Relaciones Geográficas Del Siglo XVI Tlaxcala Tomo Segundo:

Relaciones Geográficas Del Siglo XVI: Tlaxcala, Tomo I René Acuña, 1982 *Relaciones Geográficas Del Siglo XVI* René Acuña, 1986 **Palaces and Courtly Culture in Ancient Mesoamerica** Julie Nehammer Knub, Christophe Helmke, Jesper Nielsen, 2014-01-19 This volume collects eight recent and innovative studies spanning the breadth of Mesoamerica from the Early Classic metropolis of Teotihuacan to Tenochtitlan the Late Postclassic capital of the Aztec and from the arid central Mexican highlands in the west to the humid Maya lowlands in the east **Images of Mithra** Philippa Adrych, Robert Bracey (Writer on coins), Dominic Dalglish, Stefanie Lenk, Rachel Wood, 2017 This work presents six case studies of objects from different periods and regions of antiquity that are labelled by variations of the name Mithra including the Roman Mithras Persian Mihr and Bactrian Mithra Each chapter places each object in its original context before questioning its role in religious ritual tradition and belief **Franciscan Missions and the Chumash Uprising** Robert H. Jackson, 2025-02-23 Between 1769 and 1834 Franciscan missionaries from the Apostolic College of San Fernando in Mexico City administered missions in what today is California The Franciscans attempted to convert the indigenous peoples to Catholicism and reshape their society and culture along with European norms In 1824 three years after Mexico gained its independence from Spain Chumash neophytes rebelled following the flogging by a Mexican soldier of a neophyte at Mission Santa Inés The rebellion quickly spread to two other missions and lasted a month until soldiers defeated the rebels This book analyzes the long and short term causes of the uprising and the larger historical context It focuses on the development of Mission La Purísima Concepción where the rebellion lasted the longest A root cause of the uprising was deteriorating conditions of life on the missions resulting from the outbreak of the independence war in Mexico in 1810 *Relaciones Geográficas Del Siglo XVI: México, pt.3* , *Frontiers of Evangelization* Robert H. Jackson, 2017-07-21 The Spanish crown wanted native peoples in its American territories to be evangelized and to that end facilitated the establishment of missions by various Catholic orders Focusing on the Franciscan missions of the Sierra Gorda in Northern New Spain Mexico and the Jesuit missions of Chiquitos in what is now Bolivia *Frontiers of Evangelization* takes a comparative approach to understanding the experiences of indigenous populations in missions on the frontiers of Spanish America Marshaling a wealth of data from sacramental military and census records Robert H Jackson explores the many factors that influenced the stability of mission settlements including the indigenous communities previous subsistence patterns and family structures the evangelical techniques of the missionary orders the social and political organization within the mission communities and epidemiology in relation to population density and mobility The two orders Jackson's research shows organized and administered their missions very differently The Franciscans took a heavy handed approach and implemented disruptive social policies while the Jesuits engaged in a comparatively kinder and gentler form of colonization Yet the most critical factor to the missions success Jackson finds was the indigenous peoples existing demographic profile in particular their mobility Nonsedentary populations

like the Pames and Jonaces of the Sierra Gorda were more prone to demographic collapse once brought into the mission system whereas sedentary groups like the Guaran of Chiquitos experienced robust growth and greater resistance to disease and natural disaster Drawing on more than three decades of scholarly work this analysis of crucial archival material augments our understanding of the role of missions in colonization and the fate of indigenous peoples in Spanish America

The Bourbon Reforms and the Remaking of Spanish Frontier Missions Robert H. Jackson, 2022-01-17 The Bourbon monarchs who ascended the Spanish throne in 1700 attempted to reform the colonial system they had inherited and in particular to make administration more efficient and cost effective This book analyses one aspect of the Bourbon reforms which was the efforts to transform frontier missions to make the missions more cost effective and to accelerate the integration of indigenous peoples in northern Mexico to European cultural norms In some instances the Crown had funded missions for more than a century but with minimal results The book attempts to show how the mission programs changed and what the consequences especially demographic were for the indigenous peoples brought to live on the missions *El Sol-Dios y Cristo* Stresser-Péan, Guy, 2024-07-22 Guy Stresser P an analiza el proceso de cristianizaci n de los indios de M xico a la luz del estudio de un caso espec fico la Sierra Norte de Puebla Su investigaci n profundamente original presenta las tradiciones ind genas que se han mantenido en diferentes mbitos a trav s del tiempo y resalta aquellas que paulatinamente han dejado de practicarse el uso del calendario totonaco o la eliminaci n progresiva de este lenguaje en beneficio del n huatl

Pames, Jonaces, and Franciscans in the Sierra Gorda

Robert H. Jackson, 2017-01-06 In the mid sixteenth century the Spanish faced a prolonged conflict in Mexico known as the Chichimeca War 1550-1600 beyond the porous cultural frontier between the sedentary indigenous populations of central Mexico and the bands of nomadic hunters and gatherers collectively known by the derogatory Nahuatl term Chichimeca or Mecos Franciscan Dominican and Augustinian missionaries developed methods and an organizational scheme to evangelize the sedentary populations of central Mexico but this did not work well beyond the Chichimeca frontier where missions often proved to be ephemeral. Moreover the missionaries uncovered evidence of the persistence of pre-Hispanic religious beliefs as they also did in central Mexico. In many cases the missionaries focused their attention on the colonies of sedentary indigenous peoples established beyond the frontier. This study outlines efforts over more than 200 years to evangelize the Pames and Jonaces in a huge territory known as the Sierra Gorda that covered parts of the modern states of Querétaro Hidalgo Estado de México Guanajuato and San Luis Potosí and involved Franciscan Dominican Augustinian and Jesuit missionaries. It documents the last missionary impulse spurred by the project of José de Escandón and a new group of Franciscan missionaries to get the Pames and Jonaces to adopt a sedentary lifestyle after two centuries of failed efforts.

The Oxford Handbook of Mesoamerican Archaeology Deborah L.

Nichols, Christopher A. Pool, 2012-10-18 The Oxford Handbook of Mesoamerican Archaeology provides a current and comprehensive guide to the recent and ongoing archaeology of Mesoamerica. Though the emphasis is on prehispanic societies this Handbook also includes coverage of important new work by archaeologists on the Colonial and Republican periods. Unique among recent works the text brings together in a single volume article-length regional syntheses and topical overviews written by active scholars in the field of Mesoamerican archaeology. The first section of the Handbook provides an overview of recent history and trends of Mesoamerica and articles on national archaeology programs and practice in Central America and Mexico written by archaeologists from these countries. These are followed regional syntheses organized by time period beginning with early hunter-gatherer societies and the first farmers of Mesoamerica and concluding with a discussion of the Spanish Conquest and frontiers and peripheries of Mesoamerica. Topical and comparative articles comprise the remainder of Handbook. They cover important dimensions of prehispanic societies from ecology economy and environment to

social and political relations and discuss significant methodological contributions such as geo chemical source studies as well as new theories and diverse theoretical perspectives The Handbook concludes with a section on the archaeology of the Spanish conquest and the Colonial and Republican periods to connect the prehispanic proto historic and historic periods This volume will be a must read for students and professional archaeologists as well as other scholars including historians art historians geographers and ethnographers with an interest in Mesoamerica *Los hñähñü del Valle del Mezquital* Patricia Fournier García,2007 *Urban Plan, Architecture, and the Geography of the Sacred in Colonial Morelos* Robert H. Jackson,Leonardo Meraz Quintana,2024-12-02 In the sixteenth century Franciscan Dominican and Augustinian missionaries attempted to evangelize the indigenous peoples of central Mexico Indigenous peoples incorporated the new faith into their belief system on their own terms and continued to conceptualize a sacred geography that ordered their world and regulated time At the same time the missionaries had new sacred complexes built but the question remains why did indigenous peoples dedicate labor and community resources to these projects This study analyzes the urban plan of indigenous communities the construction of new sacred complexes and the ways in which the urban plan conformed to the notion of sacred geography
