*The Cumulative Book Index*, 1995 A world list of books in the English language      Reinventing Professionalism Silvio Waisbord, 2013-08-26 Current anxiety about the future of news makes it opportune to revisit the notion of professionalism in journalism Media expert Silvio Waisbord takes this pressing issue as his theme and argues that professional journalism is both a normative and analytical notion It refers to reporting that observes certain ethical standards as well as to collective efforts by journalists to exercise control over the news Professionalism should not be narrowly associated with the normative ideal as it historically developed in the West during the past century Instead it needs to be approached as a valuable concept to throw into sharp relief how journalists define conditions and rules of work within certain settings Professionalization is about the specialization of labor and control of occupational practice These issues are important particularly amidst the combination of political technological and economic trends that have profoundly unsettled the foundations of modern journalism By doing so they have stimulated the reinvention of professionalism This engaging and insightful book critically examines the meanings expectations and critiques of professional journalism in a global context      **Subject Guide to**

**Blaming the Victim** Jairo Lugo-Ocando, 2014-12-20 Poverty it seems is a constant in today's news usually the result of famine exclusion or conflict In Blaming the Victim Jairo Lugo-Ocando sets out to deconstruct and reconsider the variety of ways in which the global news media misrepresent and decontextualise the causes and consequences of poverty worldwide The result is that the fundamental determinant of poverty inequality is removed from their accounts The book asks many biting questions When and how does poverty become newsworthy How does ideology come into play when determining the ways in which poverty is constructed in newsrooms and how do the resulting narratives frame the issue And why do so many journalists and news editors tend to obscure the structural causes of poverty In analysing the processes of news production and presentation around the world Lugo-Ocando reveals that the news makers' agendas are often as problematic as the geopolitics they seek to represent This groundbreaking study reframes the ways in which we can think and write about the enduring global injustice of poverty
