Reinventing Romantic Poetry Russian Women:

Reinventing Romantic Poetry Diana Greene, 2004 *Reinventing Romantic Poetry* offers a new look at the Russian literary scene in the nineteenth century. While celebrated poets such as Aleksandr Pushkin worked within a male-centered Romantic aesthetic, the poet as a bard or sexual conqueror, nature as a mother or mistress, the poet's muse as an idealized woman, Russian women attempting to write Romantic poetry found they had to reinvent poetic conventions of the day to express themselves as women and as poets. Comparing the poetry of fourteen men and fourteen women from this period, Diana Greene revives and redefines the women's writings and offers a thoughtful examination of the sexual politics of reception and literary reputation. The fourteen women considered wrote poetry in every genre from visions to verse tales from love lyrics to metaphysical poetry as well as prose works and plays. Greene delves into the reasons why their writing was dismissed, focusing in particular on the work of Evdokiia Rostopchina, Nadezhda Khvoshchinskaia, and Karolina Pavlova. Greene also considers class as a factor in literary reputation, comparing canonical male poets with the work of other men whose work like the women's was deemed inferior at the time. The book also features an appendix of significant poems by Russian women discussed in the text. Some found in archival notebooks are published here for the first time, and others are reprinted for the first time since the mid-nineteenth century. **BOOK JACKET** *Reinventing Romantic Poetry* Diana Greene, 2004-01-15 *Reinventing Romantic Poetry* offers a new look at the Russian literary scene in the nineteenth century. Some very remarkable ones found these things in varying degrees, while others sought unsuccessfully but no less desperately to transcend the generations' old restrictions imposed by church, state, village, class, and gender. Like a Slavic *Downton Abbey*, this

book tells the stories not just of their outward lives but of their hearts and minds their voices and dreams their amazing accomplishments against overwhelming odds and their roles as feminists and avant gardists in shaping modern Russia and indeed the twentieth century in the West In their own words and images and each in their own unique way these remarkable Russian women construct a fascinating tapestry of a culture at the crossroads of modernity and on the brink of catastrophe

Women Writers in the Romantic Age John Claiborne Isbell, 2025-04-17 This groundbreaking book offers a comprehensive review of six hundred and fifty women writers from over fifty national traditions spanning Europe and the Americas during the transformative years of 1776 to 1848 Framed by revolutionary upheavals the book explores how women writers shaped and reflected Romanticism's global currents It fills a critical scholarly gap connecting disparate traditions and uncovering voices often overlooked in male dominated literary histories Through concise entries the book names every woman writer identified in its vast research from celebrated figures like Phillis Wheatley to lesser known authors whose manuscripts lay buried in archives Each entry provides essential biographical details while select excerpts in seventeen languages bring these voices to life revealing how women navigated the era's revolutionary ideals and patriarchal barriers Structured democratically the volume treats all writers equally whether anonymous pseudonymous or celebrated in their time It highlights their diverse experiences poets and novelists abolitionists and suffragists mothers and mill workers From memoirs to political tracts their works testify to the rich tapestry of women's contributions to Romanticism By illuminating these stories this book challenges national silos offering a panoramic view of Romanticism as a truly transnational female inclusive phenomenon It represents a go to resource for students and interested readers while setting the ground for future scholars to expand this vital field of study

Life Is Elsewhere Anne Lounsbury, 2019-11-15 In *Life Is Elsewhere* Anne Lounsbury shows how nineteenth century Russian literature created an imaginary place called the provinces a place at once homogeneous static anonymous and symbolically opposed to Petersburg and Moscow Lounsbury looks at a wide range of texts both canonical and lesser known in order to explain why the trope has exercised such enduring power and what role it plays in the larger symbolic geography that structures Russian literature's representation of the nation's space Using a comparative approach she brings to light fundamental questions that have long gone unasked how to understand for instance the weakness of literary regionalism in a country as large as Russia Why the insistence from Herzen through Chekhov and beyond that all Russian towns look the same In a literary tradition that constantly compared itself to a western European standard Lounsbury argues the problem of provinciality always implied difficult questions about the symbolic geography of the nation as a whole This constant awareness of a far off European model helps explain why the provinces in all their supposed drabness and predictability are a topic of such fascination for Russian writers why these anonymous places are in effect so important and meaningful notwithstanding the culture's nearly unrelenting emphasis on their nullity and meaninglessness Open Access edition funded by the National Endowment for the Humanities *A History of Russian*

Literature Andrew Kahn, Mark Naumovich Lipovetskiĭ, Irina Reyfman, Stephanie Sandler, 2018 Russia possesses one of the richest and most admired literatures of Europe reaching back to the eleventh century A History of Russian Literature provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day still rife with the creative experiments of post Soviet literary life The volume proceeds chronologically in five parts extending from Kievan Rus in the 11th century to the present day The coverage strikes a balance between extensive overview and in depth thematic focus Parts are organized thematically in chapters which a number of keywords that are important literary concepts that can serve as connecting motifs and case studies in depth discussions of writers institutions and texts that take the reader up close and Visual material also underscores the interrelation of the word and image at a number of points particularly significant in the medieval period and twentieth century The History addresses major continuities and discontinuities in the history of Russian literature across all periods and in particular bring out trans historical features that contribute to the notion of a national literature The volume s time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries space Holy Russia and the charismatic king that offers culturally relevant material to later writers This volume delivers a fresh view on a series of key questions about Russia s literary history by providing new mappings of literary history and a narrative that pursues key concepts rather more than individual authorial careers This holistic narrative underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures historical events and literary politics literary theory and literary innovation
