations and examples throughout the book and What to Expect sections and discussion questions in each chapter make this an ideal text for any PA course that takes a global perspective.

The Global Public Management Revolution Donald F. Kettl, 2005-07-29 Table of contents *Reclaiming the Future* Jane Kelsey, 2000-01-01 The vision of a global future spread through the world like wildfire in the last decade: exhilarating for some, alarming for others, apparently inexorable for all. As free market advocates would have it, there is no alternative. *Reclaiming the Future* tells a different story: that globalization is not inevitable, invincible, or intrinsically good. The deregulated global economy has proved highly unstable. The pursuit of unending growth is unsustainable, and the social damage that free markets cause is provoking an international backlash. Jane Kelsey explores the impact of globalization on the New Zealand economy. Her account of foreign investment and free trade policies, the role of the transnationals, and the challenges posed by global agreements and networks will open the eyes of readers. *Reclaiming the Future* opens wide the debate. New Zealanders are seeking for the direction of their country in the twenty-first century.

Strengthening Health System Governance: Better Policies, Stronger Performance Scott Greer, Matthias Wismar, Josep Figueras, 2015-11-16 Highly Commended in Health and Social Care in the 2017 BMA Medical Book Awards. Governance is the systematic patterned way in which decisions are made and implemented. The governance of a health system therefore shapes its ability to respond to the various well-documented challenges that health systems face today and its capacity to cope with both everyday challenges and new policies and problems. This book provides a robust framework that identifies five key aspects of governance distilled from a large body of literature that are important in explaining the ability of health systems to provide accessible, high-quality, sustainable health. These five aspects are transparency, accountability, participation, organizational integrity, and policy capacity. Part 1 of this book explains the significance of this framework, drawing out strategies for health policy success and lessons for more effective governance. Part 2 then turns to explore eight case studies in a number of different European regions, applying the framework to a range of themes including communicable diseases, public-private partnerships, governing competitive insurance, market reform, the role of governance in the pharmaceutical sector, and many more. The book explores how transparency, accountability, participation, integrity, and capacity are key aspects of health governance and shape decision-making and implementation. There is no simply good governance that can work everywhere; every aspect of governance involves costs and benefits. Context is crucial. Governance can explain policy success and failure, so it should be analysed and in some cases changed as part of policy formation and preparation. Some policies simply exceed

the governance capacity of their systems and should be avoided This book is designed for health policy makers and all those working or studying in the areas of public health health research or health economics
